IMPORTANT: You must read the following disclaimer before continuing. The following disclaimer applies to the attached Prospectus accessed from this page or otherwise received as a result of such access and you are therefore advised to read this disclaimer page carefully before reading, accessing or making any other use of the attached Prospectus. In accessing the attached Prospectus, you agree to be bound by the following terms and conditions, including any modifications to them from time to time .

NOTHING IN THIS ELECTRONIC TRANSMISSION CONSTITUTES AN OFFER OF SECURITIES FOR SALE IN THE UNITED STATES OR ANY OTHER JURISDICTION. ANY SECURITIES TO BE ISSUED WILL NOT BE REGISTERED UNDER THE SECURITIES ACT OF 1933 (THE “SECURITIES ACT”) AND MAY NOT BE OFFERED OR SOLD IN THE UNITED STATES OR TO OR FOR THE ACCOUNT OR BENEFIT OF U.S. PERSONS (AS SUCH TERMS ARE DEFINED IN REGULATION S UNDER THE SECURITIES ACT) UNLESS REGISTERED UNDER THE SECURITIES ACT OR PURSUANT TO AN EXEMPTION FROM SUCH REGISTRATION.

THE ATTACHED PROSPECTUS MAY NOT BE FORWARDED OR DISTRIBUTED TO ANY OTHER PERSON AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER, AND IN PARTICULAR, MAY NOT BE FORWARDED TO ANY U.S. PERSON OR TO ANY U.S. ADDRESS. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS DOCUMENT IN WHOLE OR IN PART IS UNAUTHORISED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS.

Confirmation of Your Representation: You have been sent the attached Prospectus on the basis that you have confirmed to Citigroup Global Markets Limited and ING Bank N.V., London Branch, being the senders of the attached, that (i) you are not in the United States or a U.S. Person and (ii) you consent to delivery by electronic transmission.

This Prospectus has been sent to you in an electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of transmission and consequently neither Citigroup Global Markets Limited, ING Bank N.V., London Branch nor any person who controls Citigroup Global Markets Limited, ING Bank N.V., London Branch or any director, officer, employee or agent of any of these, or affiliate of any such person accepts any liability or responsibility whatsoever in respect any difference between the Prospectus distributed to you in electronic format and the hard copy version available to you on request from Citigroup Global Markets Limited and ING Bank N.V., London Branch.

You are reminded that the attached Prospectus has been delivered to you on the basis that you are a person into whose possession this Prospectus may be lawfully delivered in accordance with the laws of the jurisdiction in which you are located and you may not, nor are you authorised to, deliver this Prospectus to any other person.

The attached Prospectus may only be communicated to persons in circumstances where Section 21(1) of the Financial Services and Markets Act 2000, as amended, does not apply.

CenterCredit International B.V.

(a limited liability company incorporated in The Netherlands)

U.S.\$300,000,000

**8 per cent. Senior Notes due 2011
unconditionally and irrevocably guaranteed by**

JSC Bank CenterCredit

(a joint stock company incorporated in the Republic of Kazakhstan)

Issue price: 99.495 per cent.

The U.S.\$300,000,000 8 per cent. Senior Notes due 2011 (the "Notes") are issued by CenterCredit International B.V. (the "Issuer") and are guaranteed by JSC Bank CenterCredit (the "Bank" or the "Guarantor"). Interest on the Notes will accrue from 2 February 2006 and will be payable semi annually in arrear on 2 February and 2 August of each year, commencing on 2 August 2006. The Bank will unconditionally and irrevocably guarantee the due and punctual payment of all amounts at any time becoming due and payable in respect of the Notes (the "Guarantee") pursuant to a trust deed to be dated 2 February 2006 (the "Trust Deed") between the Issuer, the Bank and Deutsche Trustee Company Limited, as trustee for the holders of the Notes (the "Trustee"). The Notes will be subject to, and have the benefit of, the Trust Deed.

Application has been made to the Financial Services Authority in its capacity as competent authority under the Financial Services and Markets Act 2000, as amended (the "FSMA") (in such capacity, the "UK Listing Authority") for the Notes to be admitted to the official list of the UK Listing Authority (the "Official List") and to the London Stock Exchange plc (the "London Stock Exchange") for such Notes to be admitted to trading on the London Stock Exchange's Gilt Edged and Fixed Interest Market. Reference in this prospectus to Notes being "listed" (and all related references) shall mean that such Notes have been admitted to the Official List and admitted to trading on the London Stock Exchange's Gilt Edged and Fixed Interest Market. The London Stock Exchange's Gilt Edged and Fixed Interest Market is a regulated market for the purpose of Directive 93/22/EEC (the "Investment Services Directive").

See "Risk Factors" starting on page 11 for a discussion of certain factors that should be considered in connection with an investment in the Notes.

Payments on the Notes will be made free and clear of any withholding taxes in The Netherlands. Although the Guarantor is obliged to withhold taxes from payments to the Issuer to fund the Issuer's obligations under the Notes, the Guarantor has agreed to gross up such payments to ensure the Issuer receives an amount sufficient to meet its obligations in respect of the Notes as if no withholding had been made. The Issuer may redeem the Notes in whole, but not in part, if a withholding of tax is required in The Netherlands or in the event that the Guarantor is required to increase the amount it is required to gross up after the date hereof, all as more fully set out in Condition 8.2 (*Redemption for tax reasons*) of the Terms and Conditions of the Notes.

The Notes have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "Securities Act"), and are subject to United States tax law requirements. The Notes are being offered outside the United States by the Managers (as defined in "Subscription and Sale") in accordance with Regulation S under the Securities Act ("Regulation S"), and may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act.

The Notes will be in registered form and will initially be represented by beneficial interests in a global note (the "Global Note"), in fully registered form, without interest coupons, which will be deposited on or around 2 February 2006 (the "Closing Date") with a common depository for Euroclear Bank S.A./N.V., as operator of the Euroclear System (the "Euroclear Operator") and Clearstream Banking, société anonyme ("Clearstream, Luxembourg"). The Global Note will be exchangeable in certain limited circumstances in whole, but not in part, for Notes in definitive, fully registered, form, without coupons, in denominations of U.S.\$100,000 and integral multiples of U.S.\$1,000 in excess thereof without interest coupons attached. See "Form of Notes and Transfer Restrictions; Summary of Provisions Relating to the Notes in Global Form".

Joint Lead Managers

Citigroup

ING Wholesale Banking

The date of this Prospectus is 30 January 2006

This Prospectus together with the attached unaudited interim condensed consolidated financial statements for the nine months ended 30 September 2005 and the audited consolidated financial statements for the year ended 31 December 2004 and December 2003 constitute a prospectus for the purposes of Article 5.4 of the Directive 2003/71/EC.

None of the Managers, the Trustee or any of their respective directors, affiliates, advisers or agents, has made an independent verification of the information contained herein in connection with the issue or offering of the Notes or guarantees the accuracy or completeness of such information, and such information is not to be construed as a representation or warranty by the Managers, the Trustee or any of their respective directors, affiliates, advisers or agents. In making an investment decision, investors must rely on their own examination of the Issuer, the Guarantor and its subsidiaries (together, the "Group") and the terms of the offering, including the merits and the risks involved. The contents of this Prospectus are not to be construed as legal, business or tax advice. Each prospective investor should consult its own legal adviser, business adviser or tax adviser for legal, business or tax advice.

No person is authorised to give any information or make any representation not contained in this Prospectus in connection with the issue and offering of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by any of the Issuer, the Bank, the Managers or the Trustee or any of their respective directors, affiliates, advisers or agents. No representation or warranty, express or implied, is made by the Managers or the Trustee or any of their respective directors, affiliates, advisers or agents and nothing contained in this Prospectus is or shall be relied upon as a promise, warranty or representation, whether to the past or the future. The delivery of this Prospectus does not imply that there has been no change in the business and affairs of the Issuer, the Bank or the Group since the date hereof or that the information herein is correct as of any time subsequent to its date.

This Prospectus does not constitute an offer to sell or a solicitation of an offer to purchase the Notes by any person in any jurisdiction where it is unlawful to make such an offer or solicitation. The distribution of this Prospectus and the offer or sale of the Notes in certain jurisdictions is restricted by law. This Prospectus has been prepared by the Issuer and the Bank solely for use in connection with the proposed offering of the Notes and for the listing of the Notes on the London Stock Exchange's Gilt Edged and Fixed Interest Market and may be used only for the purposes for which it is published. This Prospectus may not be used for, or in connection with, and does not constitute, any offer to, or solicitation by, anyone in any jurisdiction or under any circumstance in which such offer or solicitation is not authorised or is unlawful. Persons into whose possession this Prospectus may come are required by the Issuer, the Bank, the Managers and the Trustee to inform themselves about and to observe such restrictions. Further information with regard to restrictions on offers and sales of the Notes and the distribution of this Prospectus is set out under "Subscription and Sale".

IN CONNECTION WITH THE ISSUE OF THE NOTES, CITIGROUP GLOBAL MARKETS LIMITED (OR ANY PERSON ACTING ON BEHALF OF CITIGROUP GLOBAL MARKETS LIMITED) MAY OVER-ALLOT NOTES (PROVIDED THAT THE AGGREGATE PRINCIPAL AMOUNT OF NOTES ALLOTTED DOES NOT EXCEED 105 PER CENT. OF THE AGGREGATE PRINCIPAL AMOUNT OF THE NOTES) OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL FOR A LIMITED PERIOD AFTER THE CLOSING DATE. HOWEVER, THERE IS NO ASSURANCE THAT CITIGROUP GLOBAL MARKETS LIMITED (OR ANY PERSON ACTING ON BEHALF OF CITIGROUP GLOBAL MARKETS LIMITED) WILL UNDERTAKE STABILISATION ACTION. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE NOTES IS MADE AND, IF BEGUN, MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE NOTES.

RESPONSIBILITY STATEMENT

The Issuer and the Bank (the “Responsible Persons”) accept responsibility for the information contained in this Prospectus. To the best of the knowledge of the Responsible Persons (which have taken all reasonable care to ensure that such is the case), the information contained in this Prospectus is in accordance with the facts and contains no omission likely to affect the import of such information.

Certain information in this Prospectus contained under the headings “Management’s Discussion and Analysis of Results of Operations and Financial Condition—Kazakhstan’s economy” and “The Banking Sector in Kazakhstan” has been extracted from documents and other publications released by, and is presented on the authority of, publications released by the National Bank of Kazakhstan (the “NBK”) and Kazakhstan’s National Statistical Agency (the “NSA”). There is not necessarily any uniformity of view among such sources as to such information provided herein. The Bank accepts responsibility for accurately reproducing such extracts, and as far as it is aware and is able to ascertain from information published by such sources, no facts have been omitted which would render such information inaccurate or misleading.

ENFORCEMENT OF FOREIGN JUDGMENTS

The Bank is a joint stock company organised under the laws of Kazakhstan and all of its officers and directors and certain other persons referred to in this Prospectus are residents of Kazakhstan. All or a substantial portion of the assets of the Bank and most of such persons are located in Kazakhstan. As a result, it may not be possible (a) to effect service of process upon the Bank or any such person outside Kazakhstan, (b) to enforce against any of them, in courts of jurisdictions other than Kazakhstan, judgments obtained in such courts that are predicated upon the laws of such other jurisdictions or (c) to enforce against any of them, in Kazakhstan's courts, judgments obtained in jurisdictions other than Kazakhstan, including judgments obtained on the Trust Deed in the courts of England.

The Notes and the Trust Deed are governed by the laws of England and the Issuer and the Bank have agreed in the Notes and the Trust Deed that disputes arising thereunder are subject to the jurisdiction of the English courts or, at the election of the Trustee or, in certain circumstances, a Noteholder, to arbitration in London, England. See Condition 18 (*Governing Law; Jurisdiction and Arbitration*) under "Terms and Conditions of the Notes". Kazakhstan's courts will not enforce any judgment obtained in a court established in a country other than Kazakhstan unless there is in effect a treaty between such country and Kazakhstan providing for reciprocal enforcement of judgments and then only in accordance with the terms of such treaty. There is no such treaty in effect between Kazakhstan and England. However, each of Kazakhstan and England are parties to the 1958 New York Convention on Recognition and Enforcement of Arbitral Awards (the "Convention") and, accordingly, an arbitral award under the Convention should generally be recognised and enforceable in Kazakhstan provided the conditions to enforcement set out in the Convention are met.

FORWARD-LOOKING STATEMENTS

Certain statements included herein may constitute forward-looking statements that involve a number of risks and uncertainties. Such forward-looking statements can be identified by the use of forward-looking terminology such as “estimates”, “believes”, “expects”, “may”, “are expected to”, “intends”, “will”, “will continue”, “should”, “would be”, “seeks”, “approximately”, or “anticipates”, or similar expressions or the negative thereof or other variations thereof or comparable terminology, or by discussions of strategy, plans or intentions. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this Prospectus and include statements regarding the Bank’s intentions, beliefs or current expectations concerning, amongst other things, the Bank’s results of operations, financial condition liquidity, prospects, growth, strategies and the industry in which it operates. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend n circumstances that may or may not occur in the future.

Prospective investors should be aware that forward-looking statements are not guarantees of future performance and that the Bank’s actual results of operations, financial condition and liquidity and the development of the industry in which it operates may differ materially from those made in or suggested by the forward-looking statements contained in this Prospectus. Such forward-looking statements are necessarily dependent on assumptions, data or methods that may be incorrect or imprecise and that may be incapable of being realised.

Factors that might affect such forward-looking statements include, among other things, overall economic and business conditions; the demand for the Bank’s services; competitive factors in the market sectors in which the Bank competes; changes in governmental regulation; changes in tax requirements including tax rate changes, new tax laws and revised tax law interpretations; results of litigation or arbitration; interest rate fluctuations and other market conditions, including foreign currency rate fluctuations; economic and political conditions in international markets, including governmental changes and restrictions on the ability to transfer capital across borders; and the timing, impact and other uncertainties of future actions. See “Risk Factors” for a discussion of important factors that could cause actual results to differ materially from these forward-looking statements.

The Bank is not obliged to, and does not intend to, update or revise any forward-looking statements made in this Prospectus whether as a result of new information, future events or otherwise. All subsequent written or oral forward-looking statements attributed to the Bank, or persons acting on the Bank’s behalf, are expressly qualified in their entirety by the cautionary statements contained throughout this Prospectus. A prospective purchaser of the Notes should not place undue reliance on these forward-looking statements.

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

The Bank maintains its books of account in Tenge in accordance with the relevant laws in Kazakhstan and with the regulations of the NBK. Its restated consolidated financial statements as at and for the years ended 31 December 2004 and 2003 have been prepared in accordance with International Financial Reporting Standards (“IFRS”) (formerly referred to as the International Accounting Standards (“IAS”)), and have been audited by TOO Deloitte & Touche, Kazakhstan located at 240-v Furmanov Street, Almaty, Kazakhstan. The consolidated interim condensed financial statements as at and end for the months ended 30 September 2005, 2004 and 2003 are unaudited, and were prepared in accordance with IFRS.

Certain figures included in this Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

In this Prospectus:

- “Bank”, and “the Guarantor” refer to JSC Bank CenterCredit, and, where the context permits, the Bank and its subsidiaries;
- “Basel Accord” refers to the 1988 Capital Accord adopted by the Basel Committee on Bank Regulations and Supervisory Practice;
- “CIS” refers to the Commonwealth of Independent States;
- “DBK” refers to the Development Bank of Kazakhstan;
- “EBRD” refers to the European Bank for Reconstruction and Development;
- “EU” refers to the European Union;
- “Issuer” refers to CenterCredit International B.V.
- “Kazakhstan” or the “Republic” are to the Republic of Kazakhstan;
- “NBK” refers to the National Bank of Kazakhstan;
- “NBK Regulations” refers to the regulations published by the NBK;
- “NSA” refers to Kazakhstan’s National Statistical Agency;
- “OECD” refers to the Organisation for Economic Co-operation and Development;
- “Tenge” or “KZT” are to Kazakhstan Tenge, the official currency of Kazakhstan;
- “United States” or the “U.S.” refers to the United States of America;
- “€” and “euros” refer to the single currency of the participating Member States in the Third Stage of European Economic and Monetary Union of the Treaty Establishing the European Community, as amended from time to time; and
- “U.S.\$” and “U.S. dollars” refer to the lawful currency of the United States.

Solely for the convenience of the reader, the Bank has in “Summary Financial Information” and “Selected Financial and Other Information” translated items from its consolidated financial statements for or as at the nine months ended 30 September 2005 and 30 September 2004 and for or as at the years ended 31 December 2004 and 31 December 2003 contained in this Prospectus into U.S. dollars at the rates of U.S.\$1.00 = KZT133.89, U.S.\$1.00 = KZT134.56, U.S.\$1.00 = KZT130.00 and U.S.\$1.00 = KZT144.22, respectively.

No representation is made that the Tenge or U.S. dollar amounts in this Prospectus could have been converted into U.S. dollars or Tenge, as the case may be, at any particular rate or at all.

OVERVIEW OF THE ISSUER AND THE BANK

The following summary highlights significant aspects of the Issuer's and of the Bank's business and the offering of the Notes, but prospective investors should read this entire Prospectus, including the Bank's historical audited consolidated financial statements and related notes, included elsewhere in this Prospectus, before making an investment decision. Prospective investors also should carefully consider the information set forth under "Risk Factors."

The Issuer

The Issuer is a limited liability company incorporated on 4 January 2006 under the laws of The Netherlands. The Issuer's primary business consists of raising funds on the international capital markets and lending such funds to the Bank.

The Bank

The Bank is a joint stock company incorporated under the laws of Kazakhstan. The Bank was originally registered with the state bank of the former Soviet Union on 19 September 1988 as Almaty Oblast Central Cooperative Bank CenterBank.

In 1991, the Bank was re-registered as Kazakhstan Central Joint Stock Bank CenterBank and in August 1998, the Bank merged with CJSC Zhilstroibank. In 2004, the Bank was re-registered as joint stock company Bank CenterCredit.

The Bank's Business

The Bank is the fifth largest commercial bank in Kazakhstan in terms of both assets, which as at 30 September 2005 equalled KZT257,934.8 million, and deposit accounts held by non-bank customers ("customer accounts"), which as at the same date equalled KZT127,909.8 million. The Bank's primary business consists of corporate and retail banking. Its corporate banking activities include providing a broad range of wholesale banking products to a diversified group of domestic customers, primarily small- and medium-sized companies. The Bank's retail banking activities and products include retail lending, deposit taking and issuing credit and debit cards. The Bank is also an active participant in the fixed income securities market and foreign currency markets in Kazakhstan.

As at 30 September 2005, the Bank had 19 branch offices and 108 outlets in addition to its head office in Almaty.

The Bank's Business Strategy

The Bank's strategy is to increase its market share and total assets by strengthening its position in all segments of the market, with a particular focus on small- and medium-sized enterprises and retail customers. In order to implement its strategy, the Bank intends to focus on the following: expand its banking and capital market activities, strengthen its funding base and capital base, enhance its risk management infrastructure and policies, enhance operating efficiency, establish strategic partnerships with international financial institutions and increase its geographic presence.

The Bank's Credit Ratings

The Bank is rated Ba1 by Moody's Investors Services Inc. ("**Moody's**") and BB- by Fitch Ratings Ltd ("**Fitch**").

The Notes are expected to be assigned a rating of Ba1 by Moody's, and BB- by Fitch.

A security credit rating is not a recommendation to buy, sell or hold the securities, and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

The Bank's address is 100, Shevchenko Street, Almaty, 050022, Kazakhstan.

SUMMARY FINANCIAL INFORMATION

The following summary historical financial information has been derived from the Bank's audited consolidated financial statements as at and for the years ended 31 December 2004 and 2003, which were audited by TOO Deloitte & Touche, Kazakhstan, the Kazakhstan national practice of Deloitte Touche Tohmatsu ("DTT"). DTT is a Swiss Verein and each of its national practices is a separate and independent legal entity. The summary information for the nine months ended 30 September 2005 and 2004 and as at 30 September 2005 is extracted from the unaudited condensed consolidated interim financial statements prepared by the Bank. Investors should not rely on interim results as being indicative of results the Bank may expect for the full year. The Bank's financial statements have been prepared in accordance with IFRS and are presented in Tenge.

Prospective investors should read the following summary consolidated financial and other information in conjunction with the information contained in "Capitalisation," "Management's Discussion and Analysis of Results of Operations and Financial Condition" and the Bank's consolidated interim financial statements and consolidated financial statements and the related notes thereto appearing elsewhere in this Prospectus.

(1) Based on the average of the opening and closing balances for the period.

(2) Annualised.

(3) Averages are based upon average daily balances.

(4) Net interest margin is net interest income before provisions for impairment losses as a percentage of average interest-earning assets.

(5) Liquid assets include cash and balances with the NBK, loans and advances to banks (with maturity of less than one month), assets held-for-trading and investment securities.

(6) Calculated in accordance with the Basel Accord, as currently in effect.

(7) For the definition of non-performing loans used by the Bank, see "Description of the Bank—Lending Policies and Procedures—Provisioning Policy".

OVERVIEW OF THE OFFERING

The summary below describes the principal terms of the Notes and the Guarantee. See “Terms and Conditions of the Notes” and “Form of Notes and Transfer Restrictions” for a more detailed description of the Notes.

Issuer:	CenterCredit International B.V.
Guarantor:	JSC Bank CenterCredit
Issue:	U.S.\$300,000,000 principal amount of 8 per cent. Notes due 2011.
Joint Lead Managers:	Citigroup Global Markets Limited and ING Bank N.V., London Branch.
Issue Price:	99.495 per cent. of the principal amount of the Notes
Issue Date:	2 February 2006
Maturity Date	2 February 2011
Trustee:	Deutsche Trustee Company Limited
Principal Paying and Transfer Agent:	Deutsche Bank AG, London Branch
Registrar:	Deutsche Bank Luxembourg S.A.
Interest and Interest Payment Dates:	The Notes will bear interest at a rate of 8 per cent. per annum. Interest on the Notes will accrue from 2 February 2006 and will be payable semi-annually in arrear on 2 February and 2 August of each year, commencing on 2 August 2006.
Guarantee:	The Bank will, on or prior to the Issue Date, enter into the Trust Deed under which the Bank will guarantee, on an unconditional basis, due payment of all sums payable by the Issuer under the Notes.
Status:	The Notes constitute direct, general, unconditional and (subject to Condition 5) unsecured obligations of the Issuer which rank and will rank <i>pari passu</i> among themselves and at least <i>pari passu</i> in right of payment with all other present and future unsecured and unsubordinated obligations of the Issuer, save only for such obligations as may be preferred by mandatory provisions of applicable law. See “Terms and Conditions of the Notes—Status.” The obligations of the Bank under its Guarantee in respect of the Notes constitute direct, general, unconditional and (subject to Condition 5 (<i>Negative Pledge and Certain Covenants</i>)) unsecured obligations of the Bank which rank and will rank at least <i>pari passu</i> in right of payment with all other present and future unsecured obligations of the Bank as may be preferred by mandatory provisions of applicable law of general application. See “Terms and Conditions of the Notes—Status.”
Form:	The Notes will be issued in registered form. The Notes will initially be represented by beneficial interests in a Global Note, in fully registered form, without interest coupons. The Global Note will be exchangeable in certain limited circumstances for Notes in definitive, fully registered, form in denominations of U.S.\$100,000 and integral multiples of

U.S.\$1,000 in excess thereof, without interest coupons attached. See “Form of Notes and Transfer Restrictions”.

Tax Redemption:

The Notes may be redeemed at the option of the Issuer in whole, at their principal amount, together with interest accrued to the date fixed for redemption, in the event of certain changes in taxation in the Republic of Kazakhstan. See Condition 8.2 (*Redemption for tax reasons*).

Negative Pledge:

Each of the Issuer and the Bank will agree that, so long as any Note remains outstanding, it shall not and, in the case of the Bank, shall not permit any of its Subsidiaries (as defined in Condition 5), subject to certain exceptions, to create or permit to subsist any mortgage, charge, lien, pledge or other security interest upon the whole or any part of their respective undertakings, assets or revenues to secure any Indebtedness for Borrowed Money (as defined in Condition 5) unless the Notes are secured equally and rateably with such other Indebtedness for Borrowed Money or are otherwise given the benefit of such security interest. See “Terms and Conditions of the Notes—Negative Pledge.”

Certain Covenants:

The Notes and the Trust Deed will contain certain covenants, including, without limitation, covenants with respect to limitation on certain transactions, limitation on payment of dividends and maintenance of capital adequacy.

Events of Default:

If an Event of Default occurs, the Trustee may, subject as provided in the Trust Deed, give notice to the Issuer and the Guarantor that the Notes are and shall become immediately due and repayable at their principal amount together with accrued interest. See also Condition 11 (*Events of Default*).

Use of Proceeds:

The Issuer will deposit the proceeds from the issuance of the Notes with the Bank who will use such proceeds to fund loans and advances to its borrowers and for other general corporate purposes, including liquidity management.

Listing:

Application has been made to the UK Listing Authority for the Notes to be admitted to the Official List and to the London Stock Exchange for such Notes to be admitted to trading on the London Stock Exchange’s Gilt Edged and Fixed Interest Market.

Selling Restrictions:

The Notes have not been and will not be registered under the Securities Act and, subject to certain exceptions, may not be offered or sold within the United States. The Notes may be sold in other jurisdictions (including the United Kingdom and the Republic of Kazakhstan) only in compliance with applicable laws and regulations. See “Subscription and Sale”.

Governing Law:

The Notes and the Trust Deed will be governed by, and construed in accordance with, the laws of England.

Risk Factors:

An investment in the Notes involves a high degree of risk. See “Risk Factors”.

Security Codes:

The identification numbers for the Notes are as follows:

ISIN Code XS0243010443
Common Code 024301044

RISK FACTORS

Prior to making an investment decision, prospective purchasers of the Notes should carefully consider, along with the other matters referred to in this Prospectus, the following risk factors associated with investment in Kazakhstan entities generally and in the Notes specifically. The risks and uncertainties below are not the only ones the Bank faces. Additional risks and uncertainties not presently known to the Bank, or that it currently believes are immaterial, could also impair the Bank's business operations and, as a result, its ability to service its payment obligations under the Guarantee. Prospective investors should pay particular attention to the fact that the Bank is governed by a legal and regulatory environment in Kazakhstan which in some respects may differ from that prevailing in other countries.

Risk Factors Relating to the Republic of Kazakhstan

Investors in emerging markets such as Kazakhstan should be aware that these markets are subject to greater risk than more developed markets, including in some cases significant legal, economic and political risks. Investors should also note that emerging economies such as Kazakhstan's are subject to rapid change and that the information set out in this Prospectus may become outdated relatively quickly. Accordingly, investors should exercise particular care in evaluating the risks involved and must decide for themselves whether, in light of those risks, their investment is appropriate. Generally, investment in emerging markets is suitable only for sophisticated investors who fully appreciate the significance of the risks involved and investors are urged to consult with their own legal and financial advisors before making an investment in the Notes.

Risks relating to political and regional considerations

Kazakhstan became an independent sovereign state in 1991 as a result of the dissolution of the former Soviet Union. Since then, Kazakhstan has experienced significant change as it emerged from a single-party political system and a centrally controlled command economy to a market-oriented, democratic model. The transition has been marked by political uncertainty and tension, a recessionary economy marked by high inflation and instability of the local currency and rapid, but incomplete, changes in the legal environment.

Since 1992, Kazakhstan has actively pursued a programme of economic reform designed to establish a market economy through privatisation of state enterprises and deregulation and is more advanced in this respect than most other countries of the CIS. However, as with any transition economy, there can be no assurance that such reforms and other reforms described elsewhere in this Prospectus will continue or that such reforms will achieve all or any of their intended aims.

Kazakhstan depends on neighbouring states to access world markets for a number of its major exports, including oil, steel, copper and wheat. Kazakhstan is thus dependent upon good relations with its neighbours to ensure its ability to export. In January 1995, Kazakhstan, Russia, Kyrgyzstan and Belarus, joined by Tajikistan in 1999, signed a customs union which, among other things, provides for the removal of trade tariffs between these nations, and the Republic has taken other steps to promote regional economic integration. Government policy advocates further economic integration within the CIS, one of the aims of which is to assure continued access to export routes. However, should access to these routes be materially impaired, this could adversely impact the economy of Kazakhstan.

Like other countries in Central Asia, Kazakhstan could be affected by continued military activity taken in Afghanistan by the United States and an international coalition in response to the September 2001 terrorist attacks in the United States. In addition, the continuation of military actions by a United States and British led coalition in Iraq could also affect the world economy and the political stability of other countries. In particular, countries in the Central Asian region, such as Kazakhstan, whose economies and state budgets rely in part on the export of oil and oil products, the import of capital equipment and significant foreign investments in infrastructure projects, could be adversely affected by any resulting volatility in oil prices and by any sustained fall in them or by the frustration or delay of any infrastructure projects caused by political or economic instability in countries engaged in such projects, such as Turkey, which is a major infrastructure project contributor in the Central Asian region.

The Bank is subject to macroeconomic considerations and exchange rate policies

Since Kazakhstan is heavily dependent upon export trade and commodity prices, it was particularly affected by the Asian financial crisis in early 1998 and by the Russian crisis later that year, both of which exacerbated the problems associated with falling commodity prices. Because Kazakhstan is negatively

affected by low commodity prices and economic instability elsewhere in the world, the Government has promoted economic reform, inward foreign investment and the diversification of the economy. Notwithstanding these efforts, however, low commodity prices and weak demand in its export markets may adversely affect Kazakhstan's economy in the future.

The Government of Kazakhstan began implementing market-based economic reforms in 1992, including the implementation of a significant privatisation programme, the promotion of high levels of foreign direct investment, particularly in the oil and gas sectors, and the introduction of an extensive legal framework. Despite uneven progress in this regard, Kazakhstan has experienced extensive economic transformation over the last eleven years. Since mid-1994, the Government has adhered to a macroeconomic stabilisation programme aimed at curtailing inflation, reducing the fiscal deficit and boosting international currency reserves. According to figures compiled by the NSA, while gross domestic product ("GDP") fell in 1998 by 1.9 per cent. in the aftermath of the Asian and Russian financial crises, it began to rebound in 1999 following the flotation of the Tenge in April of that year and increased by 2.7 per cent. in real terms over the course of the full year. According to the NSA, GDP continued to grow in real terms, increasing 13.5 per cent. in 2001, 9.8 per cent. in 2002, 9.2 per cent. in 2003 and 9.4 per cent. in 2004. There was a 9.0 per cent increase in GDP for the nine months ended 30 September 2005.

The Tenge is convertible for current account transactions, although it is not a fully convertible currency outside Kazakhstan. Between 1991, when Kazakhstan began its transition to a market-based economy, and April 1999, the NBK maintained a managed exchange rate policy which, although permitting the general trend in the exchange rate to reflect market conditions, involved official intervention aimed at limiting fluctuations.

Depressed export markets in 1998 and early 1999, however, caused considerable pressure on Kazakhstan's managed exchange rate and resulting official intervention in the foreign exchange markets led to losses on foreign currency reserves. In response to these pressures, the authorities instituted a number of expenditure cuts and took revenue increasing measures and, in April 1999, the NBK floated the Tenge. The Tenge fell by 64.6 per cent. against the U.S. dollar in the year ended 31 December 1999, compared to a decline of 10.7 per cent. in the year ended 31 December 1998. Following the adoption of a floating exchange rate policy in 1999, the Tenge has been generally stable against the U.S. dollar during 2001 and 2002, with an annual depreciation of between 3.8 per cent. and 3.3 per cent, respectively. In 2003 and 2004, the Tenge strengthened against the U.S. dollar and appreciated by 7.3 per cent. and 9.9 per cent., respectively. According to NBK, during the first nine months of 2005, the Tenge depreciated by 3.0 per cent. against the U.S. dollar.

While the NBK has stated that it has no plans to resume a managed exchange rate policy, there can be no assurance that the NBK's exchange rate policy will not change and any subsequent decision to support the exchange rate could have an adverse impact on Kazakhstan's public finances and economy.

The Bank's business is dependent upon the implementation of further market-based economic reforms

The need for substantial investment in many enterprises has driven the Government of Kazakhstan's privatisation programme. The programme has excluded certain enterprises deemed strategically significant by the Government, although major privatisations in key sectors have taken place, such as full or partial sales of large oil and gas producers and mining companies. However, there remains a need for substantial investment in many sectors of the Kazakhstan economy and there are areas in which economic performance in the private sector is still constrained by an inadequate business infrastructure. Further, the amount of non-cash transactions in the economy and the size of the informal sector adversely affect the implementation of reforms and hamper the efficient collection of taxes. The Government of Kazakhstan has stated that it intends to address these problems by improving bankruptcy procedures, the business infrastructure and tax administration and by continuing the privatisation process. Implementation of these measures, however, may not happen in the short-term and any positive results of such actions may not materialise until the medium term, if at all.

Kazakhstan's legislative and regulatory framework is less developed than in many Western Countries

Although a large volume of legislation has come into force since early 1995, including a revised tax code, laws relating to foreign investment, additional regulation of the banking sector and other legislation covering such matters as securities exchanges, economic partnerships and companies, state enterprise reform and privatisation, the legal framework in Kazakhstan is at an early stage of development compared to countries with established market economies. The judicial system in Kazakhstan may not be fully

independent of outside social, economic and political forces and court decisions can be difficult to predict. In addition, judicial and Government officials may not be fully independent of outside social, economic and political forces and there have been instances of improper payments being made. Court decisions can be difficult to predict and administrative decisions have on occasion been inconsistent.

As a result of these ambiguities, as well as a lack of an established system of precedent or consistency in legal interpretation, the tax risks involved in doing business in Kazakhstan are substantially more significant than those in jurisdictions with a more developed tax system. Further, due to the presence of numerous ambiguities in Kazakhstan's commercial legislation, in particular its tax legislation, the tax authorities may make arbitrary assessments of tax liabilities and challenge previous tax assessments, making it difficult for companies to ascertain whether they are liable for additional taxes, penalties and interest.

The Government of Kazakhstan has stated that it believes in continued reform of the corporate governance processes and will ensure discipline and transparency in the corporate sector to promote growth and stability. However, the Government of Kazakhstan may not continue such policy in the future or such policy, if continued, may not ultimately prove to be successful. Therefore, it is not possible to predict the effect of future legislative developments on the Bank's business and prospects.

Securities markets are less developed than in many Western countries

An organised securities market was established in Kazakhstan only relatively recently and procedures for settlement, clearing and registration of securities transactions may therefore be subject to legal uncertainties, technical difficulties and delays. Although significant developments have occurred in recent years, the sophisticated legal and regulatory frameworks necessary for the efficient functioning of modern capital markets have yet to be fully developed in Kazakhstan. In particular, legal protections against market manipulation and insider trading are less well developed in Kazakhstan, and less strictly enforced, than in the United States and Western European countries and existing laws and regulations may be applied inconsistently with irregularities in enforcement. In addition, less information relating to Kazakhstan entities, such as the Bank, may be publicly available to investors in securities issued or guaranteed by such entities than are available to investors in entities organised in the United States or Western European countries.

Risk Factors Relating To the Bank

The Bank's rapid growth subjects it to additional risks

The Bank's gross loan portfolio has increased rapidly in recent years, growing to KZT190,030 million as at 30 September 2005, from KZT95,550 million as at 31 December 2004, and KZT54,356 million as at 31 December 2003. This significant increase in credit exposure will require continued emphasis by the Bank on credit quality and the adequacy of its provisioning levels and continued development of financial and management control. Failure successfully to manage growth and development and to maintain the quality of its assets could have a material adverse effect on the Bank's results of operations and financial condition. Classified loans, that is loans classified by the Bank as unsatisfactory, doubtful or loss in accordance with IFRS, as a percentage of gross loans were 11.2 per cent. at 31 December 2003 and 10.9 per cent. at 31 December 2004. As at 30 September 2005, the percentage of gross loans classified as unsatisfactory, doubtful or loss was 8.4 per cent. See "Description of the Bank—Lending Policies and Procedures—Provisioning Policy".

Concentration in the Bank's loan portfolio subjects it to risks from default by its largest borrowers

As at 30 September 2005, the Bank's top 20 borrowers comprised 25.7 per cent. of its gross loan portfolio, compared to 33.1 per cent. as at 30 September 2004, 35.3 per cent as at 31 December 2004, and 37.1 per cent. as at 31 December 2003. Whilst this, in part, reflects the limited number of better corporate credits in Kazakhstan, the Bank will require continued emphasis on credit quality and the development of financial and management control to monitor this credit exposure, the failure to achieve which could have a material adverse effect on the Bank's results of operations and financial condition.

The Bank's success depends upon increasing its capitalisation

Since the start of 2002, the Bank has implemented a number of projects to increase its capital base and intends to improve its capital base over the course of the next three years by raising up to KZT134 billion

through the issuance of KZT44 billion in common shares and KZT90 billion in subordinated debt, starting in 2006 with an issuance of KZT13.9 billion in common shares and KZT10 billion in subordinated debt. Failure to raise capital as planned could substantially limit the Bank's ability to increase the size of its loan portfolio in compliance with applicable NBK regulations. If such capital is available only at a price materially in excess of the cost of funds from other sources, this may negatively impact the Bank's profitability.

The Bank faces liquidity risks

The Bank like other commercial banks in Kazakhstan and elsewhere, is exposed to liquidity risk due to maturity mismatches between its assets and liabilities. As at 30 September 2005, 58.7 per cent. of the Bank's liabilities were due within 12 months. At the same time, 44.6 per cent. of the Bank's assets had maturities in excess of one year. Whilst the Bank has increased its liquid assets from KZT25,251.1 million as at 31 December 2003 to KZT42,136.5 million as at 31 December 2004, and to KZT61,302.2 million as at 30 September 2005, to address this mismatch, the Bank could face difficulties meeting its liabilities as they fall due if it fails to attract further medium- to long-term financing or if the Bank were to suffer a sudden increase in withdrawal of deposits, which currently form a significant portion of the Bank's funding. The issuance of the Notes will reduce this mismatch.

The Bank faces significant competition, in particular due to the concentration in its loan portfolio on Small- and Medium-Sized Enterprise Business

The Bank is subject to competition from both domestic and foreign banks. As at 30 June 2005, there were a total of 36 banks, excluding the NBK, in Kazakhstan, of which 14 were banks with foreign ownership, including subsidiaries of foreign banks. Loans to small- and medium-sized enterprises (i.e., companies with annual sales of KZT100 million to KZT1 billion) ("SMEs") comprised 46.7 per cent. of the Bank's gross loan portfolio as at 30 September 2005 and the Bank intends to increase this proportion in the future. Return on income from lending to SMEs is higher than lending to large companies as a result of the interest rates that the Bank can charge on these loans. The Bank estimates that its share of the SME loan market was 4.9 per cent. in 2003, 8.1 per cent in 2004 and 11.1 per cent. as at 30 September 2005.

Although the Bank believes that it is well positioned to compete in the retail market and is a preferred bank for SMEs within the Kazakhstan banking sector due to its nationwide branch network, its significant share of the current retail deposit market and its diversified client base, it faces competition from a number of existing participants in the Kazakhstan banking sector. In particular, as the retail banking sector continues to expand in Kazakhstan, the Bank will face increased competition for retail customers from larger Kazakhstan banks and there is similarly no assurance that the Bank will continue to be able to attract the business of SMEs. While the Bank has large corporate clients, the Bank does not focus on this market segment.

In addition, the Bank's ability to compete, particularly in retail banking, with other banks in Kazakhstan who have developed the necessary information technology to provide credit card and other services to their customers, depends on the Bank having its own central processing centre to offer such services to its clients, which is currently being developed by the Bank.

Regulation of the banking industry in Kazakhstan may adversely affect the Bank's business, and existing regulations are not as developed as in many Western countries

In September 1995, the NBK introduced strict norms and prudential requirements for the operations and the capital adequacy of banks. In addition, an institutional development plan was prepared for leading Kazakhstan banks. According to the plan, banks are required to prepare their accounts in accordance with IFRS and to apply the Basel Committee norms within a period determined by the NBK on a case-by-case basis. Banks are also required to participate in a bank-funded deposit insurance scheme (the "Deposit Insurance Fund") and be audited annually by a public accountancy firm approved by the NBK. Following legislative changes in July 2003, the Agency on Regulation and Supervision of Financial Markets and Financial Organisations (the "FMSA"), was formed and as from 1 January 2004 assumed responsibility for most of the supervisory and regulatory functions in the financial sector that had previously been performed by the NBK. The FMSA's main task is to regulate and supervise the financial markets and financial institutions. See "The Banking Sector in Kazakhstan".

In addition, the Government of Kazakhstan may implement additional regulations or policies, including with respect to limitations on borrowings by Kazakhstan banks from foreign institutions or on extensions

of credit to Kazakhstan borrowers or may otherwise take action that could have a material adverse effect on the Bank's financial condition or results of operations or that could adversely affect the market price and liquidity of the Notes.

Notwithstanding the relatively strict regulatory standards in Kazakhstan, prospective investors should understand that regulatory standards applicable to banks in Kazakhstan and the oversight and enforcement thereof by the regulators may differ from those applicable to banking operations in countries with more highly developed regulatory regimes. As a result, investors may not have the benefit of all of the protections available in such other countries. See “—Risk Factors relating to the Republic of Kazakhstan—Kazakhstan's legislative and regulatory framework is less developed than in many Western countries”.

The proposed reform of the international capital adequacy framework could increase the Bank's borrowing costs.

The Basel Committee has issued a proposal for a new capital adequacy framework to replace the previous Capital Accord issued in 1988. With regard to the risk weightings to be applied to exposures to sovereign states, the Basel Committee proposes replacing the existing approach by a system that would use both external and internal credit assessments for determining risk weightings. It is intended that such an approach will also apply, either directly or indirectly and to varying degrees, to the risk weighting of exposures to sovereign states, banks, securities firms and corporations. If adopted, the new framework could require financial institutions lending to Kazakhstan banks to be subject to higher capital requirements as a result of the credit risk rating of Kazakhstan, possibly resulting in a higher cost of borrowing for Kazakhstan banks.

The lack of statistical, corporate and financial information in Kazakhstan may make the Bank's assessments of credit risk less accurate

Kazakhstan's system for gathering and publishing statistical information relating to the Kazakhstan economy generally, or specific economic sectors and companies within it, and the publication of corporate and financial information relating to companies and other economic enterprises, is not as comprehensive as those of many countries with established market economies. Thus, the statistical, corporate and financial information, including audited financial statements, available to the Bank relating to its prospective corporate borrowers or other clients makes the assessment of credit risk, including the valuation of collateral, more difficult. Although the Bank ordinarily makes an estimation of the net realisable value of collateral on the basis of which it determines applicable provisioning and collateralisation requirements, the absence of additional statistical, corporate and financial information may decrease the accuracy of the Bank's assessments of credit risk. This may increase the risk of borrower default and decrease the likelihood that the Bank will be able to enforce any security in respect of the corresponding loan or that the relevant collateral will have a value commensurate to the loan secured on it. In addition, small- and medium-sized enterprises, a focus of the Bank's strategy, have, in many cases, not prepared audited financial statements, which may lessen the Bank's ability to perform a reliable credit assessment of them.

The NBK has established a central credit bureau in Kazakhstan to facilitate the collection of information and assessment of risk. While the relevant infrastructure for the operation of the credit bureau has been created, this bureau is still at a preliminary stage of development and there can be no assurance that this resource will improve the Bank's ability to assess credit risk.

The Banks' success depends upon on the ability to recruit and retain key personnel

To meet business challenges and retain the effectiveness of its operations, the Bank must continue to recruit and retain appropriately skilled personnel. The Bank relies on certain key personnel for the implementation of its strategy and operation of its day-to-day activities. As competition for skilled personnel is intense, the Bank seeks to further develop its compensation programmes and to take other measures to attract and motivate skilled personnel. If the Bank is unable to retain key personnel and cannot hire new qualified personnel in a timely manner, its business and results of operations could be adversely affected.

The Bank's success is dependent upon Information Technology

A substantial aspect of the Bank's strategy is to expand its customer base by providing additional products and services such as credit cards and internet banking, both of which will require a substantial capital

investment by the Bank in its information technology. While the Bank is currently in the process of developing its information technology to enable it to provide these services to its customers and believes that it will be successful in such implementation, there is no certainty that the Bank will be in a position in the near future to offer such products and systems. In addition, the Bank may be susceptible to failures in its information technology if it becomes dependent on such products and systems for its success.

Volatile Earnings

A portion of the Bank's earnings is generated from its trading activities and the Bank's portfolio of investment securities increased 139.3 per cent. in 2004, from KZT8,999.9 million to KZT21,533.7 million, and 70.5 per cent. in the first nine months of 2005 from KZT21,533.7 million to KZT36,716.4 million. As at 30 September 2005, 78.6 per cent. of the Bank's securities portfolio, by value, was comprised of government securities while 21.4 per cent. was comprised of corporate securities. Due to the fact that the Bank, through its Treasury Department, primarily trades Kazakhstan securities which are emerging market securities for its own account (See "—Risk Factors Relating to the Notes—The Bank faces additional risks associated with emerging markets"), it is possible that the earnings of the Bank will be volatile.

Risk Factors Relating To The Notes

The Bank faces additional risks associated with emerging markets

The markets for securities bearing emerging market risks, such as risks relating to Kazakhstan, are, to varying degrees, influenced by economic and securities market conditions in other emerging market countries. Although economic conditions are different in each country, investors' reactions to developments in one country may affect securities of issuers in other countries, including Kazakhstan. Accordingly, the market price of the Notes may be subject to significant fluctuations, which may not necessarily be related to the financial performance of the Bank.

Financial stability in emerging market countries other than Kazakhstan could adversely affect the market price of the Notes, even if the economy in Kazakhstan remains relatively stable. Accordingly, the Notes may be subject to fluctuations which may not necessarily be related to the financial performance of the Bank or economic conditions in Kazakhstan.

Taxation in Kazakhstan

As discussed in "Taxation—Kazakhstan Taxation", in the event a demand is made under the Guarantee, payments of interest in respect of the Notes made by the Guarantor under the Guarantee will be subject to Kazakhstan withholding tax at a rate of 15 per cent., unless, in the case of non-resident holders, reduced by a relevant double tax treaty. The Bank will agree in the Trust Deed to pay additional amounts in respect of such withholding. See "Terms and Conditions of the Notes—Condition 9 (*Taxation*)".

The enforceability in Kazakhstan of such an agreement has not to date been determined by the courts in Kazakhstan and there may be some doubt as to whether they would enforce such an agreement. The Notes are subject to redemption in whole at their principal amount plus accrued interest (if any) at the option of the Bank, in the event of certain changes in taxation in Kazakhstan. See "Terms and Conditions of the Notes—Condition 8.2 (*Redemption for Tax Reasons*)".

Prospective purchasers and holders of Notes should consult their own professional advisers as to the tax consequences of them holding or transferring the Notes.

Credit Rating

Outstanding Eurobonds of the Republic of Kazakhstan are rated Baa3 by Moody's and BBB by Fitch. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating organisation. The Bank's current long-term rating is Ba1 by Moody's as of 1 November 2005, and BB- by Fitch as of 20 December 2005. Any adverse change in the credit rating of either the Bank or the Republic of Kazakhstan could negatively affect the trading price of the Notes.

Absence of Trading Market for the Notes

Prior to the offering of the Notes, there has been no existing market for the Notes. Accordingly, there can be no assurance as to the liquidity of any market that may develop for the Notes, the ability of holders

of the Notes to sell their Notes or the price at which such holders would be able to sell Notes. Application has been made to the UK Listing Authority for the Notes to be admitted to the Official List and to the London Stock Exchange for such Notes to be admitted to trading on the London Stock Exchange's Gilt Edged and Fixed Interest Market. There can be no assurance that such listing will be obtained or, if such listing is obtained, that an active trading market will develop or be sustained. In addition, the liquidity of any market for the Notes will depend on the number of holders of the Notes, the interest of securities dealers in making a market in the Notes and other factors.

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions of the Notes which, subject to amendment and completion and except for the text in italics, will be endorsed on each Note in definitive form (if issued):

The U.S.\$300,000,000 8 per cent. Notes due 2011 (the “Notes”, which expression includes any further notes issued pursuant to Condition 16 (*Further issues*) and forming a single series therewith) of CenterCredit International B.V. (the “Issuer”) are (a) guaranteed by JSC Bank CenterCredit (the “Guarantor”) pursuant to a trust deed dated 2 February 2006 (as amended or supplemented from time to time, the “Trust Deed”) between the Issuer, the Guarantor and Deutsche Trustee Company Limited (the “Trustee”, which expression includes all persons for the time being appointed as trustee under the Trust Deed) as trustee for the holders of the Notes (the “Noteholders”), (b) constituted by, subject to, and have the benefit of the Trust Deed and (c) the subject of a paying agency agreement dated 2 February 2006 (as amended or supplemented from time to time, the “Paying Agency Agreement”) between the Issuer, the Guarantor, Deutsche Bank Luxembourg S.A. as registrar (the “Registrar”, which expression includes any successor registrar appointed from time to time in connection with the Notes), Deutsche Bank AG, London Branch, as principal paying and transfer agent (the “Principal Paying and Transfer Agent”, which expression includes any successor principal paying and transfer agent appointed from time to time in connection with the Notes), the other paying and transfer agents named therein (together with the Principal Paying and Transfer Agent, the “Paying and Transfer Agents”, which expression includes any successor or additional paying and transfer agents appointed from time to time in connection with the Notes) and the Trustee. References herein to the “Agents” are to the Registrar, the Principal Paying and Transfer Agent, the Paying and Transfer Agents and any reference to an “Agent” is to any one of them.

Certain provisions of these Conditions are summaries of the Trust Deed and the Paying Agency Agreement and are subject to their detailed provisions. The Noteholders (as defined below) are bound by, and are deemed to have notice of all the provisions of the Trust Deed and the Paying Agency Agreement applicable to them. Copies of the Trust Deed and the Paying Agency Agreement are available for inspection during normal business hours at the Specified Offices (as defined in the Paying Agency Agreement) of each of the Paying and Transfer Agents, the initial Specified Offices of which are set out below. Copies are also available for inspection during normal business hours at the registered office for the time being of the Trustee, being at the date hereof Winchester House, 1 Great Winchester Street, London EC2N 2DB, England.

1. Form, Denomination And Title

1.1 Form and denomination

The Notes are in registered form, without interest coupons attached, in denominations of U.S.\$100,000 and integral multiples of U.S.\$1,000 in excess thereof (each denomination an “authorised denomination”). The Global Note will be exchangeable for notes in definitive, fully registered, form (“Definitive Notes”), without interest coupons, in the circumstances specified in the Global Note.

1.2 Title

Title to the Notes will pass by transfer and registration as described in Conditions 2 and 3. The holder (as defined below) of any Note shall (except as otherwise required by law) be treated as its absolute owner for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing thereon or any notice of any previous loss or theft thereof) and no person shall be liable for so treating such holder.

In these Conditions, “holder” means the person in whose name a Note is registered in the Register (as defined below) (or, in the case of joint holders, the first named thereof) and “holders” and “Noteholders” shall be construed accordingly.

1.3 Third party rights

No person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act 1999.

2. Registration

The Registrar will maintain a register (the “Register”) at the specified office of the Registrar in respect of the Notes in accordance with the provisions of the Paying Agency Agreement. A

certificate (each, a “Note Certificate”) will be issued to each Noteholder in respect of its registered holding. Each Note Certificate will be numbered serially with an identifying number which will be recorded in the Register.

3. Transfers

- 3.1 Subject to Conditions 3.4 and 3.5, a Note may be transferred in whole or in part upon surrender of the relevant Note Certificate, with the endorsed form of transfer (the “Transfer Form”) duly completed, at the Specified Office of the Registrar or the Paying and Transfer Agent, together with such evidence as the Registrar or (as the case may be) such Paying and Transfer Agent may reasonably require to prove the title of the transferor and the authority of the individuals who have executed the form of transfer; *provided, however, that* a Note may not be transferred unless the principal amount of Notes transferred and (where not all of the Notes held by a holder are being transferred) the principal amount of the balance of Notes not transferred are authorised denominations. Transfer Forms are available from any Paying and Transfer Agent, the Registrar and the Issuer upon the request of any holder. In the case of a transfer of only a portion of the Notes represented by a Note Certificate, neither the portion transferred nor the balance thereof not transferred may be less than the applicable authorised denomination, and a new Note Certificate in respect of such balance not so transferred will be issued to the transferor. Transfers will be done through the office of any Paying and Transfer Agent upon presentation and surrender of the Note.
- 3.2 Within five business days of the surrender of a Note Certificate in accordance with Condition 3.1, the Registrar will register the transfer in question and deliver a new Note Certificate of a like principal amount to the Notes transferred to each relevant holder at its Specified Office or (as the case may be) the Specified Office of any Paying and Transfer Agent or (at the request and risk of any such relevant holder) by uninsured first class mail (airmail if overseas) to the address specified for the purpose by such relevant holder. In this Condition 3.2, “business day” means a day on which commercial banks are open for business (including dealings in foreign currencies) in the city where the Registrar or (as the case may be) the relevant Paying and Transfer Agent has its Specified Office.
- 3.3 The transfer of a Note will be effected without charge by or on behalf of the Issuer, the Registrar or any Paying and Transfer Agent but against such indemnity as the Registrar or (as the case may be) such Paying and Transfer Agent may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such transfer.
- 3.4 Noteholders may not require transfers to be registered during the period of 15 days ending on the due date for any payment of principal or interest in respect of the Notes.
- 3.5 All transfers of Notes and entries on the Register are subject to the detailed regulations concerning the transfer of the Notes scheduled to the Paying Agency Agreement. The regulations may be changed by the Issuer with the prior written approval of the Trustee and the Registrar. A copy of the current regulations will be mailed (free of charge) by the Registrar to any Noteholder who requests in writing a copy of such regulations.

4. Guarantee and Status

The Guarantor has unconditionally and irrevocably guaranteed the due payment of all sums from time to time payable by the Issuer in respect of the Notes and the Trust Deed. The obligations of the Guarantor in that respect are contained in the Trust Deed.

The Notes are direct, general, unconditional and (subject to Condition 5 (*Negative Pledge and Certain Covenants*)) unsecured obligations of the Issuer which will at all times rank *pari passu* among themselves and at least *pari passu* with all other present and future unsecured obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

5. Negative Pledge And Certain Covenants

5.1 Negative pledge of the Issuer

So long as any Note remains outstanding (as defined in the Trust Deed), the Issuer shall not create, incur, assume or permit to arise or subsist any Security Interest (other than a Permitted Security Interest) upon the whole or any part of its undertakings, assets or revenues, present or future, to secure any Indebtedness for Borrowed Money of the Issuer or any other Person or any Indebtedness Guarantee in respect of such Indebtedness for Borrowed Money of any Person, unless, at the same time or prior thereto, the Issuer's obligations under the Notes and the Trust Deed are secured equally and rateably therewith (to the satisfaction of the Trustee) or have the benefit of such other arrangement as may be approved by an Extraordinary Resolution (as defined in the Trust Deed) of Noteholders or as the Trustee in its absolute discretion shall deem to be not materially less beneficial to the Noteholders.

5.2 Negative pledge of the Guarantor

So long as any Note remains outstanding, the Guarantor shall not, and shall not permit any of its Subsidiaries to, create, incur, assume or permit to arise or subsist any Security Interest (other than a Permitted Security Interest) upon the whole or any part of their respective undertakings, assets or revenues, present or future, to secure any Indebtedness for Borrowed Money of the Guarantor, any such Subsidiary or any other Person or any Indebtedness Guarantee in respect of any Indebtedness for Borrowed Money of any Person, unless, at the same time or prior thereto, the Guarantor's obligations under the Guarantee are secured equally and rateably therewith (to the satisfaction of the Trustee) or have the benefit of such other arrangement as may be approved by an Extraordinary Resolution (as defined in the Trust Deed) of Noteholders or as the Trustee in its absolute discretion shall deem to be not materially less beneficial to the Noteholders.

5.3 Limitations on certain transactions

For so long as any Note is and remains outstanding, the Guarantor will not, after the Issue Date, directly or indirectly, enter into or suffer to exist any transaction or series of related transactions (including, without limitation, the sale, purchase, exchange or lease of assets, property or services) involving aggregate consideration equal to or greater than U.S.\$7 million unless such transaction or series of transactions is or are at a Fair Market Value.

5.4 Limitation on payment of dividends

For so long as any Note remains outstanding, the Guarantor will not pay any dividends, in cash or otherwise, or make any other distributions (whether by way of redemption, acquisition or otherwise) in respect of its share capital (i) at any time when there exists an Event of Default (as defined in Condition 11 (*Events of Default*)) or an event which, with the passage of time or the giving of notice, or both, would constitute an Event of Default or (ii) at any time when no such Event of Default or event exists, (1) more frequently than once during any calendar year or (2) in an aggregate amount exceeding 50 per cent. of the Guarantor's net income for the period in respect of which the dividends are being paid or the distribution is being made, calculated in accordance with International Financial Reporting Standards ("IFRS") (formerly referred to as the International Accounting Standards), for which purpose, the amount of the Guarantor's net income shall be determined by reference to its audited financial statements of the period in respect of which the dividend is being paid. The foregoing limitation shall not apply to the payment of any dividends in respect of any preferred shares of the Guarantor which may be issued by the Guarantor from time to time.

5.5 Maintenance of capital adequacy

The Guarantor shall not permit its total capital ratio calculated in accordance with the recommendations of the Basel Committee on Banking Regulations and Supervisory Practices (the "Committee") to fall below 10 per cent., such recommendations to be as provided in the Committee's paper entitled "International Convergence of Capital Measurement and Capital Standards" dated July 1988 as amended in November 1991 and as further amended, replaced or substituted by the Committee, such calculation to be made by reference to the most recent audited consolidated financial statements of the Guarantor prepared in accordance with IFRS.

5.6 Definitions

For the purposes of these Conditions:

“**Fair Market Value**” of a transaction means the value that would be obtained in an arm’s length transaction between an informed and willing seller under no compulsion to sell and an informed and willing buyer. A report of the Auditors (as defined in the Trust Deed) of the Guarantor of the Fair Market Value of a transaction may be relied upon by the Trustee without further enquiry or evidence and, if relied upon by the Trustee, shall be conclusive and binding on all parties.

“**Indebtedness Guarantee**” means in relation to any Indebtedness of any Person, any obligation of another Person to pay such Indebtedness including (without limitation) (a) any obligation to purchase such Indebtedness, (b) any obligation to lend money, to purchase or subscribe shares or other securities or to purchase assets or services in order to provide funds for the payment of such Indebtedness, (c) any indemnity against the consequences of a default in the payment of such Indebtedness and (d) any other agreement to be responsible for repayment of such Indebtedness.

“**Indebtedness**” means any obligation (whether incurred as principal or as surety) for the payment or repayment of money, whether present or future, actual or contingent.

“**Indebtedness for Borrowed Money**” means any Indebtedness of any Person for or in respect of (a) moneys borrowed, (b) amounts raised by acceptance under any acceptance credit facility, (c) amounts raised pursuant to any note purchase facility or the issue of bonds, notes, debentures, loan stock or similar instruments, (d) the amount of any liability in respect of leases or hire purchase contracts which would, in accordance with generally accepted accounting standards in the jurisdiction of incorporation of the lessee, be treated as finance or capital leases, (e) the amount of any liability in respect of any purchase price for assets or services the payment of which is deferred primarily as a means of raising finance or financing the acquisition of the relevant asset or service and (f) amounts raised under any other transaction (including any forward sale or purchase agreement and the sale of receivables or other assets on a “with recourse” basis) having the commercial effect of a borrowing.

“**International Organisation**” means any of Asian Development Bank, European Bank for Reconstruction and Development, International Bank for Reconstruction and Development, International Finance Corporation, Nederlandse Financierings-Maatschappij Voor Ontwikkelingslanden N.V. or Deutsche Investitions-und Entwicklungsgesellschaft GmbH and any person which is a, or controlled by any, Kazakhstan governmental body acting on behalf of or funded in relation to the relevant Indebtedness for Borrowed Money by one or more of the foregoing.

“**Permitted Security Interest**” means any Security Interest (a) granted in favour of the Guarantor by any Subsidiary to secure Indebtedness for Borrowed Money owed by such entity to the Guarantor, (b) which arises pursuant to any order of attachment, distraint or similar legal process arising in connection with court proceedings or as security for costs and expenses in any such proceedings, so long as the execution or other enforcement thereof is effectively stayed and the claims secured thereby are being contested in good faith by appropriate proceedings, (c) being liens or rights of set-off arising by operation of law and in the ordinary course of business, including, without limitation, any rights of set-off with respect to demand or time deposits maintained with financial institutions and bankers’ liens with respect to property of the Guarantor held by financial institutions, (d) arising in the ordinary course of the Guarantor’s or a Subsidiary’s business and (i) which are necessary in order to enable the Guarantor or such Subsidiary to comply with any mandatory or customary requirement imposed on it by a banking or other regulatory authority in connection with the Guarantor’s or such Subsidiary’s business or (ii) limited to deposits made in the name of the Guarantor or such Subsidiary to secure obligations of the Guarantor’s or such Subsidiary’s customers, (e) on property acquired (or deemed to be acquired) under a financial lease, or claims arising from the use or loss of or damage to such property, provided that any such encumbrance secures only rentals and other amounts payable under such lease, (f) arising pursuant to any agreement (or other applicable terms and conditions) which is standard or customary in the relevant market (and not for the purpose of raising credit or funds for the operation of the Guarantor or any Subsidiary), in connection with (i) contracts entered into substantially simultaneously for sales and purchases at market prices of precious metals or securities, (ii) the establishment of margin deposits and similar securities in connection with interest rate and foreign currency hedging operations and trading in securities or (iii) the Guarantor’s foreign exchange dealings or other proprietary trading activities including, without limitation, Repos, (g) arising out

of the refinancing, extension, renewal or refunding of any Indebtedness for Borrowed Money secured by a Security Interest either existing on or before the issue date of the Notes or permitted by any of the above exceptions, provided that the Indebtedness for Borrowed Money thereafter secured by such Security Interest does not exceed the amount of the original Indebtedness for Borrowed Money and such Security Interest is not extended to cover any property not previously subject to such Security Interest, (h) granted by the Guarantor in favour of an International Organisation to secure Indebtedness for Borrowed Money owed by the Guarantor to such International Organisation pursuant to any loan agreement or other credit facility entered into between the Guarantor and such International Organisation, provided, however, that (i) the amount of Indebtedness for Borrowed Money so secured pursuant to this clause (h) shall not exceed in the aggregate an amount in any currency or currencies equivalent to 20 per cent. of the Guarantor's gross loans and advances to customers (calculated by reference to the most recent audited consolidated financial statements of the Guarantor prepared in accordance with IFRS) and (ii) the relevant Security Interest only extends to the asset financed by the relevant Indebtedness for Borrowed Money and/or any Security Interest or other claim held by the Guarantor in relation thereto, (i) granted upon or with regard to any property hereafter acquired by the Guarantor or any Subsidiary to secure the purchase price of such property or to secure Indebtedness incurred solely for the purpose of financing the acquisition of such property and transactional expenses related to such acquisition (other than a Security Interest created in contemplation of such acquisition), provided that the maximum amount of Indebtedness for Borrowed Money thereafter secured by such Security Interest does not exceed the purchase price of such property (including transactional expenses) or the Indebtedness incurred solely for the purpose of financing the acquisition of such property, (j) created or outstanding upon any property or assets (including current and/or future revenues, accounts receivables and other payments) of the Guarantor or any Subsidiary arising out of any securitisation of such property or assets or other similar structured finance transaction in relation to such property or assets (including loan participation notes) where the primary source of payment of any obligations secured by such property or assets is the proceeds of such property or assets (or where the payment of such obligations is otherwise supported by such property or assets) and where recourse to the Guarantor or the relevant Subsidiary in respect of such obligations does not extend to defaults by the obligors in relation to such property or assets, provided that the aggregate amount of such obligations so secured pursuant to this clause (j) (other than obligations secured on claims against the Guarantor ranking junior in right of payment to claims under the Guarantee and constituting regulatory capital, accordingly, as to which obligations this proviso shall not apply) at any one time (measured at the time of initial incurrence) shall not exceed an amount in any currency or currencies equivalent to 15 per cent. of the Guarantor's gross loans and advances to customers (calculated by reference to the most recent audited consolidated financial statements of the Guarantor prepared in accordance with IFRS) and (k) not included in any of the above exceptions, in aggregate securing Indebtedness for Borrowed Money with an aggregate principal amount at any time not exceeding U.S.\$10 million (or its equivalent in other currencies) at that time.

“Person” means any individual, company, corporation, firm, partnership, joint venture, association, organisation, state or agency of a state or other entity, whether or not having a separate legal personality.

“Repo” means a securities repurchase or resale agreement or reverse repurchase or resale agreement, a securities borrowing agreement or any agreement relating to securities which is similar in effect to any for the foregoing and for purposes of this definition, the term “securities” means any capital stock, share, debenture or other debt or equity instrument, or other derivative, whether issued by any private or public company, any government or agency or instrumentality thereof or any supranational, international or multilateral or organisation.

“Security Interest” means any mortgage, charge, pledge, lien, security interest or other encumbrance securing any obligation of any Person or any other type of preferential arrangement having similar effect over any assets or revenues of such Person.

“Subsidiary” means, in relation to any Person (the “first Person”) at a given time, any other Person (the “second Person”) (i) whose affairs and policies the first Person directly or indirectly controls or (ii) as to whom the first Person owns directly or indirectly more than 50 per cent. of the capital, voting stock or other right of ownership. “Control”, as used in this definition, means the power by the first Person to direct the management and the policies of the second Person, whether through the ownership of share capital, by contract or otherwise.

The Trust Deed does not oblige the Trustee to monitor compliance by the Issuer or the Guarantor, as the case may be, with the Conditions (including Conditions 5.2, 5.3, 5.4, 5.5 and 5.6) but it does oblige the Issuer and the Guarantor to furnish the Trustee, annually, with a certificate, on which the Trustee may rely, as to such compliance.

6. Interest

6.1 *Interest Accrual*

Each Note bears interest from 2 February 2006 (the “**Issue Date**”) at the rate of 8 per cent. per annum (the “**Rate of Interest**”), payable on 2 February and 2 August in each year (each, an “**Interest Payment Date**”), subject as provided in Condition 7 (*Payments*). Each period beginning on (and including) the Issue Date or any Interest Payment Date and ending on (but excluding) the next Interest Payment Date is herein called an “Interest Period”.

6.2 *Cessation of Interest*

Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of principal is improperly withheld or refused, in which case it will continue to bear interest at such rate (as well after as before judgment) until whichever is the earlier of (a) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (b) the day which is seven days after the Principal Paying and Transfer Agent or the Trustee has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

6.3 *Calculation of Interest for an Interest Period*

The amount of interest payable in respect of each Note for any Interest Period shall be calculated by applying the Rate of Interest to the principal amount of such Note, dividing the product by two and rounding the resulting figure to the nearest cent (half a cent being rounded upwards).

6.4 *Calculation of Interest for any other period*

If interest is required to be calculated for any period other than an Interest Period, it will be calculated on the basis of a year of 360 days consisting of 12 months of 30 days each and, in the case of an incomplete month, the actual number of days elapsed.

7. Payments

7.1 *Principal*

Payments of principal shall be made by U.S. dollar cheque drawn on, or, upon application by a holder of a Note to the Specified Office of the Principal Paying and Transfer Agent not later than the fifteenth day before the due date for any such payment, by transfer to a U.S. dollar account maintained by the payee with, a bank in New York City upon surrender (or, in the case of part payment only, endorsement) of the relevant Note Certificates at the Specified Office of any Paying and Transfer Agent.

7.2 *Interest*

Payments of interest shall be made by U.S. dollar cheque drawn on, or upon application by a holder of a Note to the Specified Office of the Principal Paying and Transfer Agent not later than the fifteenth day before the due date for any such payment, by transfer to a U.S. dollar account maintained by the payee with, a bank in New York City and (in the case of interest payable on redemption) upon surrender (or, in the case of part payment only, endorsement) of the relevant Note Certificates at the Specified Office of any Paying and Transfer Agent.

7.3 *Payments subject to fiscal laws*

All payments in respect of the Notes are subject in all cases to any applicable or other laws and regulations in the place of payment, but without prejudice to the provisions of Condition 9 (*Taxation*). No commissions or expenses shall be charged to the Noteholders in respect of such payments.

7.4 *Record Date*

Each payment in respect of a Note will be made to the person shown as the holder in the Register at the close of business (in the place of the Registrar’s Specified Office) on the fifteenth day before the due date for such payment (the “Record Date”).

7.5 *Payment on a business day*

Where payment is to be made by transfer to a U.S. dollar account, payment instructions (for value on the due date, or, if the due date is not a business day, for value on the next succeeding business day) will be initiated and, where payment is to be made by U.S. dollar cheque, the cheque will be mailed (a) (in the case of payments of principal and interest payable on redemption) on the later of the due date for payment and the day on which the relevant Note Certificate is surrendered (or, in the case of part payment only, endorsed) at the Specified Office of a Paying and Transfer Agent and (b) (in the case of payments of interest payable other than on redemption) on the due date for payment. A holder of a Note shall not be entitled to any interest or other payment in respect of any delay in payment resulting from (i) the due date for a payment not being a business day or (ii) a cheque mailed in accordance with this Condition 7 (*Payments*) arriving after the due date for payment or being lost in the mail. In this Condition 7.5, “business day” means any day on which banks are open for business (including dealings in foreign currencies in London and New York City and, in the case of surrender (or, in the case of part payment only, endorsement) of a Note Certificate, in the place in which the Note Certificate is surrendered (or, as the case may be, endorsed).

7.6 *Paying and Transfer Agents*

In acting under the Paying Agency Agreement and in connection with the Notes, the Paying and Transfer Agents act solely as agents of the Issuer and the Guarantor and (to the extent provided therein) the Trustee and do not assume any obligations towards or relationship of agency or trust for or with any of the Noteholders. The initial Paying and Transfer Agents and their initial Specified Offices are listed below. Each of the Issuer and the Guarantor reserves the right (with prior approval of the Trustee) at any time to vary or terminate the appointment of any Paying and Transfer Agent and to appoint a successor registrar or principal paying and transfer agent and additional or successor paying and transfer agents; provided, however, that the Issuer shall at all times and so long as the Notes remain listed on the London Stock Exchange and such exchange so requires maintain a paying and transfer agent in London, a registrar and a principal paying and transfer agent. In addition, the Issuer undertakes that it will ensure that it maintains a paying and transfer agent with a specified office in a European Union Member State that will not be obliged to withhold or deduct tax pursuant to the European Union Council Directive 2003/48/EC on the taxation of savings income implementing or any law implementing or complying with, or introduced in order to conform to, such directive. Notice of any change in any of the Paying and Transfer Agents or in their Specified Offices shall promptly be given to the Noteholders in accordance with Condition 14 (Notices).

8. Redemption and Purchase

8.1 *Scheduled redemption*

Unless previously redeemed, or purchased and cancelled as provided below, the Notes will be redeemed at their principal amount on 2 February 2011, subject as provided in Condition 7 (*Payments*).

8.2 *Redemption for tax reasons*

The Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than 30 nor more than 60 days’ notice to the Noteholders (which notice shall be irrevocable) at their principal amount, together with interest accrued to the date fixed for redemption, if, immediately before giving such notice, the Issuer satisfies the Trustee that (a) the Issuer (or if the Guarantee were called, the Guarantor, as the case may be,) has or will become obliged to pay additional amounts as provided or referred to in Condition 9 (*Taxation*) to any greater extent than would have been required had such a payment been required to be made on 30 January 2006 as a result of any change in, or amendment to, the laws or regulations of the Republic of Kazakhstan or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including a holding by a court of competent jurisdiction), which change or amendment becomes effective on or after 30 January 2006 and (b) such obligation cannot be avoided by the Issuer (or the Guarantor, as the case may be) taking reasonable measures available to it; provided, however, that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer (or the Guarantor, as the case may be) would be obliged to pay such additional

amounts if a payment in respect of the Notes were then due. Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer (or the Guarantor, as the case may be) shall deliver to the Trustee (i) a certificate signed by two directors of the Issuer (or the Guarantor, as the case may be) stating that the Issuer (or the Guarantor, as the case may be) is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer (or the Guarantor, as the case may be) so to redeem have occurred and (ii) an opinion in form and substance satisfactory to the Trustee of independent legal advisers of recognised standing to the effect that the Issuer (or the Guarantor, as the case may be) has or will become obliged to pay such additional amounts as a result of such change or amendment. The Trustee shall be entitled to accept such certificate and opinion as sufficient evidence of the satisfaction of the circumstances set out in (a) and (b) above, in which event they shall be conclusive and binding on the Noteholders. Upon the expiry of any such notice as is referred to in this Condition 8.2, the Issuer (or the Guarantor, as the case may be) shall be bound to redeem the Notes in accordance with this Condition 8.2.

8.3 *Redemption at the option of the Noteholders*

Following the occurrence of a Relevant Event, the Issuer shall, at the option of the holder of any Note, redeem such Note on the sixtieth day after notice thereof has been given by the Issuer to Noteholders in accordance with Condition 14 (*Notices*) (the “Put Settlement Date”) (with a copy to the Trustee) at their principal amount together with interest accrued to the Put Settlement Date. In order to exercise the option contained in this Condition 8.3, the holder of a Note must, not less than 15 days before the Put Settlement Date, deposit with any Paying and Transfer Agent the relevant Note Certificate and a duly completed put option notice (a “Put Option Notice”) in the form obtainable from any Paying and Transfer Agent. No Note Certificate, once deposited with a duly completed Put Option Notice in accordance with this Condition 8.3, may be withdrawn; provided, however, that if, prior to the Put Settlement Date, any such Note becomes immediately due and payable or, upon due presentation of any such Note Certificate on the Put Settlement Date, payment of the redemption moneys is improperly withheld or refused, such Note Certificate shall, without prejudice to the exercise of the Put Option, be returned to the holder by uninsured first class mail (airmail if overseas) at such address as may have been given by such Noteholder in the relevant Put Option Notice.

8.4 *Redemption at the option of the Issuer following a partial redemption of the Notes at the option of Noteholders*

If 75 per cent. or more of the aggregate principal amount of the Notes originally issued shall have been redeemed on the Put Settlement Date in accordance with the provisions of Condition 8.3, the Issuer may, having given not less than 30 or more than 60 days’ notice to the Noteholders in accordance with Condition 14 (*Notices*) (which notice shall be irrevocable) (with a copy to the Trustee), redeem on the expiry date of such notice all (but not some only) of the Notes at their principal amount together with interest accrued to but excluding the date of such redemption.

8.5 *No other redemption*

The Issuer shall not be entitled to redeem the Notes otherwise than as provided in Conditions 8.1 to 8.4 above.

8.6 *Purchase*

The Issuer, the Guarantor and any Subsidiary of the Guarantor may at any time purchase or procure others to purchase for its account the Notes in the open market or otherwise and at any price. Notes so purchased may be held or resold (provided that such resale is outside of the United States and is otherwise in compliance with all applicable laws) or surrendered for cancellation at the option of the Issuer, or the Guarantor, or otherwise, as the case may be. Any Notes so purchased, while held by the Issuer, shall not entitle the Issuer to vote at any meeting of Noteholders and shall not be deemed to be outstanding for the purposes of calculating quorum at such meetings.

8.7 *Cancellation of Notes*

All Notes which are redeemed pursuant to Conditions 8.1 to 8.4 or submitted for cancellation pursuant to Condition 8.6 shall be cancelled and may not be reissued or resold. So long as the Notes are listed on the London Stock Exchange, the Issuer shall notify the London Stock Exchange of any such cancellation.

8.8 *Occurrence of Relevant Event*

The Trustee shall not be required to take any steps to ascertain whether a Relevant Event or any event which could lead to a Relevant Event has occurred or may occur.

8.9 *Definitions*

As used in this Condition 8 (*Redemption and Purchase*):

“**Asset Sale**” means the conveyance, transfer or lease (whether in a single transaction or in a series of related transactions) of all or substantially all of the assets of (i) the Guarantor or any of its Subsidiaries to any Person or (ii) any Person to the Guarantor or any of its Subsidiaries.

“**Merger Event**” means the consolidation of the Guarantor or any of its Subsidiaries with another Person (other than, in the case of any such Subsidiary, the Guarantor); the merger of the Guarantor or any of its Subsidiaries with or into or the amalgamation of the Issuer or any of its Subsidiaries with another Person (other than, in the case of any such Subsidiary, the Guarantor) or the reorganisation or restructuring of the Guarantor or any of its Subsidiaries.

“**Rating Agency**” means Moody’s Investors Services Inc. and its successors or Fitch Ratings Ltd. and its successors.

“**Rating Downgrade**” means the withdrawal or reduction by more than one full rating category from Ba1/BB– to Ba2/B+ (or their respective equivalents for the time being) of the long term foreign currency debt or deposit rating of the Guarantor provided by a Rating Agency at the invitation of the Guarantor or with the consent, agreement or approval of the Guarantor.

“**Relevant Event**” means (i) a Merger Event resulting in a Rating Downgrade or (ii) an Asset Sale resulting in a Rating Downgrade.

9. **Taxation**

9.1 *Taxation*

All payments of principal and interest in respect of the Notes (including payments by the Guarantor under the Guarantee and any payment by the Issuer under the Trust Deed) shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied, collected, withheld or assessed by or within The Netherlands or the Republic of Kazakhstan or any political subdivision or any authority thereof or therein having power to tax, unless such withholding or deduction is required by law. In that event, the Issuer (or the Guarantor, as the case may be) shall pay such additional amounts as will result in the receipt by the Noteholders of such amounts as would have been received by them if no such withholding or deduction had been required, except that no such additional amounts shall be payable in respect of any Note:

- (a) presented for payment by a holder who is liable to such taxes, duties, assessments or governmental charges in respect of such Note by reason of such holder having some connection with The Netherlands or the Republic of Kazakhstan other than the mere holding of such Note; or
- (b) where (in the case of a payment of principal or interest on redemption) the relevant Note Certificate is surrendered for payment more than 30 days after the Relevant Date except to the extent that the relevant holder would have been entitled to such additional amounts if it had surrendered the relevant Note Certificate on the last day of such period of 30 days; or
- (c) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to the European Union Directive on the Taxation of Savings Income (Directive 2003/48/EC) or any law implementing or complying with, or introduced in order to conform to, such directive; or
- (d) where (in the case of a payment of principal or interest on redemption) the relevant Note Certificate is surrendered for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by surrendering the relevant Note Certificate to another Paying and Transfer Agent in a member state of the European Union.

9.2 *Relevant Date*

In these Conditions, “Relevant Date” means whichever is the later of (a) the date on which the payment in question first becomes due and (b) if the full amount payable has not been received in New York by the Principal Paying and Transfer Agent on or prior to such due date, the date on which (the full amount having been so received) notice to that effect has been given to the Noteholders.

9.3 *Additional amounts*

Any reference in these Conditions to principal or interest shall be deemed to include any additional amounts in respect of principal or interest (as the case may be) which may be payable under this Condition 9 (*Taxation*) or any undertaking given in addition to or in substitution of this Condition 9 (*Taxation*) pursuant to the Trust Deed.

9.4 *Taxing jurisdiction*

If the Issuer or (as the case may be) the Guarantor becomes subject at any time to any taxing jurisdiction other than The Netherlands or, in the case of the Guarantor, the Republic of Kazakhstan, references in these Conditions to The Netherlands or, as the case may be, the Republic of Kazakhstan shall be construed as references to The Netherlands and/or the Republic of Kazakhstan and/or such other jurisdiction.

10. **Prescription**

Claims for principal and interest on redemption shall become void unless the relevant Note Certificates are surrendered for payment within ten years, and claims for interest due other than on redemption shall become void unless made within five years, of the appropriate Relevant Date.

11. **Events of Default**

The Trustee at its discretion may, and if so requested in writing by the holders of not less than one fifth in principal amount of the Notes then outstanding or if so directed by an Extraordinary Resolution (subject in each case to being indemnified to its satisfaction) shall, give notice to the Issuer and the Guarantor that the Notes are and they shall immediately become due and repayable at their principal amount together with accrued interest if any of the following events (each, an “Event of Default”) occurs:

11.1 *Non-payment*

The Issuer fails to pay the principal of any of the Notes when the same becomes due and payable either at maturity, by declaration or otherwise or the Issuer is in default with respect to the payment of interest or any additional amount payable in respect of any of the Notes and such default in respect of interest or additional amounts continues for a period of five business days; or

11.2 *Breach of other obligations*

The Issuer or the Guarantor is in default in the performance, or is otherwise in breach, of any covenant, obligation, undertaking or other agreement under the Notes or the Trust Deed (other than a default or breach elsewhere specifically dealt with in this Condition 11 (*Events of Default*)) and such default or breach is not remedied within 30 days (or such longer period as the Trustee may in its sole discretion determine) after notice thereof has been given to the Issuer or the Guarantor, as the case may be, by the Trustee; or

11.3 *Cross-default*

(a) any Indebtedness for Borrowed Money of the Issuer, the Guarantor or any Material Subsidiary of the Guarantor is not paid when due or (as the case may be) within any originally applicable grace period; or (b) any Indebtedness for Borrowed Money becomes (or becomes capable of being declared) due and payable prior to its stated maturity otherwise than at the option of the Issuer, the Guarantor or (as the case may be) the relevant Subsidiary or (provided that no event of default, howsoever described, has occurred) any Person entitled to such Indebtedness for Borrowed Money; or (c) the Issuer, the Guarantor or any of the Guarantor’s Material Subsidiaries fails to pay when due any amount payable by it under any Indebtedness Guarantee, provided that the amount of Indebtedness for Borrowed Money referred to in (a) and/or (b) above and/or the amount payable under any Indebtedness Guarantee referred to in (c) above individually or in the aggregate exceeds U.S.\$7 million (or its equivalent in any other currency or currencies (as determined by the Trustee)); or

11.4 *Bankruptcy*

(a) any Person shall have instituted a proceeding or entered a decree or order for the appointment of a receiver, administrator or liquidator in any insolvency, rehabilitation, readjustment of debt, marshalling of assets and liabilities or similar arrangements involving the Issuer, the Guarantor or any of the Guarantor's Material Subsidiaries or all or substantially all of their respective properties and such proceeding, decree or order shall not have been vacated or shall have remained in force undischarged or unstayed for a period of 60 days; or (b) the Issuer, the Guarantor or any of the Guarantor's Material Subsidiaries shall institute proceedings under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect to be adjudicated a bankrupt or shall consent to the filing of a bankruptcy, insolvency or similar proceeding against it or shall file a petition or answer or consent seeking reorganisation under any such law or shall consent to the filing of any such petition, or shall consent to the appointment of a receiver, administrator or liquidator or trustee or assignee in bankruptcy or liquidation of the Issuer, the Guarantor or any of the Guarantor's Material Subsidiaries, as the case may be, or in respect of its property, or shall make an assignment for the benefit of its creditors or shall otherwise be unable or admit its inability to pay its debts generally as they become due or the Issuer, the Guarantor or any of the Guarantor's Material Subsidiaries commences proceedings with a view to the general adjustment of its Indebtedness which event is, in the case of the Material Subsidiary, materially prejudicial to the interests of the Noteholders (in the opinion of the Trustee); or

11.5 *Substantial change in business*

The Guarantor makes or threatens to make any substantial change in the principal nature of its business as presently conducted which is (in the sole opinion of the Trustee) materially prejudicial to the interests of the Noteholders; or

11.6 *Maintenance of business*

The Guarantor fails to take any action as is required of it under applicable banking regulations in Kazakhstan or otherwise to maintain in effect its banking licence or corporate existence or fails to take any action to maintain any material rights, privileges, titles to property, franchises and the like necessary or desirable in the normal conduct of its business, activities or operations which is (in the opinion of the Trustee) materially prejudicial to the interests of the Noteholders and such failure is not remedied within 30 days (or such longer period as the Trustee may in its sole discretion determine) after notice thereof has been given to the Guarantor; or

11.7 *Material compliance with applicable laws*

The Issuer or the Guarantor fails to comply in any (in the sole opinion of the Trustee) material respect with any applicable laws or regulations (including any foreign exchange rules or regulations) of any governmental or other regulatory authority for any purpose to enable it lawfully to exercise its rights or perform or comply with its obligations under the Notes, the Trust Deed or the Paying Agency Agreement or to ensure that those obligations are legally binding and enforceable or that all necessary agreements or other documents are entered into and that all necessary consents and approvals of, and registrations and filings with, any such authority in connection therewith are obtained and maintained in full force and effect; or

11.8 *Invalidity or unenforceability*

(a) the validity of the Notes, the Trust Deed or the Paying Agency Agreement is contested by the Issuer or the Guarantor, or the Issuer or the Guarantor shall deny any of its obligations under the Notes, the Trust Deed or the Paying Agency Agreement (whether by a general suspension of payments or a moratorium on the payment of debt or otherwise) or (b) it is or becomes unlawful for the Issuer or the Guarantor to perform or comply with all or any of its obligations set out in the Notes, the Trust Deed or the Paying Agency Agreement or (c) all or any of the obligations of the Issuer or the Guarantor set out in the Notes, the Trust Deed or the Paying Agency Agreement shall be or become unenforceable or invalid and, following the occurrence of any of the events specified in this Condition 11.8, the Trustee is of the opinion that such occurrence is materially prejudicial to the interests of the Noteholders; or

11.9 *Government intervention*

(a) all or any substantial part of the undertaking, assets and revenues of the Issuer, the Guarantor or any Material Subsidiary of the Guarantor is condemned, seized, nationalised or otherwise

appropriated by any person acting under the authority of any national, regional or local government or (b) the Issuer, the Guarantor or any Material Subsidiary of the Guarantor is prevented by any such person from exercising normal control over all or any substantial part of its undertaking, assets, revenues and, following the occurrence of any of the events specified in this Condition 11.9, the Trustee is of the opinion that such occurrence is materially prejudicial to the interests of the Noteholders.

As used in this Condition 11 (*Events of Default*) “Material Subsidiary” means, at any given time, any Subsidiary of the Guarantor whose gross assets or gross revenues represent at least 5 per cent. of the consolidated gross assets, or, as the case may be, consolidated gross revenues of the Guarantor and its consolidated Subsidiaries and, for these purposes (i) the gross assets and gross revenues of such Subsidiary shall be determined by reference to its then most recent audited financial statements (or, if none, its then most recent management accounts); and (ii) the consolidated gross assets and consolidated gross revenues of the Guarantor and its consolidated Subsidiaries shall be determined by reference to its then most recent audited consolidated financial statements, in each case prepared in accordance with IFRS.

A report by the Auditors (as defined in the Trust Deed) that in their opinion a Material Subsidiary is or is not or was or was not at a specified date a Material Subsidiary shall, in the absence of manifest error, be conclusive and binding on all parties for such purpose.

The Trust Deed provides that the Trustee may, at any time, or, in making any determination under these Conditions or the Trust Deed, act on the opinion or advice of, or information obtained from, any expert, auditor, lawyer or professional entity, without further enquiry or evidence. If such evidence is relied upon, the Trustee’s determination shall be conclusive and binding on all parties, and the Trustee will not be responsible for any loss, liability, cost, claim, action, demand, expense or inconvenience which may result from it so acting.

12. Replacement of Note Certificates

If any Note Certificate is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the Specified Office of the Registrar or the Paying and Transfer Agent having its Specified Office in London, subject to all applicable laws and stock exchange requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may reasonably require. Mutilated or defaced Note Certificates must be surrendered before replacements will be issued.

13. Meetings of Noteholders; Modification and Waiver

13.1 Meetings of Noteholders

The Trust Deed contains provisions for convening meetings of Noteholders to consider matters relating to the Notes, including the modification of any provision of these Conditions or the Trust Deed. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Trustee, the Issuer, the Guarantor, or by the Trustee upon the request in writing of Noteholders holding not less than one-tenth of the aggregate principal amount of the outstanding Notes. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more persons holding or representing one more than half of the aggregate principal amount of the outstanding Notes or, at any adjourned meeting, two or more persons being or representing Noteholders whatever the principal amount of the Notes held or represented; provided, however, that certain proposals (including any proposal to change any date fixed for payment of principal or interest in respect of the Notes, to reduce the amount of principal or interest payable on any date in respect of the Notes, to alter the method of calculating the amount of any payment in respect of the Notes or the date for any such payment, to change the currency of payments under the Notes or to change the quorum requirements relating to meetings or the majority required to pass an Extraordinary Resolution (each, a “Reserved Matter”)) may only be sanctioned by an Extraordinary Resolution passed at a meeting of Noteholders at which two or more persons holding or representing not less than three-quarters or, at any adjourned meeting, one quarter of the aggregate principal amount of the outstanding Notes form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders, whether present or not.

13.2 *Written resolution*

A resolution in writing signed by or on behalf of all Noteholders who for the time being are entitled to receive notice of a meeting of Noteholders under the Trust Deed will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

13.3 *Modification without Noteholders' consent*

The Trustee may, without the consent of the Noteholders agree (a) to any modification of these Conditions or the Trust Deed (other than in respect of a Reserved Matter) which is, in the opinion of the Trustee, proper to make if, in the opinion of the Trustee, such modification will not be materially prejudicial to the interests of Noteholders and (b) to any modification of the Notes or the Trust Deed which is of a formal, minor or technical nature or to correct a manifest error. In addition, the Trustee may, without the consent of the Noteholders, authorise or waive any proposed breach or breach of the Notes or the Trust Deed (other than a proposed breach or breach relating to the subject of a Reserved Matter) if, in the opinion of the Trustee, the interests of the Noteholders will not be materially prejudiced thereby. Unless the Trustee agrees otherwise, any such authorisation, waiver or modification shall be notified to the Noteholders as soon as practicable thereafter.

14. Notices

14.1 *Notices to the Noteholders*

Notices to the Noteholders will be sent to them by first class mail (or its equivalent) or (if posted to an overseas address) by airmail at their respective addresses on the Register. Any such notice shall be deemed to have been given on the fourth day after the date of mailing. In addition, so long as Notes are listed on the London Stock Exchange's Gilt Edged and Fixed Interest Market and the rules of that exchange so require, notices to Noteholders will be published on the date of such mailing in a leading newspaper having general circulation in the United Kingdom (which is expected to be the *Financial Times*) or, if such publication is not practicable, in a leading English language daily newspaper having general circulation in Europe.

14.2 *Notices to the Issuer and/or the Guarantor*

Notices to the Issuer and/or the Guarantor will be deemed to be validly given if delivered to the Guarantor at 100 Shevchenko Street, Almaty 050022, Kazakhstan and clearly marked on their exterior "Urgent—Attention: Debt Capital Markets" with a copy to the Issuer at CenterCredit International B.V., Schouwburgplein 30-34, 3012 CL Rotterdam, The Netherlands and clearly marked on the external "Urgent—Attention: CenterCredit International B.V." (or at such other addresses and for such other attentions as may have been notified to the Noteholders in accordance with Condition 14.1 and will, be deemed to have been validly given at the opening of business on the next day on which the Issuer's and/or the Guarantor's (as the case may be) principal offices, as applicable, are open for business.

14.3 *Notices to the Trustee and Agents*

Notices to the Trustee or any Agent will be deemed to have been validly given if delivered to the Specified Office, for the time being, of the Trustee or such Agent, as the case may be, and will be validly given on the next day on which such office is open for business.

15. Trustee

15.1 *Indemnification*

Under the Trust Deed, the Trustee is entitled to be indemnified and relieved from responsibility in certain circumstances and to be paid its costs and expenses in priority to the claims of the Noteholders. In addition, the Trustee is entitled to enter into business transactions with the Issuer or the Guarantor and any entity relating to the Issuer or the Guarantor without accounting for any profit.

15.2 *Exercise of power and discretion*

In the exercise of its powers and discretions under these Conditions and the Trust Deed, the Trustee will have regard to the interests of the Noteholders as a class and will not be responsible

for any consequence for individual holders of Notes as a result of such holders being connected in any way with a particular territory or taxing jurisdiction.

15.3 *Enforcement*

The Trustee may at any time, at its discretion and without notice, institute such proceedings as it thinks fit to enforce its rights under the Trust Deed in respect of the Notes, but it shall not be bound to do so unless:

- (a) it has been so requested in writing by the holders of at least one fifth in principal amount of the outstanding Notes or has been so directed by an Extraordinary Resolution; and
- (b) it has been indemnified or provided with security to its satisfaction.

15.4 *Failure to act*

No Noteholder may proceed directly against the Issuer or the Guarantor unless the Trustee, having become bound to do so, fails to do so within a reasonable time and such failure is continuing. The Notes provide for the Trustee to take action on behalf of the Noteholders in certain circumstances, but only if the Trustee is indemnified to its satisfaction. It may not be possible for the Trustee to take certain actions in relation to the Notes and accordingly in such circumstances the Trustee will be unable to take action, notwithstanding the provision of an indemnity to it, and it will be for Noteholders to take action directly.

15.5 *Retirement and Removal*

Any Trustee may retire at any time on giving at least three months' written notice to the Issuer and the Guarantor without giving any reason or being responsible for any costs occasioned by such retirement and the Noteholders may by Extraordinary Resolution remove any Trustee provided that the retirement or removal of a sole trust corporation will not be effective until a trust corporation is appointed as successor Trustee. If a sole trust corporation gives notice of retirement or an Extraordinary Resolution is passed for its removal, it will use all reasonable endeavours to procure that another trust corporation be appointed as Trustee.

16. **Further Issues**

The Issuer may from time to time, without the consent of the Noteholders and in accordance with the Trust Deed, create and issue further notes having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest) so as to form a single series with the Notes. The Issuer may from time to time, with the consent of the Trustee, create and issue other series of notes having the benefit of the Trust Deed.

17. **Currency Indemnity**

If any sum due from the Issuer in respect of the Notes or from the Guarantor under the Trust Deed or any order or judgment given or made in relation thereto has to be converted from the currency (the "first currency") in which the same is payable under these Conditions, the Trust Deed or such order or judgment into another currency (the "second currency") for the purpose of (a) making or filing a claim or proof against the Issuer or the Guarantor, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, or in respect thereof under the Trust Deed, the Issuer or, as the case may be, the Guarantor, shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer or, as the case may be, the Guarantor and delivered to the Issuer or, as the case may be, the Guarantor, or to the Specified Office of the Principal Paying and Transfer Agent or the Paying and Transfer Agent having its Specified Office in London, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof. This indemnity constitutes a separate and independent obligation of each of the Issuer and the Guarantor and shall give rise to a separate and independent cause of action.

18. Governing Law; Jurisdiction and Arbitration

18.1 Governing law

The Trust Deed and the Notes are governed by, and shall be construed in accordance with, English Law.

18.2 Submission to Jurisdiction; Arbitration

Each of the Issuer and the Guarantor has in the Trust Deed (a) submitted irrevocably to the jurisdiction of the courts of England for the purposes of hearing and determining any suit, action or proceedings or settling any disputes arising out of or in connection with the Trust Deed or the Notes; (b) waived any objection which it might have to such courts being nominated as the forum to hear and determine any such suit, action or proceedings or to settle any such disputes and agreed not to claim that any such court is not a convenient or appropriate forum; (c) consented generally in respect of any legal action or proceedings arising out of or in connection with the Trust Deed to the giving of any relief or the issue of any process in connection with such action or proceedings including, without limitation, the making, enforcement or execution against any property whatsoever (irrespective of its use or intended use) of any order or judgment which may be made or given in such action or proceedings; (d) to the extent that it may, in respect of any legal action or proceedings in any jurisdiction arising out of or in connection with the Trust Deed, be entitled to claim for itself or its assets immunity from suit, from the jurisdiction of any court, from execution, attachment (whether in aid of execution of a judgment, before judgment or otherwise) or any other relief or other legal process, and to the extent that in any such legal action or proceedings in any such jurisdiction there may be attributed to itself or its assets or revenues such immunity (whether or not claimed), irrevocably agreed not to claim and irrevocably waived such immunity to the fullest extent now or hereafter permitted by the laws of the jurisdiction in which such legal action is or such proceedings are commenced; (e) agreed that a final judgment in any suit, action or proceedings of the nature referred to in Condition 18.2(a) brought in any court shall be conclusive and binding upon it and may, subject to applicable law and to compliance with any applicable procedural requirements, be enforced in or by any of those courts mentioned in Condition 18.2(a), or any other courts to the jurisdiction of which the Issuer or the Guarantor are or may be subject by a suit upon such judgment provided that service of process in connection with any such suit, action or proceedings shall have been effected upon them or such of them in one of the manners specified in this Condition 18.2 or as otherwise permitted by applicable law; (f) designated a person in England to accept service of any process on its behalf; and (g) agreed that the Trustee may elect by written notice to the Issuer and the Guarantor that any dispute (including a claim, dispute or difference regarding the existence, termination or validity of the Notes), shall be finally settled by arbitration in accordance with the Rules of the London Court of International Arbitration as at present in force and as modified by the Trust Deed.

There will appear at the foot of the Conditions endorsed on each Note in definitive form the names and Specified Offices of the Paying and Transfer Agents as set out at the end of this Prospectus.

**FORM OF NOTES AND TRANSFER RESTRICTIONS;
SUMMARY OF PROVISIONS RELATING TO THE NOTES IN GLOBAL FORM**

The following information relates to the form, transfer and delivery of the Notes and is a summary of certain provisions to be contained in the Global Note which apply to the Notes.

1. Form of Notes

All Notes will be in fully registered form, without interest coupons attached. The Notes will be represented by interests in the Global Note, in fully registered form, without interest coupons attached, which will be deposited on or about the Closing Date with Deutsche Bank AG, London Branch, as common depository for the Euroclear Operator and Clearstream, Luxembourg, and registered in the name BT Globenet Nominees Limited, as nominee for such common depository.

For the purposes of the Global Note, any reference in the Conditions to “Note Certificate” or “Note Certificates” shall, except where the context otherwise requires, be construed so as to include the Global Note and interests therein.

2. Transfer Restrictions

Each purchaser of Notes and each subsequent purchaser of Notes in resales prior to the 40th day after the closing date (the “distribution compliance period”), by accepting delivery of this Prospectus and the Notes, will be deemed to have represented and agreed as follows:

- (i) It is, or will be at the time Notes are purchased, the beneficial owner of such Notes and (a) it is not a U.S. person and it is located outside the United States (within the meaning of Regulation S) and (b) it is not an affiliate of the Issuer or Bank or a person acting on behalf of such an affiliate.
- (ii) It understands that such Notes have not been and will not be registered under the Securities Act and that, prior to the expiration of the distribution compliance period, it will not offer, sell, pledge or otherwise transfer such Notes except in an offshore transaction in accordance with Rule 903 or Rule 904 of Regulation S, in each case in accordance with any applicable securities laws of any State of the United States.
- (iii) The Issuer, the Bank, the Registrar, the Managers and their affiliates, and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements.

3. Notices

Notwithstanding Condition 14 (*Notices*) (and without prejudice to the requirements in such Condition to publish notices in accordance with the rules and regulations of such stock exchange(s) on which the Notes are listed), while all the Notes are represented by the Global Note and the Global Note is deposited with a common depository for the Euroclear Operator and Clearstream, Luxembourg or any other clearing system, notices to Noteholders may be given by delivery of the relevant notice to the Euroclear Operator, Clearstream, Luxembourg or, as the case may be, such other clearing system and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with Condition 14 (*Notices*) on the date of delivery to the Euroclear Operator, Clearstream, Luxembourg or, as the case may be, such other clearing system.

4. Exercise of Put Option

While the Notes are represented by the Global Note and the Global Note is deposited with a common depository for the Euroclear Operator and Clearstream, Luxembourg, the exercise of the put option referred to in Condition 8.3 will be subject to the normal rules and operating procedures of the Euroclear Operator and Clearstream, Luxembourg.

5. Meetings

The holder of the Global Note (unless the Global Note represents only one Note) will be treated as being two persons for the purposes of any quorum requirements of a meeting of Noteholders and, at any such meeting, as having one vote in respect of each U.S.\$1,000 principal amount of Notes for which the Global Note so held may be exchanged.

6. Exchange of Interests in Global Note for Note Certificates

The Global Note will become exchangeable for Note certificates in definitive form (“Note Certificates”) if (a) Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) an Event of Default (as defined in Condition 11) occurs. In such circumstances, such Note Certificates will be registered in such names as the Euroclear Operator and Clearstream, Luxembourg shall direct in writing and the Bank will procure that the Registrar notify the holders as soon as practicable after the occurrence of the events specified in (a) and (b).

In the event that the Global Note is to be exchanged for Note Certificates, the Global Note shall be exchanged in full for Note Certificates and the Bank will, without charge to the holder or holders thereof, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatever nature which may be levied or imposed in connection with such exchange, cause sufficient Note Certificates to be executed and delivered to the Registrar for completion, authentication and dispatch to the relevant Noteholders.

On exchange, a person having an interest in a Global Note must provide the Registrar with (i) a written order containing instructions and such other information as the Issuer, the Bank and the Registrar may require to complete, execute and deliver such Note Certificates and (ii) a fully completed, signed certificate substantially in the form contained in the Paying Agency Agreement to the effect that the exchanging holder is not transferring its interest at the time of such exchange or, in the case of simultaneous sale pursuant to Regulation S, a certification that the transfer is being made in compliance with the provisions of Regulation S.

In addition to the requirements described under “Form of Notes and Transfer Restrictions; Summary of Provisions Relating to the Notes in Global Form—Transfer Restrictions”, the holder of a Note may transfer such Note only in accordance with the provisions of Condition 3.

The Registrar will not register the transfer of the Notes or exchange of interests in a Global Note for Note Certificates for a period of 15 calendar days ending on the due date of any payment of principal or interest in respect of the Notes.

7. Euroclear Operator and Clearstream, Luxembourg Arrangements

Interest on the Notes (other than interest on redemption) will be paid to the holder shown on the Register on the fifteenth day before the due date for such payment (the “Record Date”).

The holdings of book-entry interests in the Notes in the Euroclear Operator and Clearstream, Luxembourg will be reflected in the book-entry accounts of each such institution. Beneficial ownership in Notes will be held through financial institutions as direct and indirect participants in the Euroclear Operator and Clearstream, Luxembourg.

Interests in the Global Note will be in uncertificated book-entry form.

So long as the Euroclear Operator, Clearstream, Luxembourg or the nominee of their common depository is the registered holder of the Global Note, the Euroclear Operator, Clearstream, Luxembourg or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by the Global Note for all purposes under the Paying Agency Agreement, the Trust Deed and the Notes. Payments of principal, interest and Additional Amounts, if any, in respect of the Global Note will be made to the Euroclear Operator, Clearstream, Luxembourg or such nominee, as the case may be, as the registered holder thereof against presentation for endorsement and, if no further payment of principal or interest is to be made in respect of the Notes, against presentation and surrender of the Global Note to or to the order of the Registrar. Upon payment of any principal, the amount so paid shall be endorsed by or on behalf of the Registrar and on behalf of the Issuer on the schedule to the Global Note. None of the Bank, the Trustee, any Agent or the Managers or any affiliate of any of the above or any person by whom any of the above is controlled for the purposes of the Securities Act will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Global Note or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Distributions of principal and interest with respect to book-entry interests in the Notes held through the Euroclear Operator or Clearstream, Luxembourg will be credited, to the extent received by the

Euroclear Operator or Clearstream, Luxembourg or their common depositary or its nominee from the Principal Paying and Transfer Agent, to the cash accounts of the Euroclear Operator or Clearstream, Luxembourg customers in accordance with the relevant system's rules and procedures.

Trading between the Euroclear Operator and/or Clearstream, Luxembourg Account Holders. Secondary market sales of book-entry interests in the Notes held through the Euroclear Operator or Clearstream, Luxembourg to purchasers of book-entry interest in the Notes through the Euroclear Operator or Clearstream, Luxembourg will be conducted in accordance with the normal rules and operating procedures of the Euroclear Operator and Clearstream, Luxembourg and will be settled using the procedures applicable to conventional Eurobonds.

THE ISSUER

History

The Issuer was incorporated as a private company with limited liability (a *besloten vennootschap met beperkte aansprakelijkheid* or B.V.) under and subject to the laws of The Netherlands on 4 January 2006 for an unlimited duration. Its number in the commercial register of Rotterdam, The Netherlands is 24388417. The Issuer is a direct, wholly owned subsidiary of the Bank.

Capitalisation

The following table sets out the capitalisation of the Issuer as at 4 January 2006, its date of incorporation, and as adjusted to reflect the issue and sale of the Notes, before deducting commissions and expenses, and the €2 million capital contribution agreed to be made by the Bank upon the issue of the Notes:

	Actual		As adjusted	
	(U.S.\$) ⁽¹⁾ (unaudited)	(Euro) (unaudited)	(U.S.\$) ⁽¹⁾ (unaudited)	(Euro) (unaudited)
Senior long-term liabilities ⁽²⁾	—	—	300,000,000	248,282,711
Total shareholders' equity	21,749	18,000	2,438,349	2,018,000
Total shareholders' equity and long-term liabilities . . .	21,749	18,000	302,438,349	250,300,711

(1) At the exchange rate of €1 = U.S.\$1.2083 (from the European Central Bank).

(2) Senior long-term liabilities represent liabilities that fall due after one year and are not subordinated.

The authorised share capital of the Issuer is €90,000, divided into ordinary shares with a par value of €100 each. As at the date of this Prospectus, the Issuer's total capitalisation is €18,000, consisting of 180 ordinary shares which have been issued and fully paid at par and are directly owned by the Bank. The Bank has agreed to increase the Issuer's total paid-in capital by €2 million upon the issue of the Notes, by way of a share premium contribution.

Except for the issue of the Notes, and as described below, there has been no material adverse change in the capitalisation, financial position or prospects of the Issuer since the date of its incorporation.

The net proceeds of the issue will be deposited by the Issuer with the Bank and the Issuer will pledge its rights to the deposit to secure its obligations to reimburse the Bank for any payments made under the Guarantee.

Business

As set out in Article 2 of its Articles of Association, the Issuer was incorporated primarily for the purpose of raising funds in the international capital markets and lending such funds to the Bank or its subsidiaries. See "Use of Proceeds". The Issuer has no employees or subsidiaries.

The Issuer has no outstanding indebtedness in the nature of borrowings, guarantees or contingent liabilities as at the date of this Prospectus.

Since 31 December 2004, there have been no governmental, legal or arbitration proceedings against the Issuer which may have, or have had in the recent past, significant effects on any of its financial position or profitability, nor is the Issuer aware of any pending or threatened proceedings of such kind.

Financial Statements

The Issuer will publish annual financial statements in accordance with Dutch law. To comply with a NBK requirement that the accounts of overseas subsidiaries of Kazakhstan banks must be independently audited, the Issuer will engage TOO Deloitte & Touche, to conduct annual audits of its statutory financial statements. The Issuer is not required to, and does not intend to, produce interim financial statements.

Management

The Issuer currently has two managing directors, Timur Ishmuratov, who is a Managing Director of the Bank, and Equity Trust Co. N.V. ("Equity Trust") a company with limited liability incorporated in The Netherlands.

Other than as disclosed in this Prospectus, there are no potential conflicts of interest between any duties of the managing directors towards the Issuer and their private interests and/or other duties.

General Information

The business address of the Issuer is Schouwburgplein 30-34, 3012 CL, Rotterdam, The Netherlands and its telephone number is +31 10 2245 333. Administrative services are provided to the Issuer by Equity Trust, whose business address is Schouwburgplein 30-34, 3012 CL Rotterdam, The Netherlands.

The Issuer has obtained all necessary consents, approvals and authorisations in The Netherlands in connection with the issuance of the Notes and the performance of its obligations in relation thereto.

USE OF PROCEEDS

The Issuer will deposit with the Bank the net proceeds of the issue of the Notes, expected to amount to U.S.\$298,092,500 after deduction of the combined management and underwriting commission, the selling commission, and expenses incurred in connection with the issue of the Notes . The Bank will use the deposit to fund loans and advances to its borrowers and for other general corporate purposes, including liquidity management. Total commission and expenses relating to the Issue are expected to be approximately U.S.\$1,907,500.

EXCHANGE RATES AND EXCHANGE CONTROLS

Exchange Rates

The currency of Kazakhstan is the Tenge, which was introduced in November 1993. Prior to 5 April 1999, the NBK maintained a managed floating exchange rate system with the rate being determined on the basis of market developments and the NBK's role in setting the exchange rate being limited to interventions in the internal currency market in order to prevent volatile exchange rate fluctuations caused by short-term changes in supply and demand.

As a result of the economic crises in Asia and Russia in 1997 and 1998 and the resulting currency depreciations, primarily in Russia and other former Soviet Republics, Kazakhstan's exports became less competitive on international markets while imports from such countries increased. In addition, the decline in world commodity prices, particularly of oil, base and precious metals and grain, reduced Kazakhstan's foreign currency revenues. The resulting trade imbalance, as well as lower than expected privatisation revenues, weakened the Tenge. The NBK supported the Tenge by intervening in the foreign exchange markets. Such intervention, together with the servicing of Kazakhstan's external debt, resulted in a decline of foreign exchange reserves.

In April 1999, the NBK and the Government publicly announced that they would cease to intervene in the foreign exchange markets to support the Tenge, allowing the exchange rate to float freely. This decision was supported by international financial organisations such as the International Monetary Fund (the "IMF"). As a result, the Tenge depreciated from a pre-announcement rate of KZT88 per U.S. dollar to a rate of about KZT130 per U.S. dollar by May 1999. Since then, the Tenge has generally continued to depreciate in nominal terms against the U.S. dollar, although it strengthened against the U.S. dollar in 2003 and the first half of 2004.

The following table sets out certain period-end, high, average and low Tenge/U.S. dollar official exchange rates as reported by the NBK:

Year ended 31 December

	<u>Period-end</u>	<u>High</u>	<u>Average⁽¹⁾</u>	<u>Low</u>
1999	138.20	141.00	119.65	83.80
2000	144.50	144.50	142.13	138.20
2001	150.20	150.20	146.73	145.00
2002	155.60	155.60	153.28	150.60
2003	144.22	155.89	149.50	143.66
2004	130.00	143.33	136.05	130.00
2005	133.77	136.12	132.14	129.83

Quarter ended

	<u>Period-end</u>	<u>High</u>	<u>Average⁽¹⁾</u>	<u>Low</u>
31 March 2004	138.93	142.91	139.65	138.41
30 June 2004	136.06	138.92	137.19	136.00
30 September 2004	134.29	134.36	134.30	134.28
31 December 2004	130.00	134.41	131.35	130.00
31 March 2005	132.59	132.59	130.21	129.83
30 June 2005	135.26	136.00	132.18	130.28
30 September 2005	133.89	136.12	135.12	133.89
31 December 2005	133.77	134.42	131.05	133.46

(1) The average of the middle rate reported by the NBK on each day during the relevant period.

The middle KZT/U.S. dollar exchange rate on the Kazakhstan Stock Exchange, as reported by the NBK on 10 January 2006, was KZT133.82 per U.S.\$1 .

The above rates may differ from the actual rates used in the preparation of the Bank's consolidated financial statements and other financial information appearing in this Prospectus. The inclusion of these exchange rates is not meant to suggest that the Tenge amounts actually represent such U.S. dollar amounts or that such amounts could have been converted into U.S. dollars at any particular rate, if at all.

Exchange Controls

Kazakhstan has accepted the conditions of paragraphs 2, 3 and 4 of Article VIII of the IMF Charter and, as a result, has agreed not to introduce or increase any exchange rate restrictions, introduce or modify any practice of multiple exchange rates, enter into any bilateral agreements violating Article VIII or impose any import restrictions. In accordance with Article VIII, a new law on currency regulation was adopted in 1996. According to this law, all current account operations, including transfers of dividends, interest and other investment income, may be made without restriction. Only certain outflowing capital account operations need to be licensed by or registered with the NBK. Capital inflows are registered and monitored for statistical purposes only, but are not restricted.

Following the influx of Dollars into Kazakhstan due to the rising oil prices, a number of steps aimed to liberalise the currency control regime were undertaken in Kazakhstan from 2002 to 2004. The new currency control law and supporting regulations came into effect at the end of 2005, as the major step towards achieving the liberalisation of currency operations, extension of export of capital and elimination of double control. Among other things, the new currency control rules substantially expand the scope of Kazakhstan investors that can invest abroad and eases the requirements for international financing to Kazakhstan.

Specifically, no NBK license is currently required (i) for a Kazakhstan financial organisation to open accounts in foreign banks in connection with transactions with financial instruments on international securities markets or for a Kazakhstan legal entity to open accounts in foreign banks for the purposes of securing its obligations towards non-resident lenders; (ii) for certain Kazakhstan financial organisations, or other residents acting through a licensed professional securities market participant, to acquire foreign securities or to enter into derivative transactions with non-residents; (iii) for an acquisition by residents of more than 10 per cent. of the voting shares of a non-resident company.

Currency control limitations were further eased for Kazakhstan banks and, currently, with respect to most of their off-shore operations, banks should only notify the NBK on such operations.

CAPITALISATION OF THE BANK

The following table sets out the consolidated capitalisation of the Bank as at 30 September 2005 on an actual basis, and as adjusted to reflect the issuance of the Notes:

	30 September 2005			
	Actual		As Adjusted	
	<i>(U.S.\$ thousands)⁽¹⁾ (unaudited)</i>	<i>(KZT thousands) (unaudited)</i>	<i>(U.S.\$ thousands)⁽¹⁾ (unaudited)</i>	<i>(KZT thousands) (unaudited)</i>
Liabilities				
Short-term liabilities.....	1,037,617	138,926,510	1,037,617	138,926,510
Senior long-term liabilities ^{(2) (3)}	646,712	86,588,322	946,712	126,755,270
Subordinated long-term liabilities.....	82,383	11,030,263	82,383	11,030,263
Total liabilities.....	1,766,712	236,545,095	2,066,712	276,712,043
Shareholders' equity				
Share capital ⁽⁴⁾	96,180	12,877,492	96,180	12,877,492
Fair value of investments for sale reserve....	4,499	602,427	4,499	602,427

Total capitalisation.....	1,926,468	257,934,847	2,226,468	298,101,795

(1) U.S.\$1.00 = KZT133.89.

(2) Senior long-term liabilities represent liabilities that fall due after one year and are not subordinated.

(3) Since 30 September 2005, the Bank has entered into a number of financings. See "Description of the Bank—Funding and Liquidity".

(4) Comprises 58,867,872 authorised, issued and fully paid ordinary shares with a par value of KZT200 each. As at 30 September 2005, the Bank's share capital had increased to KZT12,877,492 thousand. The Bank has not issued any debt securities convertible into, or exchangeable for, its ordinary shares.

Other than as set forth in the notes to the capitalisation table, there has been no material change in the Bank's capitalisation since 30 September 2005.

SELECTED FINANCIAL AND OTHER INFORMATION

The following table contains summary historical financial information derived from the Bank's audited consolidated IFRS financial statements as at and for the years ended 31 December 2004 and 31 December 2003 which were audited by DTT. The summary information for the nine months ended 30 September 2005 and 2004 and as at 30 September 2005 is extracted from the unaudited consolidated interim IFRS financial statements prepared by the Bank. Investors should not rely on interim results as being indicative of results the Bank may expect for the full year. The Bank's financial statements have been prepared in accordance with IFRS and are presented in Tenge.

Solely for the convenience of the reader, the Bank has translated information in the summary income statement and the summary balance sheet for or as at the nine months ended 30 September 2005, 30 September 2004 and for or as at the years ended 31 December 2004 and 31 December 2003 into U.S. dollars at the rates of U.S.\$1.00 = KZT133.89, U.S.\$1.00 = KZT134.56, U.S.\$1.00 = KZT130.00 and U.S.\$1.00 = KZT144.22, respectively.

Prospective investors should read the following summary consolidated financial and other information in conjunction with the information contained in "Capitalisation," "Management's Discussion and Analysis of Results of Operations and Financial Condition" and the Bank's consolidated interim financial statements and consolidated financial statements and the related notes thereto appearing elsewhere in this Prospectus.

(1) Based on the average of the opening and closing balances for the period.

(2) Annualised.

(3) Averages are based upon average daily balances.

(4) Net interest margin is net interest income before provisions for impairment losses as a percentage of average interest-earning assets.

(5) Liquid assets include cash and balances with the NBK, loans and advances to banks (with maturity of less than one month), assets held-for-trading and investment securities.

(6) Calculated in accordance with the Basel Accord, as currently in effect.

(7) For the definition of non-performing loans used by the Bank, see “Description of the Bank—Lending Policies and Procedures—Provisioning Policy”.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

The following discussion should be read in conjunction with the Bank's audited annual IFRS financial statements and its interim unaudited IFRS financial statements as at and for the nine months ended 30 September 2005 appearing elsewhere in this Prospectus. This discussion includes forward-looking statements based on assumptions about the Bank's future business. The Bank's actual results could differ materially from those contained in such forward-looking statements.

Introduction

Established in 1988, the Bank is the fifth largest commercial bank in Kazakhstan, measured by total assets and customer accounts as at 30 September 2005, providing retail and corporate banking products and services. As at and for the nine months ended 30 September 2005, the Bank had net income of KZT3,527.6 million, total assets of KZT257,934.8 million and shareholders' equity of KZT21,389.8 million, compared with net income of KZT1,783.2 million, total assets of KZT141,009.5 million and shareholders' equity of KZT11,229.7 million for the same period ended 30 September 2004.

The Bank's financial statements as at and for the years ended 31 December 2004 and 2003 were prepared in accordance with IFRS and audited by DTT. These financial statements are consolidated and reflect the results of operations of the Bank and its subsidiaries, LLP Center Leasing, JSC KIB Asset Management and JSC Capital Pension Fund, as well as LLP BCC and LLP Aktas Zhol, which are not subsidiaries of, but are controlled by the Bank as special purpose entities.

The discussion in relation to the Bank's financial statements as at and for the years ended 31 December 2004 and 2003 is, unless otherwise stated, based upon the Bank's consolidated financial statements as at and for the years ended on such dates. This discussion, in so far as it refers to average amounts, has been based upon an analysis of average daily balances calculated on the basis used in the Bank's IFRS financial statements.

The discussion in relation to the Bank's results of operations and financial condition for the nine months ended and as at 30 September 2005 is based on the Bank's unaudited consolidated interim financial statements for the nine months ended 30 September 2005 and 2004 and as at 30 September 2005 which have been prepared in accordance with IFRS and are stated on a basis substantially consistent with the audited annual financial statements included elsewhere in this Prospectus.

Kazakhstan's Economy

Overview

Kazakhstan has been recognised by both the European Union and the United States as having a market economy. It has experienced extensive economic transformation since independence in 1992; for example, real GDP, which fell by 38.6 per cent. between 1990 and 1995, is estimated to have grown by roughly the same amount since then, assisted substantially by the flotation of the Tenge in April 1999 and its subsequent devaluation, improvement in the global economic environment and rising commodity prices over the period.

Raw minerals extraction is the biggest sector of Kazakhstan's economy, which makes it overly dependent on the world market prices for mineral resources. Therefore, the main tasks facing Kazakhstan in the long-term are diversifying its economy and shifting its production toward value-added products.

Gross domestic product

The black market sector constitutes a significant portion of Kazakhstan's economy and the NSA makes adjustments to its GDP data in accordance with approved IMF practices in order to reflect this. The NSA's estimate of the size of the black market (including the household sector) has been that, at times, it has exceeded 35 per cent. of GDP. Others have, however, given even higher estimates of the contribution of the black market economy.

The following table sets forth certain information on Kazakhstan's GDP for the periods indicated:

	Year ended 31 December							
	2004	2003	2002	2001	2000	1999	1998	1997
Nominal GDP (KZT millions)	5,542,500	4,449,800	3,747,200	3,250,593	2,599,902	2,016,456	1,733,264	1,672,143
Real GDP (percentage change during the twelve months then ended)	9.4	9.2	9.5	13.5	9.8	2.7	(1.9)	1.7
Nominal GDP per capita (KZT)	368,056	297,844	252,263	219,170	174,854	135,088	114,991	109,045
Population (millions average annual) . . .	15.06	14.94	14.86	14.85	14.86	14.9	15.0	15.2

Source: NSA, NBK

Real GDP increases over the period are principally the result of systemic reforms (including price and trade liberalisation as well as privatisation), foreign investment (particularly in the oil and gas and non-ferrous metallurgy sectors), increases in agricultural production, strong commodity prices in recent years and the flotation of the Tenge in April 1999.

GDP by source

The following table sets forth the composition of nominal GDP by source for the periods indicated:

	Year ended 31 December							
	2004	2003	2002	2001	2000	1999	1998	1997
	<i>(per cent. share of GDP)</i>							
Industry	31.1	29.5	29.3	30.7	31.9	28.2	24.4	21.4
Construction	5.9	6.2	6.1	5.5	5.3	4.8	4.9	4.2
Agriculture	7.9	7.3	7.9	8.7	8.7	9.9	8.6	11.4
Transportation and Telecommunications	12.2	12.1	11.5	11.2	12.0	12.0	13.9	11.7
Trade	11.4	12.1	12.0	12.1	12.6	3.6	15.2	15.6
Other ⁽¹⁾	31.5	32.8	33.2	31.8	29.5	31.5	33.0	35.7
Total	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

Source: NSA

(1) Includes finance and non-production sectors such as medicine, education, culture, defence and state administration, as well as taxes.

The composition of Kazakhstan's GDP has changed over recent years, with the share of agriculture decreasing and that of industry increasing by more than 50 per cent. since 1997.

The extraction and production of hydrocarbons (i.e., oil, gas and gas condensates) and minerals are the most significant industries in the Kazakhstan economy. Exports of hydrocarbons and minerals accounted for 74 per cent. of total exports in the first nine months of 2005, compared to 68 per cent. and 65 per cent. of total exports for the same period in 2004 and in the whole of 2003, respectively.

Inflation

The year-on-year rate of consumer price inflation has fallen from 1,258.3 per cent. as at the end of 1994 to 6.6 per cent. as at the end of 2004 and 7.9 per cent. as at the end of September 2005, although inflationary pressures have resumed in the first nine months of 2005, to a certain extent as a result of the flotation of the Tenge and rising commodity prices.

The following table sets forth the year-on-year rates of consumer price inflation and producer price inflation as at the dates indicated:

	Nine months ended 30 September	Year ended 31 December								
		2005	2004	2003	2002	2001	2000	1999	1998	1997
		<i>(per cent.)</i>								
Consumer Prices	7.9	6.7	6.8	6.6	6.4	9.8	17.8	1.9	11.2	
Producer Prices	25.5	23.8	5.9	11.9	(14.1)	19.4	57.2	(5.5)	11.7	

Source: NSA, NBK

Balance of Payments

The following table sets forth the year on year surplus (or deficits) on the current account and surplus on the capital and financial accounts (primarily attributable to inflows of foreign direct investment) as at the dates indicated:

	Six months ended 30 June	Year ended 31 December					
		2005	2004	2003	2002	2001	2000
		<i>(U.S.\$ millions)</i>					
Current account	912.8	529.6	(270.1)	(1,024.3)	(1,389.5)	366.3	
Capital and financial account	(637.1)	4,585.4	2,738.0	1,239.3	2,428.7	1,016.5	

Source: NSA, NBK

Based on NBK data, Kazakhstan's current account deficit in 2002 was U.S.\$1,024.3 million and U.S.\$1,389.5 million in 2001 compared with a surplus of U.S.\$366.3 million in 2000. The current account deficit in 2003 was U.S.\$270.1 million compared a to surplus of U.S.\$529.6 million in 2004. The current account surplus in the first half of 2005 was U.S.\$912.8 million.

The current account deficit has been offset by inflows of foreign direct investment. The capital and financial account surplus in 2000 was U.S.\$1,016.5 million, resulting in a balance of payment surplus of U.S.\$585.1 million. In 2001, foreign direct investment in the amount of U.S.\$4,556.6 million resulted in a capital and financial account surplus of U.S.\$2,428.7 million. In 2002, foreign direct investment for the year amounted to U.S.\$4,106.5 million, which resulted in a capital and financial account surplus of U.S.\$1,239.2 million. In 2003, foreign direct investment was U.S.\$4,607 million and the capital and financial account surplus was U.S.\$2,755.2 million. In 2004, foreign direct investment was U.S.\$8,423.7 million which resulted in a capital and financial account surplus of U.S.\$4,592.5 million.

Critical Accounting Policies

The Bank's results of operations and financial condition presented in the financial statements, notes to the financial statements and selected financial and other information appearing elsewhere within this Prospectus are, to a large degree, dependent upon the Bank's accounting policies.

The Bank's significant accounting policies are described in Note 3 to the financial statements appended to the back of this Prospectus. The Bank has identified the following accounting policies that it believes are the most critical to an understanding of the results of operations and financial condition of the Bank. These critical accounting policies require management's subjective and complex judgment about matters that are inherently uncertain. The impact and any associated risks related to the Bank's critical accounting policies on its business operations are discussed throughout this section where these policies affect the Bank's financial results as presented in this Prospectus.

Principles of consolidation

The consolidated financial statements incorporate the financial statements of the Bank and its subsidiaries. The consolidated financial statements are prepared on a quarterly basis. Control is achieved where the Bank has the power to govern the financial and operating policies of an investee entity so as to obtain benefits from its activities. Consolidated financial statements also include statements of special purpose entities.

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the

identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired (i.e. discount on acquisition) is credited to profit and loss in the period of acquisition. The interest of minority shareholders is stated at the minority's proportion of the fair values of the assets and liabilities recognised. Subsequently, any losses applicable to the minority interest in excess of the minority interest are allocated against the interests of the parent.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated profit and loss account from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of consolidated entities to bring the accounting policies used into line with those used by the Group. All intra-group transactions, balances, income and expenses are eliminated on consolidation.

Investments in non-consolidated associates

Investments in companies where the Group owns more than 20 per cent. of share capital, but does not have the ability or intent to control or exercise significant influence over operating and financial policies, or non-consolidation of such companies does not have a significant effect on the consolidated financial statements taken as a whole, or the Group intends to resell such investments in the near future, as well as investments in companies where the Group owns less than 20 per cent. of share capital, are accounted for at fair cost or approximated cost, or at cost of acquisition, if the fair value of investments cannot be determined. Management periodically assesses the carrying values of such investments and provides allowances for impairment, if necessary.

Recognition and measurement of financial instruments

The Group recognises financial assets and liabilities on its balance sheet when it becomes a party to the contractual provisions of the instrument. Regular way purchase and sale of financial assets and liabilities are recognised using settlement date accounting. Regular way purchases of financial instruments that will be subsequently measured at fair value between trade date and settlement date are accounted for in the same way as for acquired instruments. Financial assets and liabilities are initially recognised at fair value plus, in the case of a financial asset or financial liability not at fair value through profit or loss transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. The accounting policies for subsequent re-measurement of these items are disclosed in the respective accounting policies set out below.

Cash and balances with NBK – includes cash on hand, unrestricted balances on correspondent and time deposit accounts with the NBK with original maturity of less than 90 days, and advances to banks in countries that are members of the OECD.

Loans and advances to banks – in the normal course of business, the Group maintains advances or deposits for various periods of time with other banks. Loans and advances to banks with a fixed maturity term are subsequently measured at amortised cost using the effective interest method. Those that do not have fixed maturities are carried at cost. Amounts due from credit institutions are carried net of any allowance for losses.

Assets held-for-trading – these represent assets acquired principally for the purpose of selling them in the near term and for which there is evidence of a recent pattern of short-term profit-taking, or it is a derivative. Assets held-for-trading are initially recorded and subsequently measured at fair value. The Group uses quoted market prices to determine fair value for the Group's assets held-for-trading. When reliable market prices are not available or if liquidating the Group's position would reasonably be expected to impact market prices, fair value is determined by reference to price quotations for similar instruments traded in different markets or management's estimates of the amounts that can be realized from an orderly disposition over a period of time, assuming current market conditions. Fair value adjustment on assets held-for-trading is recognised in profit and loss for the period.

Investments available-for-sale – these represent debt and equity investments that are intended to be held for an indefinite period of time. Such securities are initially recorded at fair value. Subsequently the securities are measured at fair value, with such re-measurement recognised directly in equity, plus accrued coupon income. The Group uses quoted market prices to determine the fair value for the Group's investments available-for-sale. If such quotes do not exist, management estimation is used. Interest earned on investments available-for-sale is reflected in the consolidated profit and loss account as interest income on investment securities. Dividends received are included in dividend income in the consolidated profit and loss account.

When there is objective evidence that such securities have been impaired, the cumulative loss previously recognised in equity is removed from equity and recognised in profit and loss for the period. Reversals of such impairment losses on debt instruments, which are objectively related to events occurring after the impairment, are recognised in profit and loss for the period. Reversals of such impairment losses on equity instruments are not recognised in profit and loss while gains from the sale of investments available-for-sale are recognised in profit and loss.

Investments held-to-maturity – such investments are debt securities with determinable or fixed payments. The Group has the positive intent and ability to hold them to maturity. Such securities are carried at amortized cost, less any allowance for impairment.

Allowance for impairment losses

The determination of the allowance for impairment losses is based on an analysis of the risk assets and reflects the amount which, in the judgment of management, is adequate to provide for losses incurred. Provisions are made as a result of an individual appraisal of risk assets for financial assets that are individually significant, and an individual or collective assessment for financial assets that are not individually significant.

The change in the allowance for impairment losses is charged to profit in the consolidated profit and loss account and the total of the allowance for impairment losses is deducted in arriving at assets as shown in the consolidated balance sheet. Factors that the Group considers in determining whether it has objective evidence that an impairment loss has been incurred include information about the debtors' or issuers' liquidity, solvency and business and financial risk exposures, levels of and trends in delinquencies for similar financial assets, national and local economic trends and conditions, and the fair value of collateral and guarantees. These and other factors may, either individually or taken together, provide sufficient objective evidence that an impairment loss has been incurred in a financial asset or group of financial assets.

Results of Operations for the nine months ended 30 September 2005 compared to the nine months ended 30 September 2004

Net Interest Income

The following table sets out the principal components of the Bank's consolidated net interest income for the nine months ended 30 September 2005 and 2004:

	For the nine months ended 30 September		Variation
	2005	2004	2005/2004
	<i>(KZT thousands)</i>		<i>(per cent.)</i>
Interest income	17,216,823	8,989,114	91.5
Interest expense	(9,491,624)	(4,343,847)	118.5
Net interest income before provision for impairment losses on interest bearing assets	7,725,199	4,645,267	66.3
Provision for impairment losses on interest bearing assets	(3,726,321)	(1,841,577)	102.3
Net interest income	<u>3,998,878</u>	<u>2,803,690</u>	<u>42.6</u>

Interest Income

The following table sets out the principal components of the Bank's consolidated interest income for the nine months ended 30 September 2005 and 2004:

	For the nine months ended 30 September		Variation
	2005	2004	2005/2004
	<i>(KZT thousands)</i>		<i>(per cent.)</i>
Interest on loans and advances to customers	15,334,282	7,981,239	92.1
Interest on debt securities	1,489,751	826,399	80.3
Interest on loans and advances to banks	340,419	113,106	201.0
Interest on reverse repurchase transactions	<u>52,371</u>	<u>68,370</u>	<u>(23.4)</u>
Total interest income	<u>17,216,823</u>	<u>8,989,114</u>	<u>91.5</u>

Interest income increased by 91.5 per cent. or by KZT8,227.7 million, from KZT8,989.1 million for the nine months ended 30 September 2004, to KZT17,216.8 million for the nine months ended 30 September 2005. This increase was primarily due to increases in volume of net loans and advances to customers from KZT88,720.2 million at 30 September 2004 to KZT182,477.8 million at 30 September 2005. The average interest rate payable on such loans as of 31 December 2004 was 13.2 per cent. and for the nine months ended 30 September 2005 was 13.4 per cent.

Interest Expense

The following table sets out the principal components of the Bank's consolidated interest expense for each of the nine month periods ended 30 September 2005 and 2004:

	For the nine months ended 30 September		Variation
	2005	2004	2005/2004
	<i>(KZT thousands)</i>		<i>(per cent.)</i>
Interest on customer accounts	4,883,252	2,946,375	65.7
Interest on loans and advances from banks and other financial institutions	2,353,362	970,264	142.5
Interest on subordinated debt and eurobonds	2,250,015	414,452	442.9
Interest on repurchase transactions	<u>4,995</u>	<u>12,756</u>	<u>(60.8)</u>
Total interest expense	<u>9,491,624</u>	<u>4,343,847</u>	<u>118.5</u>

For the nine months ended 30 September 2005, interest expense increased by 118.5 per cent. or by KZT5,147.8 million, from KZT4,343.8 million for the nine months ended 30 September 2004 to KZT9,491.6 million for the nine months ended 30 September 2005. This increase resulted from an increase in the volume of deposits by customers from KZT88,207.9 million at 30 September 2004 to KZT127,909.8 million at 30 September 2005 as well as from an increase in loans and advances to banks. Interest rates on customer deposits remained stable during this period at an average rate of 7.9 per cent. Interest on subordinated debt and Eurobonds increased 442.9 per cent. as a result of the numerous issuances of subordinated debt and Eurobonds in the principal amounts of KZT7 billion and KZT26,662.7 million, respectively, in the first nine months of 2005.

Interest Margin

The Bank's overall net interest margin (net interest income before provision for impairment losses on interest bearing assets as a percentage of average interest-earning assets) decreased from 6.4 per cent. for the nine months ended 30 September 2004 to 5.6 per cent. for the nine months ended 30 September 2005. The decrease was primarily as a result of increased competition driving down interest rates paid by local borrowers and also increased cost of funding on international markets linked to LIBOR, however it was smaller than that experienced by other Kazakhstan banks based on their financial statements as provided to the Kazakhstan Stock Exchange, reflecting the Bank's strong position in the high-margin retail and SME lending sectors. In addition it took time to utilise the proceeds of the Bank's issue on 11 February 2005 of U.S.\$200 million 8.0 per cent. notes due 2008.

The following table sets out the effective average interest rates by major currencies for the principal interest-bearing assets and liabilities of the Bank as at 30 September 2005 and 2004. The analysis has been prepared using period-end effective contractual rates.

	30 September 2005				30 September 2004

Subordinated debt	9.5	9.5	—	—	10.9	9.1	—	—

Allowance for Impairment Losses

The allowance for losses and impairment and provisions was KZT7,551.8 million for the nine months ended 30 September 2005, compared to KZT3,888.9 million for the nine months ended 30 September 2004.

The higher charge for 2005 as compared to 2004 was a result of changes in the composition of the loan portfolio; during the nine months ended 30 September 2005, as compared to 2004, loans and advances to banks decreased as a proportion of the Bank's loan portfolio while loans and advances to customers increased, thus resulting in a higher allowance for impairment losses.

As a percentage of total loans and advances to customers, the allowance for impairment losses decreased to 4.0 per cent. for the nine months ended 30 September 2005, from 4.2 per cent for the nine months ended 30 September 2004. The Bank intends to increase this percentage in 2006 to 4.5 per cent. in view of an expected increase in the performance of the Bank's assets and provision coverage.

Non-Interest Income

The following table sets out the principal components of the Bank's consolidated non-interest income for the nine months ended 30 September 2005 and 2004:

	For the nine months ended 30 September		Variation 2005/2004 <i>(per cent.)</i>
	2005	2004	
	<i>(KZT thousands)</i>		
Net gain on assets held-for-trading	(30,064)	639	(4,804.9)
Net gain on foreign exchange operations.....	836,087	523,296	59.8
Fees and commission income	3,803,765	2,341,188	62.5
Fees and commission expense.....	(403,991)	(220,379)	83.3
Net gain on investment securities.....	17,212	48,239	(64.3)
Other income/(expense).....	468,826	(409,580)	214.5
Total non-interest income	4,691,835	2,283,403	105.5

Total non-interest income increased by 105.5 per cent., or by KZT2,408.4 million, to KZT4,691.8 million in the nine months ended 30 September 2005. This increase was mainly driven by increased commissions, of which a major component constituted transfer operations, cash withdrawals and granting of guarantees. The negative gain on assets held-for-trading was a result of a revaluation of those securities, indexed to U.S. dollar LIBOR, the price of which has fallen as a result of a substantial increase in LIBOR.

Operating Expenses

Operating expenses increased by 55.1 per cent. for the nine months ended 30 September 2005 as compared to the same period in 2004. This increase was primarily a result of increases in salary expenses, administrative costs and tax expenses. As at 30 September 2005, the Bank employed 2,642 people, an increase of 31.9 per cent. from the number of employees totalling 2,003 as at 30 September 2004. In addition, the salaries of the employees increased as competition for skilled banking employees in Kazakhstan increased, thereby causing upward pressure on salaries throughout the sector. Salary expenses increased 33.8 per cent. for the nine months ended 30 September 2005 from the same period in 2004, from KZT1,474.7 million to KZT1,972.8 million.

In addition, administrative expenses increased 60.7 per cent. in the nine months ended 30 September 2005 from the same period in 2004, increasing from KZT868.5 million to KZT1,395.9 million, of which a large part were insurance advertising and other administrative expenses. The increase in insurance expenses to KZT209.3 million as of 30 September 2005 from KZT24.5 million as of 30 September 2004 was principally a result of the recognition of payments to the Deposit Insurance Fund in the amount of KZT166.6 million as of 30 September 2005 as insurance expenses, which before May 2005 were recognised as other expenses. Although still constituting a significant part of administrative costs, advertising expenses decreased by some 19.1 per cent. Tax expenses increased by 158.0 per cent. from KZT334.4 million for the nine months ended 30 September 2004 to KZT862.9 million for the nine months ended 30 September 2005, as a result of increased social security costs and VAT which reflected an increase in salary expenses and level of operations, respectively.

The Bank's ratio of operating expenses to operating income before provisions for impairment losses decreased by 6.1 per cent. from 45.4 per cent. for the nine months ended 30 September 2004 to 39.3 per cent. for the same period ended 30 September 2005. Its ratio of operating expenses to operating income after provisions for impairment losses also decreased by 5.7 per cent., from 61.8 per cent. for the nine months ended 30 September 2004 to 56.1 per cent. for the nine months ended 30 September 2005.

Operating expenses as a percentage of net interest income before provisions for impairment losses decreased by 4.6 per cent. from 67.7 per cent. for the nine months ended 30 September 2004 to 63.1 per cent. for the nine months ended 30 September 2005.

Taxation

The statutory corporate tax in Kazakhstan is 30 per cent. For the nine month period ended 30 September 2005, the effective tax expense incurred by the Bank was 5.6 per cent. of the relevant IFRS unaudited pre-tax income figure, compared to the effective tax expense of 6.1 per cent. incurred by the Bank for the nine month period ended 30 September 2004. The effective tax rate in the first nine months of 2005 and 2004 was substantially lower than the statutory tax rate mainly due to the effect of recent changes in the local tax regulations. Examples of such changes include the tax treatment of certain types of loans, including financial leases and long-term loans to companies to finance the modernisation of fixed assets, as well as residential mortgages to individuals and non-performing loans. Furthermore, the effective tax rate was substantially lower because of the Bank's increased holding of tax exempt government securities.

Similar to other Kazakhstan banks, the Bank was subject to a tax inspection by the Kazakhstan Tax Committee in 2004. The result of the inspection was a preliminary assessment for additional tax of KZT337 million which is disclosed as a contingent liability in the unaudited interim condensed consolidated financial statements for the nine month period ended 30 September 2004. The tax liability arose due to certain imperfections of local tax legislation, in particular because of the absence at the time of the clear calculations methodology. The Bank has received a final assessment of KZT82 million plus interest and penalties of approximately KZT18 million, which has been paid.

Results of Operations for the Years Ended 31 December 2004 and 2003

Net Interest Income

The following table sets out the principal components of the Bank's consolidated net interest income for each of the years ended 31 December 2004 and 2003:

	For the year ended 31 December		Variation
	2004	2003	2004/2003
	<i>(KZT thousands)</i>		<i>(per cent.)</i>
Interest income	12,396,971	6,962,144	78.1
Interest expense.....	(6,355,305)	(3,333,540)	90.6
Net interest income before provision for impairment losses on interest bearing assets	6,041,666	3,628,604	66.5
Provision for impairment losses on interest bearing assets	(2,418,052)	(1,434,198)	68.6
Net interest income.....	3,623,614	2,194,406	65.1

Interest Income

The following table sets out the principal components of the Bank's consolidated interest income for the years ended 31 December 2004 and 2003:

	For the year ended 31 December		Variation
	2004	2003	2004/2003
	<i>(KZT thousands)</i>		<i>(per cent.)</i>
Interest on loans and advances to customers.....	10,897,119	6,229,448	74.9
Interest on debt securities	1,024,146	617,996	65.7
Interest on loans and advances to banks	390,352	82,054	375.7
Interest on reverse repurchase transactions	85,354	32,646	161.5
Total interest income	12,396,971	6,962,144	78.1

Interest income increased by 78.1 per cent., or by KZT5,434.8 million, from KZT6,962.1 million for the year ended 31 December 2003, to KZT12,396.9 million for the year ended 31 December 2004. This increase was primarily due to increased volume of loans and advances extended to customers.

Interest Expense

The following table sets out the principal components of the Bank's consolidated interest expense for the years ended 31 December 2004 and 2003.

	For the year ended 31 December		Variation
	2004	2003	2004/2003
	<i>(KZT thousands)</i>		<i>(per cent.)</i>
Interest on customer accounts	4,254,115	2,371,351	79.4
Interest on loans and advances from banks and other financial institutions	1,465,663	604,602	142.4
Interest on subordinated debt.....	612,559	342,047	79.1
Interest on repurchase transactions	22,968	15,540	47.8
Total interest expense.....	6,355,305	3,333,540	90.6

For the year ended 31 December 2004, interest expense increased by 90.6 per cent. or by KZT3,021.8 million, from KZT3,333.5 million for the year ended 31 December 2003, to KZT6,355.3 million for the year ended 31 December 2004.

The increase in interest expense on customer accounts is a reflection of the growth in volumes of customer deposits with the Bank.

Interest Margin

The Bank's overall net interest margin decreased from 6.5 per cent. for the year ended 31 December 2003 to 6.0 per cent. for the year ended 31 December 2004. This decline was consistent with the decline in net interest margins at other Kazakhstan banks as competition increased and the banking system further matured.

The following table sets out the effective average interest rates by major currencies for the principal interest-bearing assets and liabilities of the Bank as at 31 December 2004 and 2003. The analysis has been prepared using period-end effective contractual rates.

	31 December 2004				31 December 2003

Allowance for Impairment Losses

The allowance for impairment losses was KZT2,287.5 million for the year ended 31 December 2003 and KZT4,082.7 million for the year ended 31 December 2004. The higher charge for 2004 as compared to 2003 was the result of the increase in the size of the Bank's consumer and SME loan portfolios during 2003.

As a percentage of total loans and advances to customers, the allowance for impairment losses was 4.2 per cent. as at 31 December 2003 and 4.3 per cent. as at 31 December 2004.

Non-Interest Income

The following table sets out the principal components of the Bank's consolidated non-interest income for the years ended December 2004 and 2003:

	For the year ended 31 December		Variation
	2004	2003	2004/2003
	<i>(KZT thousands)</i>		<i>(per cent.)</i>
Net gain on assets held-for-trading	92,756	111,886	(17.1)
Net gain on foreign exchange operations	783,277	452,529	73.1
Fees and commission income	3,327,522	2,209,659	50.6
Fees and commission expense	(339,886)	(207,398)	63.9
Net gain/(loss) on investment securities	28,079	(16,034)	275.1
Other income	287,138	173,359	65.6
Total non-interest income	<u>4,178,886</u>	<u>2,724,001</u>	<u>53.4</u>

Total non-interest income increased by 53.4 per cent. or by KZT1,454.9 million, to KZT4,178.9 million for the year ended 31 December 2004 from KZT2,724.0 million for the year ended 31 December 2003. This increase primarily reflects significant growth in fee and commission income as a result of an increase of 44.6 per cent. in the volume of cash withdrawals and settlement transactions by the Bank's clients. In addition, foreign exchange operations experienced an increase in gain as the Bank purchased U.S. dollars for its own account and sold them on domestic markets at a profit.

Fees and Commission Income

The following table sets out the principal components of the Bank's consolidated fees and commission income for the years ended 31 December 2004 and 2003:

	For the year ended 31 December		Variation
	2004	2003	2004/2003
	<i>(KZT thousands)</i>		<i>(per cent.)</i>
Cash operations	1,101,622	815,637	35.1
Settlements	1,063,609	681,450	56.1
Documentary operations	383,319	336,897	13.8
Trust operations	281,371	38,514	630.6
Foreign exchange operations	197,046	171,309	15.0
Loans operations	161,810	40,892	295.7
Internet-banking operations	29,678	15,876	86.9
Safe operations	13,830	38,601	(64.2)
Other operations	95,237	70,483	35.1
Total fees and commission income	<u>3,327,522</u>	<u>2,209,659</u>	<u>50.6</u>

For the year ended 31 December 2004, total fees and commission income increased by 50.6 per cent. or by KZT1,117.9 million, as compared to the year ended 31 December 2003. This increase was primarily due to increased levels of operations.

Fees and Commission Expense

The following table sets out the principal components of the Bank's consolidated fees and commission expense for the years ended December 2004 and 2003:

	For the year ended 31 December		Variation
	2004	2003	2004/2003
	<i>(KZT thousands)</i>		<i>(per cent.)</i>
Settlements	183,518	100,492	82.6
Brokerage services	44,667	20,233	120.8
Documentary operations	36,817	7,821	370.7
Foreign exchange operations	25,847	11,576	123.3
Cash operations	4,789	30,061	(84.1)
Other operations	44,248	37,215	18.9
Total fees and commission expense	339,886	207,398	63.9

For the year ended 31 December 2004, total fees and commission expense increased by 63.9 per cent. or by KZT132.5 million to KZT339.9 million, as compared to KZT207.4 million for the year ended 31 December 2003. This increase was largely due to expenses related in increased levels of operations.

Operating Expenses

The following table sets out the principal components of the Bank's consolidated operating expenses for the years ended 31 December 2004 and 2003:

	For the year ended 31 December		Variation
	2004	2003	2004/2003
	<i>(KZT thousands)</i>		<i>(per cent.)</i>
Salary and bonuses	1,743,103	1,160,840	50.2
Other employees' benefits	492,560	176,488	179.1
Administrative services	368,153	218,702	68.3
Taxes, other than income tax	317,730	197,687	60.7
Depreciation of fixed and intangible assets	315,947	345,342	(8.5)
Advertising expenses	303,591	290,480	4.5
Social security costs	261,725	251,215	4.2
Lease expenses	238,938	108,569	120.1
Communication expenses	181,111	155,699	16.3
Repairs and maintenance expense	168,912	126,598	33.4
Obligatory guarantee payment to Deposit Insurance Fund	134,499	125,410	7.2
Business trip expenses	100,544	75,515	33.1
Entertainment expenses	83,442	48,570	71.8
Sponsorship	41,942	10,071	316.5
Presentation expense	36,336	33,788	7.5
Professional services fees	26,709	96,473	(72.3)
Other	148,497	118,596	25.2
Total operating expenses	4,963,739	3,540,043	40.2

Operating expenses increased by 40.2 per cent. in 2004 as compared to 2003 and represented 63.6 per cent. of operating income after provisions for impairment losses as at 31 December 2004 compared to 72.0 per cent. as at 31 December 2003. This was due primarily to increases in salary and bonus expenses, other employees' benefits and administrative costs.

The major component of the Bank's operating expenses was salaries and bonuses, which accounted for 35.1 per cent. of the total operating expenses in the year ended 2004, compared to 32.8 per cent. in the year ended 2003. The rise in salaries resulted from a 20.6 per cent. increase in the number of staff employed by the Bank (1,746 employees as at 31 December 2003 and 2,106 employees as at 31 December 2004) as well as general upward pressure on the salaries of all banking employees in Kazakhstan due to stiff competition for skilled labour.

Other employees' benefits increased by 179.1 per cent. to KZT492.6 million in the year ended 31 December 2004 as compared to KZT176.5 million for the year ended 31 December 2003, which reflects the Bank's strategy to attract, retain and motivate skilled labour by providing additional fringe benefits.

Administrative costs increased by KZT149.5 million (68.3 per cent.) in 2004 as compared to 2003, which reflected an increase in the Bank's volume of operations.

Taxes, other than income tax, increased by 60.7 per cent. to KZT317.7 million for the year ended 31 December 2004 as compared to KZT197.7 million in the year ended 31 December 2003 as a result of higher social security costs and VAT which reflected an increase in salary expenses and level of operations, respectively. Depreciation of fixed and intangible assets decreased by KZT29.4 million (8.5 per cent.) in 2004 as compared to 2003 as a result of a lower depreciation on computer equipment and other fixed assets.

Advertising expenses increased by KZT13.1 million (4.5 per cent.) in 2004 as compared to 2003 due to the Bank's aggressive advertising campaign to promote its banking products. Social security costs also increased in the year ended 31 December 2004 compared to the year ended 31 December 2003 (4.2 per cent.) as a result of an increased in salary expenses.

Operating expenses as a percentage of average assets also improved in the year ended 31 December 2004 as compared to the year ended 31 December 2003, from 5.3 per cent. in 2003 to 4.3 per cent. in 2004 as a result of a 81.3 per cent. increase in assets compared to a 40.2 per cent. increase in operating expenses. The Bank's ratio of operating expenses to operating income before provisions for impairment losses decreased by 7.1 per cent. from 55.7 per cent. for the year ended 31 December 2003 to 48.6 per cent. for the same period ended 31 December 2004. Its ratio of operating expenses to operating income after provisions for impairment losses also decreased by 8.4 per cent., from 72.0 per cent. for the year ended 31 December 2003 to 63.6 per cent. for the year ended 31 December 2004.

Operating expenses as a percentage of net interest income before provisions for impairment losses decreased by 15.4 per cent. from the year ended 31 December 2003 (97.6 per cent.) to the year ended 31 December 2004 (82.2 per cent.) as a result of substantially higher growth rate of interest income over operating expenses as part of cost reducing and profit enhancing strategies pursued by the Bank's management.

Taxation

The Bank's income tax expense was KZT284.6 million for the year ended 31 December 2004, as compared to KZT121.1 million for the year ended 31 December 2003. The Bank's effective rates were 10.4 per cent. and 8.8 per cent. for the years ended 31 December 2004 and 2003, respectively, as a result of the changes to applicable tax laws relating to the tax treatment of certain types of loans.

Financial Condition as at 30 September 2005 and as at 31 December 2004 and 2003

Total assets

As at 30 September 2005, the Bank's total assets amounted to KZT257,934.8 million, an increase of 73.7 per cent., on total assets at 31 December 2004. During 2004, the Bank's total assets increased by KZT66,570.6 million, or 81.3 per cent., from KZT81,913 million at the end of 2003 to KZT148,483.7 million at the end of 2004. The growth for the first nine months in 2005 was primarily attributable to the 99.5 per cent. increase in the Bank's net loan portfolio. The growth in 2004 was primarily attributable to a 75.7 per cent. increase in the Bank's net loan portfolio.

As at 30 September 2005, the Bank's cash and balances with the NBK had increased to KZT10,793.6 million, from KZT8,739.1 million as at 31 December 2004, an increase of 23.5 per cent. Cash and balances with the NBK increased by KZT3,090.4 million, or 54.7 per cent., from the end of 2003 to the end of 2004.

As at 30 September 2005, loans and advances to banks totalled KZT9,693.2 million, a decrease of 0.5 per cent. as compared to 31 December 2004. From 2003 to 2004, loans and advances to banks increased by KZT251.1 million, or by 2.6 per cent.

As at 30 September 2005, the Bank held KZT5,561.8 million of assets held-for-trading, compared to KZT2,911.4 million of securities held at 31 December 2004, an increase of 91.0 per cent. which reflects an increase in the volume of the Bank's trading operations and the relatively high yield on assets held-for-trading.

As at 30 September 2005, the Bank held KZT3,401.9 million of securities as part of reverse repurchase transactions, compared to KZT7,843.3 million of securities held at 31 December 2004, a decrease of 56.6 per cent.

As at 30 September 2005, the total amount of outstanding net loans and advances to customers, was KZT182,477.8 million, an increase of 99.5 per cent., as compared to 31 December 2004. The total amount of outstanding loans, net of loan loss provisions was KZT91,467.4 million at the end of 2004, as compared to KZT52,068.8 million at the end of 2003. These increases in 2004 were higher than the increases in loans and advances to banks.

As at 30 September 2005, investments available-for-sale totalled KZT36,624.1 million, an increase of 70.5 per cent. over the figure at 31 December 2004. This increase was a result of the Bank's investment of its deposits into highly liquid securities including securities issued by the Government, the NBK and other entities. From 31 December 2003 to 31 December 2004, investments available-for-sale increased from KZT8,999.9 million to KZT21,478.7 million.

As at 30 September 2005, investments held-to-maturity totalled KZT92.3 million, an increase of 68.0 per cent. from 31 December 2004. This increase reflects the Bank's decision to broaden its securities portfolio and diversify its risk profile.

There was no investment in associated companies in 2003, 2004 or during the first nine months of 2005.

As at 30 September 2005, fixed and intangible assets, less accumulated depreciation of the Bank, had increased from KZT3,887.8 million as at 31 December 2004 to KZT5,200.5 million. In 2004, purchases by the Bank of 30 additional new ATMs, and other telecommunications, network and computer equipment resulted in an increase in the Bank's fixed assets of KZT1,199.3 million, or 44.6 per cent., over the prior year end.

As at 30 September 2005, the Bank's average assets totalled KZT203.2 billion, an increase of 76.4 per cent., as compared to 31 December 2004. From 2003 to 2004, the Bank's average assets increased by KZT48.8 billion, or 73.5 per cent., from KZT66.4 billion to KZT115.2 billion. The increase in the first nine months of 2005 was due to the 90.9 per cent. growth in the average loan portfolio, net of provisions for impairment losses, or by KZT65.2 billion.

Total liabilities

As at 30 September 2005, the Bank's total liabilities were KZT236,545.1 million, an increase of 73.7 per cent. as compared to 31 December 2004. During 2004, the Bank's liabilities increased by 83 per cent., to KZT136,208.2 million from KZT74,425.9 million at the end of 2003. The increases in 2005 and 2004 primarily resulted from an increase in customer accounts and deposits from banks.

As at 30 September 2005, customer accounts totalled KZT127,909.8 million, an increase of 40.0 per cent., as compared to 31 December 2004 in this sector. In 2004, customer accounts increased by KZT43,662.6 million as at 31 December 2004, or by 91.5 per cent., compared to 31 December 2003. As at the end of 2004, customer accounts aggregated KZT91,367.7 million, as compared to KZT47,705.1 million to the end of 2003.

As at 30 September 2005, loans and advances from banks and other financial institutions (including syndicated loans) amounted to KZT57,422.5 million, an increase of 64.2 per cent., as compared to 31 December 2004. Deposits received from banks increased by 68.7 per cent., from KZT20,728.4 million at the end of 2003 to KZT34,963.5 million at the end of 2004. The significant growth in 2004 and the first nine months of 2005 were a result of the increase in credit lines available to, and utilised by, the Bank during these periods .

As at 30 September 2005, the volume of securities sold under repurchase agreements totalled KZT4,407.8 million, as compared with KZT1,332.7 million as at 31 December 2003. No securities were sold under repurchase agreements in 2004.

There were no income tax liabilities as at 31 December 2004 and 30 September 2005. As at 31 December 2003, income tax liabilities were KZT62.4 million. These differences are primarily due to the net tax effect of the temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and different methods of interest and expense recognition for tax purposes as well as to the recorded values of certain assets.

The average liabilities of the Bank during the first nine months of 2005 amounted to KZT186.4 billion, an increase of 77.0 per cent. on the average for 2004. This was primarily due to increases in deposits from

customers and banks. In 2004, the Bank's average liabilities increased to KZT105.3 billion (representing growth in comparison with 2003 of KZT44.8 billion, or 73.9 per cent.). As at 30 September 2005, the Bank's average interest-bearing liabilities were KZT153.7 billion, an increase of 81.7 per cent. as compared to 31 December 2004. In 2004, the Bank's average interest-bearing liabilities increased by 84.1 per cent. compared to 2003, primarily as a result of an increase in average time and demand deposits. As at 30 September 2005, average time deposits and demand deposits were KZT79.6 billion and KZT28.9 billion respectively, an increase of 59.2 per cent., and 52.4 per cent., respectively, as compared to 31 December 2004. During 2004, average time deposits and demand deposits increased by 88.5 per cent., and 30.3 per cent., respectively.

Equity and Capital Adequacy Ratios

As at 30 September 2005, the Bank's shareholders' equity had increased by 74.2 per cent., to KZT21,389.8 million, as compared to the 31 December 2004 figures. As at 31 December 2004, the Bank's shareholders' equity had increased 64.0 per cent., to KZT12,275.4 million, as compared to KZT7,487.1 million as at 31 December 2003. The increases in share capital in 2004 and 2005 were a result of additional issuances by the Bank of ordinary shares.

As at 30 September 2005, the Bank's total capital, calculated in accordance with the Basel Accord, was KZT31,643.1 million, including Tier I capital of KZT20,512.8 million, an increase of 77.2 per cent., on the 31 December 2004 figure. As at 31 December 2004, the Bank's total capital, calculated in accordance with the Basel Accord, was KZT18,775 million including Tier I capital of KZT11,573 million. As at 30 September 2005, the Bank's Tier I capital adequacy ratio and total capital adequacy ratio, each calculated in accordance with the Basel Accord as currently in effect and on the basis of IFRS financials, were 9.6 per cent., and 14.86 per cent., respectively. As at 31 December 2004, the Bank's Tier I capital adequacy ratio and total capital adequacy ratio, were 10.32 per cent., and 16.74 per cent., respectively.

The following table gives certain information regarding the Bank's Tier I and Tier II capital and its risk weighted capital adequacy ratio, based on IFRS as at 30 September 2005 and 31 December 2004 and 2003, and calculated in accordance with the Basel Accord:

	<u>30 September</u>	<u>31 December</u>	
	<u>2005</u>	<u>2004</u>	<u>2003</u>
	<i>(KZT millions, except for percentages)</i>		
Tier I capital.	20,513	11,573	6,832
Tier II capital.	11,130	7,202	4,071
Tier I and Tier II capital (total capital)	31,643	18,775	10,903
Total risk weighted assets	212,880	112,173	68,910
Risk weighted capital adequacy ratio (per cent.)	14.86	16.74	15.82

Using ratios calculated in accordance with the Basel Accord, the Bank had a Tier I capital ratio of 10.32 per cent. as at 31 December 2004, compared to a ratio of 9.91 per cent. as at 31 December 2003 and risk weighted capital adequacy ratio (comprising total capital divided by total risk weighted assets) of 16.74 per cent. as at 31 December 2004, compared to 15.82 per cent. as at 31 December 2003.

Capital

The following table sets out certain ratios calculated in accordance with the requirements of the NBK, based on financial statements prepared according to Kazakhstan Accounting Standards, at 30 September 2005, and 31 December 2004 and 2003 regarding capital adequacy, foreign exchange positions, maximum exposures and certain other matters:

	NBK's requirements	As at	As at 31 December	
		30 September	2004	2003
		2005	(per cent., unless otherwise noted)	
Minimum Share Capital (KZT) ⁽¹⁾	Not less than KZT2,000 million ⁽²⁾	KZT12,877 million	KZT7,467 million	KZT5,167 million
Capital Adequacy Ratios				
K1 – tier I capital to total assets ⁽²⁾ . . .	Not less than 6 per cent.	6.6	6.3	7.2
K2 – own capital to total assets weighted for risk ⁽²⁾	Not less than 12 per cent.	12.6	14.0	14.9
K4 – Current Liquidity ratio	Greater than 30 per cent.	115.0	134.0	80.0
K5 – Short-term Liquidity Ratio	Greater than 50 per cent.	127.0	155.0	83.0
Reserve requirements as a percentage of average customer account balances				
K6 – investments in fixed assets and non-financial assets to own capital .	Not less than 6 per cent.	11.2	22.7	21.2
	Not greater than 50 per cent. of bank's own capital	21.0	24.0	20.0
Maximum aggregate net open foreign currency position ⁽³⁾	30 per cent. of bank's own capital	(1.9)	(7.0)	2.3
Maximum net open (short or long) position in currencies of countries rated "A" or higher and the euro . .	15 per cent. of bank's own capital	(1.8)	(7.2)	1.7
Maximum net open position in currencies of countries rated from "B" to "A"	Short position – 5 per cent. of bank's own capital	(0.1)	0.2	0.6
Maximum aggregate on-balance sheet and off-balance sheet exposure to related parties	100 per cent. of bank's own capital	12.1	8.4	4.9
Maximum exposure to any single borrower				
related parties	Percentage of bank's own capital			
other borrowers	Not greater than 10	5.8	5.1	2.0
on unsecured loans	Not greater than 25	16.7	16.6	21.2
	Not greater than 10	2.8	0.2	1.0

(1) Under Kazakhstan law, "share capital" means capital which must be provided in order to establish a company or a bank. A bank's share capital may be formed only with cash contributions. No borrowed funds are permitted as a contribution to share capital.

(2) The NBK's definition of "own capital" is the sum of Tier I capital plus Tier II capital (to the extent it does not exceed Tier I capital) less equity investments. Tier I capital is the sum of share capital plus share premium plus retained earnings less intangible assets and Tier II capital is the sum of current profit for the period plus revaluation reserves plus general provisions (to the extent that they do not exceed 1.25 per cent. of risk-weighted assets) plus subordinated debt (but not more than 50 per cent. of Tier I capital).

(3) Ratio of net currency position (including of balance sheet items) to equity in accordance with NBK requirements

DESCRIPTION OF THE BANK

Overview

The Bank is the fifth largest commercial bank in Kazakhstan in terms of assets and customer accounts, which as at 30 September 2005 equalled KZT257,934.8 million and KZT127,909.8 million, respectively. The Bank's primary business consists of corporate and retail banking. Its corporate banking activities include a broad range of wholesale banking products to a diversified group of domestic customers, primarily small- and medium-sized companies. The Bank's retail banking activities and products include retail lending and deposit taking and credit and debit cards. The Bank is also an active participant in the fixed income securities market and foreign currency markets in Kazakhstan.

The Bank's objectives, as set out in Clause 1.5 of the Bank's Articles of Association, are to promote the development of the state economy and to ensure the receipt of dividends by the Bank's shareholders, through a variety of banking operations in compliance with the laws of Kazakhstan.

As at 30 September 2005, the Bank, in addition to its head office in Almaty, had 19 full service branches and 108 limited service branches, or retail settlement units, throughout Kazakhstan and a network of 81 ATMs in principal cities in Kazakhstan.

On 25 May 2004, the Bank re-registered as Joint Stock Company CenterCredit, under the new Joint Stock Company Law to engage in various activities in the banking sector in accordance with the laws of the Republic of Kazakhstan. The Bank's current banking licence was re-issued by the NBK on 9 June 2004 and its registration certificate, issued by the Ministry of Justice, is numbered 3890-1900-AO. The registered office and the head office of the Bank are at 100 Shevchenko Street, Almaty, 050022, Kazakhstan.

History

The Bank was originally registered with the state bank of the former USSR on 19 September 1988 as Almaty Oblast Central Cooperative Bank CenterBank, a credit institution for cooperative societies and small- and medium- sized companies. In August 1991, the Bank was re-registered as Kazakhstan Central Joint Stock Bank CenterBank, the first private commercial bank in Kazakhstan, and in November 1996, it was re-registered as OJSC Bank CenterCredit. The Bank is incorporated for an unlimited duration.

In 1998, the Bank merged with the then state-owned bank CJSC Zhilstroibank. CJSC Zhilstroibank was initially established in November 1996 as State Owned Housing Bank for the purpose of providing individuals with affordable long-term mortgage loans. In 1997, CJSC Zhilstroibank merged with another state-owned bank, OJSC Kazakhstan Joint Stock Commercial Bank On Crediting Social Development ("KredSotsBank") established in 1990 for the purpose of financing the development and stabilisation of the economy of the former Kazakhstan Soviet Social Republic. Following the merger with KredSotsBank, the Government initiated a financial restructuring which included the transfer of approximately KZT1,298 million of non-performing loans to the Rehabilitation Bank. The transfer did not include certain Dollar-linked mortgages which, at the time of transfer, were not in default. See "—Loan Portfolio". Following this restructuring, CJSC Zhilstroibank was privatised in December 1997. Pursuant to the terms of the privatisation, the shareholders of OJSC Bank CenterCredit (the successful bidder) and the Government received shares in the newly merged entity, the Bank, in proportion to their respective holdings based upon the value of the shares in each bank as at 31 December 1997. As a result, the Government became a major shareholder in the Bank holding approximately 21 per cent. of its issued common shares. In 2001, the Bank repurchased the Government's shareholding and such shares were reissued to other investors.

The common shares of the Bank are currently listed on the "A" list of the Kazakhstan Stock Exchange and, as at 30 September 2005, the Bank had over 700 shareholders with the largest single shareholder beneficially holding 6.6 per cent. of the Bank's issued share capital. See "Management and Share Ownership—Principal Shareholders".

Competition

As at 30 September 2005, there were 34 banks, excluding the NBK and the DBK, operating in Kazakhstan, of which 14 were banks with foreign participation, including subsidiaries of foreign banks. As at 31 December 2002, there were 38 banks operating in Kazakhstan, excluding the NBK and the DBK. The Bank believes that the decline in the number of banks in Kazakhstan from 31 December 2002 to

30 September 2005 is primarily attributable to stricter requirements set by the NBK as to capital adequacy, provisioning, maximum exposures, accounting and information disclosure. See “The Banking Sector in Kazakhstan”.

The commercial banks in Kazakhstan can be divided into four groups: large domestic banks, such as Kazkommertsbank, Bank TuranAlem and Halyk Savings Bank; medium-sized domestic banks, such as ATF Bank, the Bank and Alliance Bank; subsidiaries of foreign banks, such as ABN AMRO Bank Kazakhstan, Citibank Kazakhstan and HSBC; and other smaller banks.

The Bank currently does not compete with the leading Kazakhstan banks for large corporate clients. However, as the fourth largest bank in Kazakhstan in terms of retail deposits (KZT55,149 million as at 30 September 2005), the Bank does compete with the leading banks for retail customers. In addition, the Bank competes with other market participants (including the leading Kazakhstan banks) for small- and medium-sized corporate clients.

The Bank believes that its professional management, transparent and consistent business practices and strong nationwide branch network position it favourably in the Kazakhstan market to compete for small- and medium-sized corporate clients and retail customers.

The following table compares certain financial information (prepared in accordance with Kazakhstan accounting practices and the regulations of the NBK) relating to the Bank, certain other domestic banks and banks with foreign participation:

	As at 30 September 2005	
	Assets	Shareholders' Equity
	<i>(KZT millions)</i>	
Large Local Banks		
Kazkommertsbank	829,627	73,534
Bank TuranAlem	799,397	71,049
Halyk Savings Bank.....	543,406	52,600
Medium-Sized Domestic Banks		
ATF Bank	288,951	25,844
Bank CenterCredit.....	258,909	21,090
Alliance Bank	228,306	27,096
Banks under Foreign Ownership		
ABN AMRO Bank Kazakhstan	60,858	5,767
Citibank Kazakhstan	48,651	5,637

Source: Published financial statements.

In 2001, the Government, a number of local oblasts and the executive bodies of major cities founded DBK. The purpose of DBK is to provide medium- and long-term financing (in amounts of at least U.S.\$5 million) for large industrial projects, export financing and guarantees for such investment projects and to act as principal paying and collection agent for the Government. DBK is not permitted to lend to financial institutions or take deposits and, as such, is not considered a competitor of the commercial banks in Kazakhstan, including the Bank. DBK has a special status and is regulated by the FMSA only in relation to accounting matters and money transfers. DBK is not treated as a commercial bank for purposes of market share data and ranking in this Prospectus.

For further information, see “The Banking Sector in Kazakhstan”.

Strategy

The Bank’s strategy is to increase its market share and total assets by strengthening its position in all segments of the market, with a particular focus on small- and medium-sized enterprises and retail customers, where it currently has a strong clientele base. In order to implement its strategy, the Bank intends to focus on the following:

- Expand its banking and capital market activities;

- Strengthen its funding base and capital base;
- Enhance its risk management infrastructure and policies;
- Enhance operating efficiency;
- Establish strategic partnerships with international financial institutions; and
- Increase its geographic presence.

Expansion of banking and capital market activities

Although the retail banking market has expanded rapidly in recent years in Kazakhstan, it still represents only a small percentage of the Kazakhstan economy. In order to attract and retain retail customers, the Bank plans to use its branch network to cross-sell to its target retail customers (i.e., those with annual incomes of U.S.\$6,000 to U.S.\$20,000) a traditional range of retail products, such as term deposits and consumer loans, with other more sophisticated financial products and services, such as insurance, money transfer, internet and mobile banking, mortgage lending, asset management, pension products and credit and debit cards, some of which are provided by the Bank's subsidiaries

The Bank has installed nine additional ATMs during the first nine months of 2005 and intends to install 70 additional ATMs during 2006 in order to enable its customers to have easier access to their accounts and is in the process of developing an internal processing centre in order to provide internet banking and improved range of services to its retail customers. In 2005, the Bank opened eight retail settlement units and intends to open 30 to 50 retail settlement units over the next few years in regions which the Bank believes have a high growth potential to better service its customers and exploit the opportunity to cross-sell insurance, pension and other products. The Bank intends to increase its market share in the credit/debit card segment of the retail banking sector, which is currently 3 per cent. (having issued approximately 103,000 cards as at 30 September 2005), to 10 per cent. in 2007 (with an estimated 500,000 cards).

The Bank is also committed to developing its corporate banking services. The Bank plans to focus on diversifying its loan portfolio, while maintaining its quality, by attracting new small- and medium-sized corporate clients, extending trade financing to major customers for their import and export activities, increasing medium term project financing volumes and introducing and expanding new services to existing and new customers, such as access to private pension programmes, leasing, money transfer, liquidity and asset management, structured finance, certain derivative services, financial consulting and e-banking. In particular, the Bank aims to achieve a market share of 15 per cent. by the year 2008 in each of the leasing, insurance and pension sectors. The Bank also plans to develop special loan programmes and introduce sector specialisation for SMEs and large corporate clients.

The Bank plans to introduce Customer Service Centres and a network of multifunctional ATMs, to develop a tailored service approach with different marketing strategies designated for each segment and to improve quality of services through upgrades of management information systems.

Kazakhstan's capital markets continue to develop as the economy grows. The Bank's wholly-owned broker-dealer subsidiary, JSC KIB Asset Management, had a market share as of 30 September 2005 of 11.7 per cent. of the aggregate volume of corporate securities traded on the Kazakhstan Stock Exchange. The Bank intends to further develop JSC KIB Asset Management's security trading activities and financial advisory capabilities, as well as underwriting and lead arranging local equities and bonds issuances services.

Strengthening and diversifying capital and funding base

The Bank intends to improve its funding base by increasing its market share of domestic retail deposits through its extensive branch network, medium and long-term borrowings in the domestic and international markets, including subordinated and senior debt and share issues as well as asset securitisation programmes, and lower-cost borrowing from international development organisations and other international financial institutions. In doing so, the Bank will seek to diversify its funding sources, lower its overall funding costs and increase the maturity profile of its debt portfolio to support its anticipated asset growth.

Domestic deposits are an important and attractive source of funding for the Bank. The Bank believes that as the banking sector in Kazakhstan strengthens, retail deposits, which to date have remained limited, will

gradually increase. The Bank's marketing strategy is to ensure that it effectively utilises its branch network and experience in the retail banking market to capture such anticipated capital flows. As at 30 September 2005, the Bank was the fourth largest bank in Kazakhstan in terms of deposits and, as a result, the Bank believes that it is well placed to obtain a significant share of any increase in domestic deposits.

Between September 2002 and September 2005, the Bank entered into numerous loan facilities and financings with several international financial institutions and the European Bank for Reconstruction and Development (the "EBRD") extended several credit lines to the Bank during this time. The Bank is currently in discussions with the EBRD, Deutsche Investitions – und Entwicklungsgesellschaft mbH ("DEG") and the International Finance Corporation (the "IFC"), a division of the World Bank, regarding possible capital injections. See "*—Funding and Liquidity—Foreign Currency Borrowings*".

As at 30 September 2005, the Bank's authorised share capital equalled KZT 12,877 million, all of which is issued and fully paid. Since 2000, the Bank has implemented a number of projects to increase its funding base, such as the issuance of U.S.\$4.5 million in subordinated debt due in December 2005. Between 2002 and 2004, the Bank issued an additional KZT5.5 billion in three separate subordinated debt issuances with terms ranging from seven to nine years. The Bank's risk weighted capital adequacy ratio equalled 14.86 per cent. as at 30 September 2005. The Bank has improved its capital base during the first nine months of 2005 by increasing its authorised and issued share capital base to KZT 12.9 billion and by issuing additional subordinated debt of KZT7 billion. In November 2005 the Bank announced an additional issue of 50 million common shares in the amount of KZT10 billion, which it expects to place in 2006. The Bank intends to further improve its capital base by increasing its authorised and issued share capital base by KZT13.9 billion and by issuing subordinated debt of KZT10 billion during 2006. The Bank is also contemplating a listing on an international stock exchange, as well as an international primary and/or secondary offering of its shares during the course of 2006. No assurance can be given that such plans will be fulfilled.

Enhancing risk management infrastructure and policies

The Bank has established internal rules, policies and guidelines for risk management in line with the requirements of the NBK and FMSA. The Bank's primary committees responsible for risk management are the Credit Committee of the Head Office, responsible for credit risks related to retail and corporate clients, and the Asset and Liability Committee (the "ALCO"), responsible for market risk and credit risk of financial institutions. The Treasury Department, which reports monthly to the ALCO, is involved in management of liquidity, interest rates and foreign exchange risks. The Bank's risk management function has improved in recent years following the introduction of a number of operational changes implemented with the assistance of Raiffeisen Zentralbank Österreich ("RZB") and Bank of Ireland. The Bank is committed to continuing the development of its risk management capability, including the introduction of more sophisticated analyses, such as value-at-risk analysis, and entering into derivative financial instruments to manage interest rate, currency and liquidity risks, including forwards, swaps, foreign currency options, and other derivatives, in addition to gap analysis currently used by the Bank. See "*—Asset and Liability Management*".

Enhancing operating efficiency

The Bank believes that it can improve its operational efficiencies through the rationalisation of its organisational structure, investment in human resources and by increasing its use of, and upgrading of its, technology. Following the merger with CJSC Zhilstroibank in 1998, the Bank implemented a "one branch per city" strategy and reduced the number of regional branches in areas of low business concentration. As at 30 September 2005, the Bank had 19 full service branches throughout Kazakhstan, a reduction from 46 in 1998. Management believes that the Bank's full service branch network covers all the principal cities and regions in Kazakhstan and does not intend to reduce its branch network further. The Bank may open additional full service branches in the future in cities or regions which the Bank determines are likely to yield larger sources of deposits and fee income derived from the sale of retail and corporate-based products.

In 1998, the Bank started to introduce a centralised, integrated banking information system of western standards, which connects the head office and branches, to service its corporate and retail banking operations. The Bank believes that its full introduction of the system by the end of 2006 will significantly improve the scope and efficiency of its information system with respect to risk management in treasury operations, assets and liabilities management and the management of loan transactions and liquidity, as well as financial reporting in accordance with IFRS.

The Bank intends to continue to introduce up-to-date banking technologies in the future, including a customer relationship management system, a Call Centre System, an Oracle-based system to redesign and automate business processes and internet banking systems. The Bank's software system has a separate power source and is equipped with emergency backup and data protection facilities. All data is copied onto a back-up server on a daily basis. The Bank is currently studying ways to automate its risk management systems and provide realtime monitoring of its risk exposures. Over the next few years the Bank expects to implement automated risk management software systems as its business expands.

The Bank implemented an organisational restructuring programme at its head office and throughout its branch network in early 2005 to ensure efficient human resources allocation in view of the Bank's rapid growth in recent years, together with the introduction of internal and external training programmes to improve the skill base and cross-selling ability of its employees. The Bank believes that such programmes, together with efficient staffing guidelines and human resources policies, will help to improve the quality and motivation of the Bank's personnel and help to develop a strong corporate culture.

Furthermore, as part of its cost reduction efforts, the Bank is aiming to introduce a profit and cost center approach and a division responsible for tracking and controlling the profitability of each client segment, business line, product and profit center. Under the profit centre approach, each business unit of the Bank will be responsible for its own revenues and costs and will have its own profit targets, in order to help management of the Bank run its operations more efficiently.

Strategic partnerships with international financial institutions

The Bank is currently in the process of establishing strategic alliances with several of the international financial institutions with whom it is currently engaged in ongoing discussions. The Bank believes that such a strategic partnership will allow the Bank to gain a greater knowledge of western IT systems, corporate governance and risk management know-how and to enhance operational efficiencies and strengthen management skills. The Bank's management is reviewing possible structures to establish such strategic partnerships. The Bank is currently in negotiations with the IFC for the sale of an approximately 10 per cent. stake in the Bank for U.S.\$20 million via a new common share issue in the first half of 2006.

Increase geographic presence

The Bank seeks to increase its geographic presence, principally by expanding into other CIS countries, while maintaining its current position as the fifth largest commercial bank in Kazakhstan. The Bank has a representative office in Moscow. The Bank believes that expansion into other countries within the region will enable it to better serve clients active in those countries and to attract Russian based SMEs, the segment which the Bank believes is currently underserved.

Business

The Bank's branch network as at 30 September 2005 comprised, in addition to the head office in Almaty, 19 full service branches and 108 limited service branches, or retail settlement units, throughout Kazakhstan, supported by 81 ATMs. In addition, in common with other retail banks in Kazakhstan, customers of the Bank can use the ATM networks of other Kazakhstan banks for a small fee per withdrawal. As a result, customers of the Bank have access to a large network of ATMs throughout Kazakhstan. The Bank is currently authorised to offer products and services such as retail and corporate deposit taking, discount operations, settlements, issuance of payment cards, foreign currency exchange, issuance of bank guarantees, correspondent banking, cash and transfer operations, lending, trust operations, settlement operations, transactions with precious metals, leasing, factoring, forfeiting, broking-dealing, clearing operations and custody.

In May 2001, the Bank became a participating member of the VISA system and in 2002 was made an associate member of Visa International. As at 30 September 2005, 102,907 payment cards had been issued and this amount is expected to reach 175,000 by the end of 2006. Payment cards are issued predominantly to individuals whose employers have instituted payroll programmes whereby salaries are paid electronically by the employer to its employees' bank accounts at a specific, agreed-upon bank. Such agreements are negotiated between the Bank and the employer.

The Bank is the primary agent in Kazakhstan for Western Union. This service is utilised mainly by retail customers. For the nine months ended 30 September 2005, transfers from Western Union amounted to U.S.\$30.2 million, compared to U.S.\$23.9 million for the same period in 2004, and the Bank estimates that,

for the nine months ended 30 September 2005, it had a 35 per cent. market share of the total number of money transfers in using the Western Union transfer network in Kazakhstan. During the first nine months of 2005, the average single transfer was U.S.\$850, while the maximum single transfer did not exceed U.S.\$7,300. Monthly volumes of transfers from individual customers have not exceeded U.S.\$4.2 million.

In addition, the Bank has begun to offer limited tele-banking and internet banking to its corporate customers. At present, current Internet banking services include access to account information, payment transfers and currency exchange operations. Tele-banking services are limited to obtaining account balance information. In the medium term, the Bank anticipates that it will significantly expand its internet and tele-banking services to its retail customers. However, the Bank does not anticipate that initially there will be significant demand for these services, in particular for internet banking services, as personal computers are expensive in Kazakhstan and are not widely available.

As at 30 September 2005, total deposits of the Bank had reached approximately KZT128 billion, deposited in more than 210,974 accounts. The Bank estimates that its share of the retail and corporate deposit market, including SMEs, in Kazakhstan was approximately 5.9 per cent. as at 30 September 2005, compared to 5.6 per cent as at 30 September 2004.

The Bank has the following five principal front-office business departments that provide the following services:

- *Corporate Business*, providing corporate and banking services;
- *International*, responsible for raising capital from foreign markets;
- *Treasury*, providing capital markets services, pension funds and asset management;
- *Business Development*, providing mortgage lending and retail banking services; and
- *SME Lending*, focusing on lending to small- and medium-sized enterprises.

The Bank also has four back-office departments that provide support services to its front-office business departments. These are as follows:

- *Credit risk*, which assists the branches by analysing the credit risks of potential borrowers and monitoring the loan portfolio of the Bank;
- *Administrative*, which is responsible for human resource management and information protection;
- *Financial*, which monitors the finances of the Bank; and
- *Analysis and Risk Management*, which is responsible for analysis and management of the Bank's market and operational risks.

Corporate Banking and Focus on SMEs

The Bank provides commercial banking products and services, focusing primarily on small, medium and, to a limited extent, large businesses in Kazakhstan. The Bank currently segments its corporate clients based on the annual revenues of such clients. Corporate clients with annual sales of U.S.\$700,000 or less are classified as "small-sized", corporate clients with annual sales of between U.S.\$700,000 and U.S.\$7 million are classified as "medium-sized", corporate clients with annual sales of between U.S.\$7 million and U.S.\$70 million are classified as "large-sized" and corporate clients with annual sales in excess of U.S.\$70 million are classified as "largest-companies". The Bank's number of corporate accounts is growing. As at 30 September 2005, the Bank had approximately 1,261 corporate accounts, of which 105 were categorised "large" and "largest" and the remaining were small- and medium-sized (i.e., SMEs). As at 30 September 2005, lending to "large" and "largest" corporate clients represented approximately 19.2 per cent. of the Bank's total assets (26.4 per cent. of the Bank's total gross loan portfolio) and lending to small- and medium-sized corporate clients accounted for 31.6 per cent. of the Bank's total assets (43.4 per cent. of the Bank's gross loan portfolio).

The Bank has traditionally been known for the high quality of services that it provides to SMEs and the Bank intends to continue to provide such services and increase its share of the SME banking market, which is currently 11.2 per cent. of loans, to 14 per cent of loans. The Bank believes that growth in the SME market will be achieved both by attracting the business of SMEs who currently do not use a bank and by convincing SMEs who are currently customers of the Bank's competitors to switch their business to the Bank. The Bank is aggressively pursuing these customers and believes it can differentiate itself through quality of service.

The Bank participates in a number of special programmes for the financing of small- and medium-sized enterprises and enterprises in targeted industries, arranged and sponsored by the NBK, the Ministry of Finance and several local (regional) executive bodies as well as international financial institutions such as Asian Development Bank (“ADB”), EBRD, DEG and Nederlandse Financierings – Maatschappij voor Ontwikkelingslanden N.V. (“FMO”). The amounts of loans provided by such institutions to the Bank as at 30 September 2005 were U.S.\$32,857 by ADB, U.S.\$32.6 million by EBRD, U.S.\$4 million by DEG and U.S.\$4.1 million by FMO, compared to U.S.\$99,000 by ADB, U.S.\$27.4 million by EBRD, U.S.\$4 million by DEG and KZT565.9 million by FMO as at 30 September 2004. See “—Funding and Liquidity”.

As part of its short- to medium-term strategy, the Bank plans to expand its corporate client base and increase the quality of its loan portfolio. In order to achieve this, the Bank established its Corporate and International Business Department in October 2002 to better service its corporate clients.

A major part of the Bank’s corporate banking activities is the provision of trade finance and short-term credit facilities, mostly in Tenge and in U.S. dollars, including letters of credit, guarantees and working capital facilities. The majority of the Bank’s corporate loans have maturities of less than 12 months. As demand for longer-term facilities grows, the Bank tries to link underlying funding sources to longer-term financing when available.

As at 30 September 2005, the Bank’s share of the corporate lending market in Kazakhstan was approximately 6.8 per cent, compared to 4.9 per cent. as at the same date in 2004.

The Bank is also expanding into additional corporate services such as payroll management, payroll services supported by debit cards and foreign exchange.

Retail banking

In 2001, the retail banking market in Kazakhstan experienced considerable expansion following the introduction of the Deposit Insurance Fund. In addition, between June and July of 2001, to repatriate funds back to Kazakhstan, the Government announced a tax amnesty in relation to any deposits placed with banks during that period. The programme brought approximately U.S.\$480 million into the banking system.

The retail banking market is an increasingly important source of funding and business for the Bank. The Bank believes that its branch network will allow it to take advantage of its retail customer and depositor base. As at 30 September 2005, the Bank held approximately 10.5 per cent. of retail term deposits in Kazakhstan through approximately 65,907 individual accounts (8.9 per cent. through approximately 170,400 individual accounts as at 30 September 2004).

The Bank offers a wide range of retail banking products and services, including term deposits, current accounts, debit and credit cards, currency exchange and ATM services. During 2002, 2003, 2004 and 2005, the Bank increased its share of the retail banking market by increasing the number of its ATMs in areas where it believed the potential for retail banking business growth was high, particularly in eastern Kazakhstan and in the Caspian Sea regions in the western part of Kazakhstan.

The Bank believes that the debit and credit card business will be one of the most significant growth areas in the retail banking market in the next few years. The Bank currently uses the card processing centre of a third party to process its debit and credit card transactions.

As at 30 September 2005, the Bank had issued approximately 103,000 payment cards (representing a market share in Kazakhstan of 3.3 per cent.), of which approximately 3,600 are credit cards, representing an increase of 350.0 per cent. in the total number of cards issued by the Bank since 31 December 2003 and a 94.0 per cent. increase since 30 September 2004, when the Bank had issued approximately 53,033 payment cards (representing a market share in Kazakhstan of approximately 2.7 per cent.). While the majority of these cards relate to payroll services provided to the employees of the Bank’s corporate customers, the Bank believes that the payment card market in Kazakhstan will continue to grow.

The Bank is also active in the retail lending market. The Bank had a market share of 4.3 per cent., as at 30 September 2004, and 10.4 per cent as at 30 September 2005, of the Kazakhstan retail lending market (including mortgages). Loans aggregating KZT52,594 million were provided to 43,129 individuals as at 30 September 2005, compared to loans aggregating KZT14,921.9 million provided to 24,401 individuals as at 30 September 2004. The Bank participates in a programme established by the NBK in 2000 for long-term financing of house construction and development of a mortgage finance system in Kazakhstan. Under this programme, participating banks extend mortgage loans to retail customers and then transfer

such loans to the Kazakhstan Mortgage Company, a wholly-owned subsidiary of the NBK, which finances the purchase through the issuance of domestic bonds. The Bank, however, maintains an ongoing economic interest in these loans throughout their duration and, although these loans are not reflected on the Bank's balance sheet once they have been transferred to the Kazakhstan Mortgage Company (approximately one month after the loan is granted), the Bank bears the credit risk. By the end of 2004, the Bank had lent approximately KZT1.6 billion under this programme, and, as at 30 September 2005, had an ongoing economic interest in loans with an aggregate value of KZT0.9 billion. In 2004, the Bank also inherited a number of mortgage loans from CJSC Zhilstroibank following its merger, for which the borrowers receive payment subsidies from the Government. See "Loan Portfolio—Loan portfolio structure by sector".

Capital Markets

Kazakhstan's capital markets are gradually developing as the economy grows. An important factor in this development was the establishment in 1998 of domestic private pension funds and asset management companies. As at 30 September 2005, JSC KIB Asset Management, a wholly-owned subsidiary of the Bank, had an approximate 11.7 per cent. market share of the corporate securities trading value on the Kazakhstan Stock Exchange, which recognised it as the second most active broker trading non-government securities.

JSC KIB Asset Management's primary activities include: purchase and sale of Government and corporate securities on the Kazakhstan Stock Exchange and over-the-counter markets in Kazakhstan; nominal holding; underwriting; management of clients' investment portfolios; and corporate finance. In 2003, JSC KIB Asset Management acted as the financial advisor and sole underwriter of second and third issues (KZT3 billion and KZT5 billion, respectively,) of local mortgage bonds issued by the Kazakhstan Mortgage Company. In addition, JSC KIB Asset Management acted as the financial advisor and market maker in the stock issuance of Charaltyn gold mining company and lead-zinc company Kazzinc. In 2003, JSC KIB Asset Management won a tender to become the exclusive adviser of the Committee on State Property and Privatisation under the Ministry of Finance of the Republic of Kazakhstan with respect to the sale of the government's minority shareholding in JSC CNPC Aktobemunaigas, a joint venture between a Chinese organisation and a Kazakhstan oil and gas production company. In 2004, JSC KIB Asset Management acted as the sole underwriter of the fourth, fifth and sixth issues, of KZT5 billion each, of Kazakhstan mortgage bonds issued by the Kazakhstan Mortgage Company. JSC KIB Asset Management acted as an authorised broker in the sale of 10 per cent. of the government's shareholding in the Ustkamenogorskiy Titanium-Magnesium Industrial Complex in 2004 and in the sale of 5 per cent; of the government's shareholding in the Kazzinc Company in 2005.

Trading partners of JSC KIB Asset Management include such major domestic financial institutions as Bank TuranAlem, Halyk Savings Bank, Kazkommertsbank, ATF Bank and ABN AMRO Bank Kazakhstan as well as major international banks including ING Bank, Deutsche Bank and Standard Bank London.

Pension Fund Services

The provision of pension fund services is a growing business in Kazakhstan. There are currently nine asset management companies and 16 pension funds, including two pension funds licensed for independent management of pension funds in Kazakhstan. The Bank is committed to becoming a leading provider of pension fund services. As at 30 September 2005, the Bank held an equity interest in three pension funds: JSC Atameken Pension Fund, JSC Korgau Pension Fund and JSC Capital Pension Fund. See "—Subsidiaries and Affiliates".

Treasury Services

Through its Treasury Department, the Bank trades government and corporate securities and foreign currencies for its own account. The Treasury Department operates within a set of parameters and standards determined by the ALCO and Analysis and Risk Management Department. In addition, the Treasury Department offers custodial management services to two pension funds, JSC Otan Pension Fund and JSC Korgau Pension Fund, and provides safe-keeping services for pensioners of those funds. It invests the pension funds based on instructions received from the managing companies of the pensions.

International Banking

Although the Bank does not have any operating subsidiaries or affiliates outside of Kazakhstan, the Bank provides services for customers engaged in international trading. The Bank maintains correspondent

banking relationships with many international leading banks, including ING Bank, Deutsche Bank, Dresdner Bank, Commerzbank, ABN AMRO Bank, Credit Suisse, The Bank of New York, RZB, HypoVereinsbank, Citigroup, Bank of Tokyo-Mitsubishi, RaboBank, Bank Austria Creditanstalt, Bankgesellschaft Berlin, Swedbank, American Express and others, as well as being Western Union's primary agent in Kazakhstan.

Branch Operations

The Bank has 19 full service branches and 108 limited service branches, or retail settlement units, throughout Kazakhstan. The operations of each branch are subject to internal regulations and to oversight by the head office. Each full service branch provides a broad range of banking services, although discount operations, trust operations, clearing operations, mortgage operations, issuance of payment cards, guarantee operations, issuance of securities, factoring and forfeiting operations and transactions with precious metals are conducted out of only the head office. In comparison with branches, settlement units perform a limited number of banking operations such as utility payments, cash withdrawals and money transfers and, as such, are primarily for individual customers.

The Bank's Credit Committee of the Head Office is responsible for developing branch policies and expansion strategies. Based on the financial results and operations of each branch, the Credit Committee also determines the aggregate amount that each branch is entitled to lend to its customers. These limits range from U.S.\$50,000 to U.S.\$400,000. Retail settlement units do not extend loans. See "—Lending Policies and Procedures—General".

Technology

The Bank operates an integrated banking system which allows on-line interactive communication between the Bank's head office and its branches through a real-time wide area network. The Bank considers the upgrading of its information technology systems an important aspect of the Bank's further development and has invested approximately U.S.\$5 million in its computer and communication technology during the first nine months of 2005, and plans to make additional investments during the year 2006 of approximately U.S.\$6.75 million.

Subsidiaries and Affiliates

As at 30 September 2005, the Bank had three subsidiaries: LLP CenterLeasing, JSC KIB Asset Management and JSC Capital Pension Fund and five affiliates: JSC Atameken Pension Fund (formerly Narodny Pension Fund), JSC Korgau Pension Fund, JSC Oil Insurance Company, JSC First Credit Bureau and Legal Persons Union "Association of Financiers of Kazakhstan". These subsidiaries and affiliates are strategically important to the Bank, given the Bank's intention to cross-sell its financial products. The Bank also controls the operation of LLP BCC and LLP Aktas Zhol, although it is not a participant in such companies. The following table sets out details of the Bank's shareholding in its subsidiaries and affiliates as at 30 September 2005:

	<u>Shareholding</u> (per cent.)
JSC KIB Asset Management.....	100.0
LLP CenterLeasing.....	100.0
JSC Capital Pension Fund.....	85.0
JSC First Credit Bureau.....	18.4
Legal Persons Union "Association of Financiers of Kazakhstan".....	16.6
JSC Atameken Pension Fund.....	12.5
JSC Korgau Pension Fund.....	9.4
JSC Oil Insurance Company.....	5.5
LLP BCC ⁽¹⁾	—
LLP Aktas Zhol ⁽¹⁾	—

(1) Although the Bank is not a partner in LLP BCC and LLP Aktas Zhol, they are consolidated in the Bank's audited IFRS financial statements as subsidiaries due to the fact that the Bank controls their operations.

JSC KIB Asset Management

JSC KIB Asset Management was established in 1998 and is based in Almaty. JSC KIB Asset Management is engaged in investment banking operations. For the nine months ended 30 September 2005, profits of

JSC KIB Asset Management totalled KZT34.3 million compared to a profit of KZT41.9 million for the year ended 31 December 2004, and a loss of KZT42.9 million for the year ended 31 December 2003. See “—Business—Capital Markets”. JSC KIB Asset Management has been consolidated with the Bank since its incorporation and as at 30 September 2005, had an authorised and issued share capital of KZT275.0 million. As at 30 September 2005, it had reserves (representing the sum of capital reserves, fixed assets revaluation fund and retained income) of KZT126.9 million. The registered office of JSC KIB Asset Management is located at 597 Seifullina Street, Almaty, 050022, Kazakhstan. It has never paid any dividends and its shares are fully paid.

LLP CenterLeasing

LLP CenterLeasing was established in 2002 as a limited liability partnership and is based in Almaty. LLP CenterLeasing provides leasing services to its clients. LLP CenterLeasing has been consolidated with the Bank since its incorporation and as at 30 September 2005, had an authorised and issued share capital of KZT25.5 million. For the nine months ended 30 September 2005, its profits totalled KZT36.3 million and for the year ended 31 December 2004, it had net income of KZT23.9 million. Its reserves as at 30 September 2005 were KZT52.5 million. The registered office of LLP CenterLeasing is located at 119 Kabanbai Batyr Street, Almaty, 050012, Kazakhstan. It has never paid any dividends and its shares are fully paid.

JSC Atameken Pension Fund

JSC Atameken Pension Fund was established in 1998 in Almaty as a Narodny Pension Fund, and was renamed in 2005. JSC Atameken Pension Fund was established to attract pension contributions and effect pension payments as a private pension fund. As at 30 September 2005, it had a 2.4 per cent. share of the pensions market in Kazakhstan, with total pension assets of KZT14,026million and had an authorised and issued share capital of KZT294 million.

JSC Korgau Pension Fund

JSC Korgau Pension Fund was established in 1999 as a joint stock company and is based in Almaty. JSC Korgau Pension Fund was established to attract pension contributions and effect pension payments as a private pension fund. For the nine months ended 30 September 2005, it had a 1.5 per cent. share of the pensions market in Kazakhstan with total pension assets of KZT9,037 million and had an authorised share capital of KZT300 million.

JSC Capital Pension Fund

JSC Capital Pension Fund was established in 2002 as a closed joint stock company and is based in Almaty and has an authorised and issued share capital of KZT400 million. JSC Capital Pension Fund was established to attract pension contributions and effect pension payments as a private pension fund. For the nine months ended 30 September 2005, it had a 1.5 per cent. share of the pensions market in Kazakhstan with total pension assets of KZT400.3 million. Its net income for the year ended 31 December 2004 was KZT103.8 million and for the nine months ended 31 September 2005 was KZT23.9 million. Its reserves as of 30 September 2005 were KZT11.2 million. Its registered office is located at 143a Tole Bi Street, Almaty, 480096, Kazakhstan. It has never paid dividends and its shares are fully paid.

JSC Oil Insurance Company

JSC Oil Insurance Company was established in 1999 as an open joint stock company, is based in Almaty and has an authorised and issued share capital of KZT750 million. JSC Oil Insurance Company provides a range of property and casualty insurance products. It is the third largest insurance company in the country and, for the nine months ended 30 September 2005, had an 6.3 per cent. share of the insurance market in Kazakhstan (in terms of premium).

JSC First Credit Bureau

JSC First Credit Bureau was founded in 2004 by a group of large Kazakh Banks for the purpose of establishing the credit histories of Kazakhstani borrowers and in order to provide a high level of reporting to creditors. The authorised and issued share capital of the Bureau is KZT37,260,000.

Legal Persons Union — “Association of Financiers of Kazakhstan”

This organisation was established in May 1999 as a fulfilment of the resolution of the Congress of Kazakhstan Financiers. It has an authorised and issued share capital of KZT675,000. The association’s

main goals are lobbying the interests of financial institutions in general and the implementation of the resolution of the Congress of Kazakhstan Financiers. In order to do this, the Association established a liaison with the Government of the Republic of Kazakhstan, and its ministries and agencies. In particular, the Protocol on Cooperation was signed on 1 February 2002 between the Association and the NBK. A similar protocol was signed on 1 January 2004 with the Agency of the Republic of Kazakhstan on Regulation and Supervision of Financial Markets.

LLP BCC and LLP Aktas Zhol

Although the Bank is not an equity participant in either LLP BCC and LLP Aktas Zhol, these entities are consolidated with the Bank's audited financial statements, because the Bank controls their operations. Both partnerships were established in 1998 for the purpose of providing property appraisal and leasing operations for the Bank and the bulk of fixed assets of CJSC Zhilstroibank (mainly real estate) were transferred to them in order to comply with the NBK's requirements as to the ratio of fixed assets to the Bank's equity (stated according to statutory reporting standards and prepared on an unconsolidated basis). LLP Aktas Zhol is also involved, to a minor extent, in the municipal road construction business. Under Kazakhstan law, the Bank is required to obtain a valuation of collateral it takes to secure loans from an independent appraiser. Because the Bank does not hold an equity position in LLP BCC, LLP BCC is treated as an independent appraiser under Kazakhstan law and the Bank uses it for its collateral valuations. See “—Lending Policies and Procedures—General”. LLP BCC and LLP Aktas Zhol have been consolidated with the Bank since 2001 and hold the relevant fixed assets under a lease from the Bank. Pursuant to a 50-year lease negotiated on an arm's length basis, they have leased back to the Bank certain buildings used by the Bank. They also lease properties to third parties. Although LLP BCC and LLP Aktas Zhol are not prohibited from selling any of their properties, the fact that they are controlled by the Bank means that any sale of the CJSC Zhilstroibank properties transferred to them would take place in a manner by which the Bank may benefit.

Employees

As at 30 September 2005, the Bank had 2,642 full-time employees, of which 2,149 were employed at the Bank's branches. The Bank has one labour union which entered into a collective agreement with the Bank in 2002. The Bank has never experienced industrial action or other work stoppages resulting from labour disputes. 76.1 per cent. of employees in professional positions hold university degrees. A number of key staff have been trained at the Bank's primary correspondent banks including ING Bank, HypoVereinsbank, Citibank, HSBC, Société Générale, Deutsche Bank and Dresdner Bank.

Property

The Bank owns its head office on Shevchenko Street, Almaty, although it leased the building to BCC LLP in 1998 for 50 years following the need to reduce its fixed assets so as to comply with the NBK's requirements on the ratio of fixed assets to equity. See “—Subsidiaries and Affiliates—LLP BCC and LLP Aktas Zhol”. The Bank rents the building from LLP BCC. The Bank is currently building a new head office in Almaty at an anticipated cost of KZT3,080 million and expects to take occupation in 2006.

The Bank leases the buildings used by its branches.

Legal Proceedings

Since 31 December 2004, there have been no governmental, legal or arbitration proceedings against the Bank or the Bank's subsidiaries which may have, or have had in the recent past, significant effects on any of their respective financial positions or profitability, nor is the Bank aware of any pending or threatened proceedings of such kind.

Asset and Liability Management

Introduction

The Bank's operations are subject to various risks, including risks relating to changes in interest rates and foreign exchange rates, declines in liquidity and deterioration in credit quality of its loan and securities portfolios. The Bank monitors and manages the maturities of its loans, its interest rate and exchange rate exposure and credit quality in order to minimise the effect of changes in them relative to the Bank's profitability and liquidity position.

To manage its risks, the Bank has established the ALCO, the Credit Committee and the Small Credit Committee which are responsible for devising, implementing and monitoring the Bank's risk policies. The Bank's risk management infrastructure has been developed with the assistance of RZB and the Bank of Ireland.

The Bank monitors and manages its asset and liability position through the ALCO, which is a permanent committee reporting to the Management Board. The ALCO is headed by the Chairman of the Management Board. The committee also includes three Deputy Chairmen, the Managing Director of the Analysis and Global Risk Department and the Managing Director of the Treasury Department, the Managing Director of Corporate Finance and International Department and the Head of the Dealing Division. The ALCO meets on a monthly basis to review the Bank's asset and liability position based on information provided by the Treasury Department on various matters, including maturities, interest rates and yields; the size and maturity of the Bank's loan portfolio, demand and term deposits and investments; the Bank's net foreign currency position; the Bank's operational ratios conforming to the regulations established by the FMSA; exchange rates, inflation rates and other economic data; and general national and international political and economic trends.

Based on its review of this information, the ALCO evaluates the Bank's risk profile and determines strategies and policies for transactions relating to assets and liabilities for the coming month with an aim to increasing revenues of the Bank while maintaining adequate liquidity, compliance with industry norms and regulations and minimising the impact of financial market risks. These decisions are reviewed and approved by the Bank's Management Board which has overall responsibility for ensuring that the asset and liability maturity profiles are appropriate considering prevailing market conditions and consistent with the Bank's strategy, while meeting all the requirements and limits established by the FMSA.

The Bank conducts its credit risk management at several levels, depending upon the amount of risk involved. Credit committees currently operate in all 19 of the Bank's 19 branches. The Bank has three main credit committees located within its head office which are responsible for approving credit decisions within the Bank; the Credit Committee, the Credit Committee of the Head Office and the Small Credit Committee. See "—Lending Policies and Procedures".

The Bank has developed an automated centralised programme, called the "Credit Module", to monitor its credit risk. The objectives of the Credit Module are to:

- create a centralised database of credit transactions;
- effectively manage and control the credit activity of the Bank;
- increase the productivity of the Bank's credit officers by making them more efficient; and
- control the execution of credit transactions.

The Bank believes that centralising its loan transactions through a database will enhance the credit information available to its employees throughout its branches and Head Office. In addition, the Bank believes that the Credit Module will enable it to analyse the Bank's loan portfolio and amend lending procedures to improve risk management.

Maturities

The principal objective of the Bank's interest rate risk management activities is to enhance profitability by limiting the effect of adverse interest rate movements and interest income by managing interest rate exposure. The Bank monitors its interest rate sensitivity by analysing the composition of its assets and liabilities and off-balance sheet financial instruments. The Bank believes that its sensitivity to interest rates is largely reduced by its ability to adjust the interest rate under the substantial majority of its loan agreements. See "Loan Portfolio—Loan portfolio structure by currencies".

The following table summarises the Bank's banking assets and liabilities by maturity as at 30 September 2005 and contains certain information regarding interest rate sensitivity. Interest rate sensitivity is the relationship between market interest rates and net interest income resulting from the periodic re-pricing of assets and liabilities. A negative gap denotes liability sensitivity and normally means that a decline in interest rates would have a positive effect on net interest income while an increase in interest rates would have a negative effect on interest income.

Interest accrued on interest bearing liabilities	3,007,779	—	—	—	—	—	3,007,779
TOTAL LIABILITIES	<u>53,394,175</u>	<u>36,081,645</u>	<u>49,450,690</u>	<u>82,892,959</u>	<u>14,644,241</u>	<u>81,385</u>	<u>236,545,095</u>
Liquidity gap	18,005,449	(19,653,956)	13,301,213	6,743,096	10,636,680	—	18,032,482
Interest sensitivity gap	38,880,681	(19,653,956)	13,301,213	1,022,325	9,376,750	—	33,627,013
Cumulative interest sensitivity gap	38,880,681	19,226,725	32,527,938	33,550,263	42,927,013	—	137,112,620
Cumulative interest sensitivity gap as a percentage of total assets	15.07%	7.45%	12.61%	13.01%	16.64%	—	53.58%

As at 30 September 2005, the Bank's overall cumulative maturity gap was KZT42,927 million, and as at 30 September 2004, it was positive at KZT5,540 million.

Although the relative maturities of the Bank's assets and liabilities give some indication as to the Bank's sensitivity to interest rate movements, it is an imprecise measure as it does not take account of the frequency with which the Bank is able to reprice its assets and liabilities. The Bank believes that its sensitivity to interest rate changes is largely reduced because it has the ability to reprice certain of its loans that mature within one year and has the ability to reprice loans maturing after one year under certain

circumstances. In addition, a significant percentage of its loan portfolio maturing after one year under is funded by fixed rate long-term funds. However, if the average maturity of the Bank's loan portfolio increases, without a matching increase in the average maturity of its liabilities or if the average maturity of its liabilities increases without a matching increase in the average maturity of its assets, the Bank will be exposed to increasing interest rate risk. At such time, the Bank may need to introduce new risk management techniques.

Funding and Liquidity

Introduction

The Bank's funding and liquidity management policy seeks to ensure that, even under adverse conditions, the Bank maintains sufficient funds available to meet its operational needs and to ensure compliance with FMSA regulations. Liquidity risk arises in the general funding of the Bank's lending and investment activities. It includes the risk of increases in funding costs and the risk of being unable to liquidate a position in a timely manner at a reasonable price.

Liquidity is centrally managed on a real-time basis by the Treasury Department according to the requirements and forecasts for all the Bank's divisions and branches. The Director of the Treasury Department is consulted on each major credit decision in respect of its impact on the Bank's overall liquidity position. In addition, the ALCO reviews the Bank's liquidity guidelines and strategy on a monthly basis, making any necessary adjustments.

The following table sets out the Bank's sources of funds as at 30 September 2005 and 31 December 2004 and 2003:

	<u>30 September 2005</u>		<u>31 December 2004</u>		<u>31 December 2003</u>	
	<i>(KZT millions)</i>	<i>(per cent.)</i>	<i>(KZT millions)</i>	<i>(per cent.)</i>	<i>(KZT millions)</i>	<i>(per cent.)</i>
Customer accounts	127,910	54.1	91,368	67.1	47,705	64.1
Deposits from banks	57,422	24.3	34,964	25.7	20,728	27.9
Issued securities	33,053	14.0	1,510	1.1		
Securities sold under agreements to repurchase	4,408	1.8	—	—	1,333	1.8
Subordinated debt	11,328	4.8	7,475	5.5	4,161	5.5
Income tax liabilities	—	0	—	—	62	0.1
Other liabilities	<u>2,424</u>	<u>1.0</u>	<u>892</u>	<u>0.6</u>	<u>437</u>	<u>0.6</u>
Total liabilities	<u>236,545</u>	<u>100.0</u>	<u>136,208</u>	<u>100.0</u>	<u>74,426</u>	<u>100.0</u>

The following table gives certain information as to the Bank's liquidity as at 30 September 2005 and 31 December 2004:

	<u>30 September 2005</u>	<u>31 December 2004</u>
	<i>(per cent.)</i>	
Net Loans ⁽¹⁾ /total assets	70.7	61.6
Net Loans ⁽¹⁾ /customer accounts	142.7	100.1
Net Loans ⁽¹⁾ /shareholders' equity	853.1	745.1
Liquid assets ⁽²⁾ /total assets	23.8	28.4
Liquid assets ⁽²⁾ /customer accounts	47.9	46.1

(1) Net loans means loans and advances to customers, net of allowances for losses.

(2) Liquid assets comprise investments held-to-maturity, assets held-for-trading, investments available-for-sale, cash, cash and balances with NBK, equivalents and loans and advances to banks (with maturity of less than 1 month).

Customer accounts

A significant portion of the Bank's funding base is represented by corporate customer accounts, which the Bank's management believes to be relatively insensitive to short term fluctuations in market interest rates. The Bank increased its retail funding base in 2004. Retail funding is less volatile than corporate funding, although it is more costly for the Bank. The Bank concentrates its efforts on servicing the retail market, especially those customers with annual incomes of U.S.\$6,000 to U.S.\$20,000. Other important sources of funding are bilateral and special purpose facilities from banks and financial institutions and the issue of debt securities.

As at 30 September 2005, the ten largest depositors accounted for 16.8 per cent. of total deposits, compared to 18.1 per cent. as at 30 September 2004 and 19.7 per cent. as at 31 December 2004. As at 30 September 2005, the Bank's two largest depositors, CJSC KATEP and CJSC "NPF Narodny Bank", accounted for 6.3 per cent. compared to 10.0 per cent. as at 31 December 2004 (JSC Mangystaumunaigas Representative Office and JSC KazakhMys). All top ten depositors have placed their deposits with the Bank as time deposits.

The amnesty implemented by the Government in 2001 to encourage the use of the banking system was one of the factors in increasing the Bank's funding from retail deposits in that year. Between June and July 2001, individuals and companies who deposited funds with banks did not need to justify the source of such funds to the tax authorities or otherwise. The 30 day amnesty resulted in U.S.\$480 million being placed with commercial banks.

As at 30 September 2005, time deposits were KZT90,737 million or 70.9 per cent. of total customer accounts, compared to KZT68,478 million or 75.0 per cent. of total customer accounts at the end of 2004.

The following table sets forth details of customer accounts broken down into time and demand deposits and accrued interest on customer accounts as at 30 September 2005 and as at 31 December 2004 and 2003:

	<u>30 September 2005</u>		<u>31 December 2004</u>		<u>31 December 2003</u>	
	<i>(KZT millions)</i>	<i>(per cent.)</i>	<i>(KZT millions)</i>	<i>(per cent.)</i>	<i>(KZT millions)</i>	<i>(per cent.)</i>
Time deposits	90,737	70.9	68,478	75.0	31,506	66.0
Demand deposits	35,691	27.9	22,045	24.1	15,834	33.2
Accrued interest expense on customer accounts	1,482	1.2	845	0.9	365	0.8
	<u>127,910</u>	<u>100.0</u>	<u>91,368</u>	<u>100.0</u>	<u>47,705</u>	<u>100.0</u>

The interest rates on the Bank's deposits are close to average rates on the market, and the Bank offers rates which are competitive with those of other institutions in Kazakhstan.

The following table sets out the average interest rates on the Bank's deposits for the nine months ended 30 September 2005 and for the years ended 31 December 2004 and 2003:

	<u>30 September</u>	<u>31 December</u>	
	<u>2005</u>	<u>2004</u>	<u>2003</u>
	<i>(per cent.)</i>		
KZT deposits			
Time deposit	9.8	10.3	10.2
Demand deposits	1.2	1.8	1.9
Foreign currency deposits			
Time deposits	7.2	6.9	6.4
Demand deposits	0.7	0.9	1.0

As at 30 September 2005, approximately 63.9 per cent. of the Bank's accounts were covered by the Deposit Insurance Fund. In accordance with its rules, the Deposit Insurance Fund will not guarantee a deposit exceeding KZT7 million. See "The Banking Sector in Kazakhstan".

Foreign Currency Borrowings

Over the past several years, the Bank has entered into financings with foreign banks and other financial institutions. Some of the more important of these are set out below.

Since 1997, the Bank has participated in a number of special programmes for the financing of small- and medium-sized enterprises and enterprises in specific industries, arranged and sponsored by the NBK, the Ministry of Finance, several local (regional) executive bodies as well as international financial institutions such as the International Bank of Research and Development, ADB, EBRD, DEG and FMO.

Syndicated Loans. The Bank has successfully attracted six syndicated loans on international markets, of which two remain outstanding. Two first syndicated loans were co-arranged by RZB and Citibank. The first loan of U.S.\$11 million was issued in September 2001 and repaid in September 2002. The second loan of U.S.\$15 million was issued in September 2002 for a one-year term. In November 2003, the Bank raised a third syndicated loan in the amount of U.S.\$36 million, which was arranged by HBV Group, Sanpaolo IMI S.p.A. and Standard Bank London. The facility was extended in November 2004, and the amount

increased to U.S.\$70 million with 28 participants. In the first half of 2004, the Bank attracted a U.S.\$45 million syndicated trade-related loan arranged by Deutsche Bank London and ING Bank. The facility, which was initially launched at U.S.\$30 million, was increased to U.S.\$45 million and has 21 participants. During the course of 2005, the Bank has attracted a U.S.\$125 million syndicated loan arranged by ING Bank and Deutsche Bank and a U.S.\$200 million syndicated loan arranged by RZB Austria and Citibank. The Bank plans to broaden the scope of its syndications in 2006.

Trade Finance. Beginning in 2002, the Bank entered into numerous short-term trade finance related facilities with various financial institutions, including American Express Bank, Citibank, HSBC Bank Kazakhstan, HypoVereinsbank, Natexis Banques Populaires, Bank of Montreal, Standard Bank London, Bankgesellschaft Berlin, Finansbank (Holland) and others.

In 2004, several club deals and short-term trade finance related facilities were arranged for clients of the Bank for an aggregate amount exceeding U.S.\$90 million. All transactions were intended to finance specific projects of corporate customers. Among the banks that participated in these transactions were American Express Bank, HypoVereinsbank, Natexis Banques Populaires, Bank of Montreal, Citibank, Finansbank (Holland), DZ Bank, HSH Nordbank, Bankgesellschaft Berlin, Bank Austria Creditanstalt, Erste Bank, RZB, Adria Bank and Caixa Geral de Depositos and others. A portion of the funds was guaranteed by the EBRD.

In July 2003, the Bank entered into a U.S.\$5 million five-year credit line with South Korean Eximbank in order to finance exports to and imports from South Korea. In addition, the Bank, in 2004, entered into several loan agreements intended to provide long-term funding to purchase equipment and technology from European countries, with guarantee insurance coverage provided by export credit agencies of the relevant countries. Loan agreements, each in the amount of €10 million, were entered into with Commerzbank and HypoVereinsbank; to date, the Bank has utilised €430,000 and €1.17 million under them, respectively. The Bank also entered into a loan agreement with Bankgesellschaft Berlin for €2.91 million and with Dresdner Bank for U.S.\$1.1 million.

SME Programmes. The Bank participates in the Programme for State Support of Small Business funded by EBRD. Under this Programme, EBRD provides funds to the Small Scale Business Development Fund, a quasi-governmental financial institution, which in turn distributes the funds to a number of designated Kazakhstan banks, including the Bank, for further on-lending to small-scale enterprises. As at 30 September 2005, the Bank had received and on-lent U.S.\$12.6 million as to its small-scale customers under this Programme.

In 2003, EBRD also extended three credit lines to the Bank for an aggregate amount of U.S.\$18 million under its Grain Receipts, Trade Finance and Kazakhstan Small Business Programmes. Under the Trade Finance Programme and the Grain Receipts Programme, the loans were extended to certain grain producers/dealers secured by grain receipts. In December 2003, the Bank entered into a loan agreement with DEG and FMO in the amount of U.S.\$8 million. In 2004, the EBRD increased its Grain Receipts 2003 credit line from U.S.\$3 million to U.S.\$6 million. During November and December 2004, the EBRD provided a U.S.\$6 million credit line to the Bank to finance the agricultural sector, in particular, for purchasing and leasing agricultural equipment, and a credit line in the additional amount of U.S.\$10 million under the Kazakhstan Small Business Programme. In November 2005, Bank concluded another loan agreement with the EBRD that aims to finance grain producers in Kazakhstan thus facilitating the development of the Kazakhstan agricultural sector. The loan is a U.S.\$24 million facility secured by warehouse receipts.

In May 2005 the Bank attracted a U.S.\$10 million credit facility from the IFC under the IFC Central Asia Leasing facility.

In December 2005, Wachovia Bank extended a U.S.\$9 million bilateral loan to the Bank to finance its SME and retail customers.

Retail Programme. In November 2005, the Bank entered into a loan agreement with the EBRD in the amount of U.S.\$10 million to finance the Bank's long-term residential mortgage sub-loans to its customers.

Subordinated Loans and Notes. In December 2004, the Bank received a subordinated loan from DEG in the amount of U.S.\$10 million.

In 2000, the Bank issued U.S.\$4.5 million in five-year subordinated debt due 2005 and between 2002 and 2005, the Bank issued an additional KZT12.5 billion in six separate subordinated debt issuances with

terms ranging from five to ten years. In September 2004, the Bank issued its debut mortgage bonds in the amount of KZT500 million due 2007 and in December 2004, the Bank issued an additional KZT1.3 billion in mortgage bonds due 2014. In 2005 the Bank issued mortgage bonds in the amount of KZT4.5 billion due 2015. Starting in 2006 with an issuance of KZT10 billion, the Bank intends to raise up to KZT90 billion in subordinated debt over the course of the next three years.

Eurobonds. In February 2005, the Bank issued U.S.\$200 million 8.0 per cent. notes due 2008.

The Bank believes that it will be able to meet its funding obligations under these facilities through an increase in borrowings, including the issue of the Notes and through increases in time deposits.

Foreign Currency Management

The Tenge was generally stable against the Dollar in 2001 and 2002, depreciating by 3.9 per cent. in 2001 and 3.8 per cent. in 2002. In 2003 and 2004, the Tenge strengthened against the U.S. dollar and appreciated by 7.5 per cent. and 9.9 per cent., respectively. According to NBK, during the first half of 2005, the Tenge depreciated by 3.0 per cent. against the U.S. dollar.

The Bank's long position is less than the limit set by the NBK. The details of the Bank's net foreign currency position are set out in a table below.

The ALCO monitors the net open foreign currency position in relation to prevailing market conditions and outlook and advises on the Bank's position and implements the Bank's strategy accordingly.

Regulation and monitoring of the net foreign currency positions of banks is carried out by the NBK. According to current NBK regulations, the ratio of a bank's net open foreign currency position relative to its own capital must not exceed 50 per cent. and the net open foreign currency position for any currency of a country rated "A" or higher or the Euro must not exceed 30 per cent. of its own capital. The open long and short positions for any currency of a country rated from "B" to "A" are limited to 5 per cent. and 15 per cent. of own capital, respectively. See "Management's Discussion and Analysis of Results of Operations and Financial Condition—Financial Condition as at 30 September 2005 and as at 31 December 2004 and 2003—Capital". In addition, the Bank has its own internal policy to limit any long aggregate foreign exchange position to no more than 100 per cent. of the Bank's equity.

The following table shows the net foreign currency position of the Bank (calculated in accordance with IFRS) as at 30 September 2005, 31 December 2004 and 31 December 2003:

	<u>30 September</u>	<u>31 December</u>	
	<u>2005</u>	<u>2004</u>	<u>2003</u>
Net short position (in KZT millions)	1,555	(1,062)	159
Net position as a percentage of own capital	7.3	(8.7)	2.1
Net position as a percentage of foreign currency liabilities	0.6	(1.5)	0.4

Treasury Operations

The main objective of the Bank's treasury operations is to achieve efficient management of liquidity, interest rate and market risk by operations in the foreign exchange and money markets; thus managing foreign currency exposure and funding costs. The Bank's treasury operations consist largely of spot transactions in Tenge and foreign currencies, transactions in government securities and currency swap and forward transactions for hedging purposes. The lack of a developed framework and trading and accounting mechanisms in the derivatives market in Kazakhstan, combined with an underdeveloped banking sector, means that futures, options and forward currency trading is rare. The Bank is one of the primary banks in Kazakhstan involved in money market operations and government securities trading.

The Treasury Department calculates the Bank's cash position on a daily basis and provides the Bank's management with weekly and monthly reports on the Bank's liquidity and cash flow.

Trading and Investment Portfolio

The Bank structures its securities portfolio based on a number of factors, including the liquidity, diversification and yield-to-maturity of the securities held. The Bank has a general policy that its governmental and municipal securities shall constitute the major part of its total securities portfolio, with the remainder of the portfolio allocated to non-government securities (mainly Kazakhstan corporations). As at 30 September 2005, government securities accounted for 78.6 per cent. of the Bank's securities portfolio, compared to 73.1 per cent. and 60.7 per cent., as at 31 December 2004 and 31 December 2003, respectively.

The following table shows the composition of securities held by the Bank and its investments in associated companies as at 30 September 2005, 31 December 2004 and 31 December 2003:

	<u>30 September</u>	<u>31 December</u>	
	<u>2005</u>	<u>2004</u>	<u>2003</u>
	<i>(KZT millions)</i>		
Assets held-for-trading	5,562	2,911	1,413
Investments available-for-sale	36,624	21,479	9,000
Investments held-to-maturity	<u>92</u>	<u>55</u>	<u>—</u>
Total	<u>42,278</u>	<u>24,445</u>	<u>10,413</u>

The Bank's total securities portfolio increased by 134.8 per cent. from KZT10,413 million as at 31 December 2003 to KZT24,445 million as at 31 December 2004. In the first nine months of 2005, the Bank's total securities portfolio increased by a further 73.0 per cent. to KZT42,278 million.

The Bank's investments available-for-sale comprise mostly US Treasury Bonds, notes of the NBK, and other Kazakhstan entities. Whilst its holding of the Government of Kazakhstan's eurobonds remained relatively unchanged in 2005 compared to 2004, securities issued by companies increased to KZT9,033.0 million as at 30 September 2005 compared to KZT6,575.2 million as at 31 December 2004. This increase reflects the Bank's decision to broaden its securities portfolio and diversify its risk profile. The Bank has written off its holding in CJSC Astana Hotel as a result of the Kazakhstan Stock Exchange suspending trading of those shares. As at 30 September 2005, the investments held-to-maturity amounted to KZT92 million.

Loan Portfolio

Introduction

The Bank offers a variety of banking products including loans, trade financing, letters of credit and letters of guarantee. Financing is provided for various purposes, although the majority of corporate loans are for working capital and trade finance purposes with a maturity of 12 months or less. Consumer lending relates primarily to mortgages, car loans and other loans to finance purchases of consumer products.

The Bank's loan portfolio is monitored by the Credit Committee of the Head Office, which determines the amount that the Bank is prepared to lend, together with the type of collateral required to secure such loans. If there are any problems or potential problems either with the borrower or the credit, the borrower's case is forwarded to the Problem Loan Division, a sub-division of the Credit Department. See "—Lending Policies and Procedures".

Loans and advances to banks

As at 30 September 2005, loans and advances to banks had reached KZT9,693.2 million compared to KZT9,745 million as at 31 December 2004. In general, loans and advances to banks were represented by short-term U.S. dollar deposits placed for liquidity management. The Bank undertakes a conservative approach in its deposit funding activities. Funds are usually placed for a short-term period with a maximum limit on the amount deposited, unless such loans are backed by state securities or cash deposits. As such, as at 30 September 2005, nearly all loans and advances to banks had maturities of less than one month.

Loans, guarantees and letters of credit

The Bank offers a variety of corporate banking products including loans, trade financing, letters of credit and letters of guarantee. The following table sets out the composition of the Bank's loans and contingent liability exposure as at 30 September 2005, 31 December 2004 and 31 December 2003:

	<u>30 September</u>	<u>31 December</u>	
	<u>2005</u>	<u>2004</u>	<u>2003</u>
	<i>(KZT millions)</i>		
Loans			
Loans and advances to customers	190,030	95,550	54,356
Provision for impairment losses	(7,552)	(4,083)	(2,287)
Loans and advances to customers, net	182,478	91,467	52,069
Contingent Liabilities			
Guarantees	21,359	9,063	3,908
Letters of credit	8,191	5,361	831
Total contingent liabilities	<u>29,550</u>	<u>14,424</u>	<u>4,739</u>
Total loans and contingent liabilities	<u>212,028</u>	<u>105,891</u>	<u>56,808</u>

The Bank uses the same credit control and management policies in undertaking off-balance sheet commitments as it does for on-balance operations. See “—Lending Policies and Procedures”.

The Bank’s loan portfolio, net of provisions, grew by 99.5 per cent. from KZT91,467.4 million as at 31 December 2004 to KZT182,477.8 million as at 30 September 2005.

As at 30 September 2005, the top 20 largest borrowers comprised 25.7 per cent. of the Bank’s gross loan portfolio, compared to 35.3 per cent. as at 31 December 2004 and 37.1 per cent. as at 31 December 2003.

The following table sets out a breakdown of a Bank’s gross commercial loans and advances (before allowances) by loan amount as at the dates indicated:

	<u>30 September</u>		<u>31 December</u>			
	<u>2005</u>		<u>2004</u>		<u>2003</u>	
	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>
Up to \$50,000	44,052	23.2	16,134	16.9	10,468	19.3
\$50,001-\$200,000	26,620	14.0	8,300	8.7	4,581	8.4
\$200,001-\$1,000,000	38,648	20.4	15,419	16.1	11,177	20.6
\$1,000,001-\$3,000,000	34,229	18.0	20,325	21.3	11,200	20.6
\$3,000,001-\$5,000,000	13,948	7.44	10,447	10.9	5,055	9.3
Over \$5,000,000	<u>32,533</u>	<u>17.1</u>	<u>24,924</u>	<u>26.1</u>	<u>11,875</u>	<u>21.8</u>

Loan portfolio structure by maturity

The following table sets out the breakdown of the Bank’s gross commercial loans and advances (before allowances) by maturity:

	<u>30 September</u>		<u>31 December</u>			
	<u>2005</u>		<u>2004</u>		<u>2003</u>	
	<i>(KZT millions)</i>	<i>(per cent.)</i>	<i>(KZT millions)</i>	<i>(per cent.)</i>	<i>(KZT millions)</i>	<i>(per cent.)</i>
Up to 1 month	2,468	1.3	1,122	1.2	1,189	2.2
1-3 months	9,100	4.8	2,956	3.1	2,287	4.2
3-6 months	14,044	7.4	9,957	10.4	6,998	12.9
6-12 months	26,948	14.2	14,895	15.6	13,161	24.2
1-2 years	26,181	13.8	18,231	19.1	11,904	21.9
2-3 years	30,879	16.2	13,144	13.7	5,914	10.9
3-5 years	46,851	24.6	25,318	26.5	7,651	14.1
Over 5 years	33,000	17.4	9,338	9.8	4,762	8.8
Overdue	<u>559</u>	<u>0.3</u>	<u>589</u>	<u>0.6</u>	<u>490</u>	<u>0.9</u>
Total	<u>190,030</u>	<u>100.0</u>	<u>95,550</u>	<u>100.0</u>	<u>54,356</u>	<u>100.0</u>

Loan portfolio structure by sector

The Bank’s Credit Committee of the Head Office sets limits on the Bank’s total exposure to economic sectors as a percentage of the Bank’s total loan portfolio, based on its review of macro-economic data

prepared by the Analysis, Monitoring and Methodology Division of the Credit Department. Current limits include a maximum exposure to trade companies of 30 per cent., retail and housing of 30 per cent. and manufacturing of 20 per cent., in each case of the Bank's total loan portfolio. The Bank limits its exposure to high risk sectors of the economy.

As at 30 September 2005, retail loans and mortgages included approximately KZT728 million of mortgage loans extended by CJSC Zhilstroibank prior to its merger with the Bank in 1998 as part of a Government-led initiative to provide low-cost loans to fund house purchases by individuals. At the time of the merger, such loans represented approximately 12 per cent. of the Bank's total loan portfolio. The Bank's loan portfolio has grown since the merger, however, and as at 30 September 2004, the percentage had fallen to less than 1 per cent. The loans were initially extended by CJSC Zhilstroibank for 25 years at a low rate of interest (usually 5 per cent.), fixed until maturity. All loans were linked to the U.S. dollar. Following the flotation and subsequent devaluation of the Tenge in April 1999, the borrowers became unable to meet the repayment obligations which increased rapidly as the Tenge continued to devalue. Following a petition by the Bank, the Government agreed in February 2001 to meet the increased costs of such loans caused by the devaluation of the Tenge and to pay the Bank the difference between the Tenge amount paid by the borrowers (fixed at an exchange rate of KZT88.3: U.S.\$1.00) and the exchange rate applicable as at the end of the relevant year.

The following table sets forth certain information as to the structure of the Bank's loan portfolio by economic sector, as at 30 September 2005, 31 December 2004 and 31 December 2003:

	30 September		31 December			
	2005		2004		2003	
	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>
Retail loans and mortgages	52,594	27.7	19,299	20.2	8,386	15.4
Trade	38,645	20.3	21,704	22.7	14,366	26.4

Other	5,690	3.0	1,735	1.8	1,041	1.9
Total	190,030	100.0	95,550	100.0	54,356	100.0

Retail loans and mortgages increased from KZT19,299 million as at 31 December 2004 to KZT52,594 million as at 30 September 2005, representing an increase of 172.5 per cent., and, as a percentage of the loan portfolio, increased from 20.2 per cent. to 27.7 per cent. This increase was a result of the Bank's strategy to increase its presence in the high margin retail sector which resulted in a large increase in the volume of the Bank's mortgage loans. In 2005, lending to the trading sector increased due to an increase in the number of borrowers among companies which focus on trading, mainly in the agriculture, manufacturing and food industries. Loans to trading companies increased by 78.5 per cent. in the first nine months of 2005, from KZT21,704 million as at 31 December 2004 to KZT38,645 million as at 30 September 2005, however, the share of the trading sector in the total loan portfolio decreased in the period ended 30 September 2005 to 20.3 per cent. as compared to 22.7 per cent. of the Bank's total loan portfolio as at 31 December 2004. Loans to the construction sector increased substantially (208.6 per cent.) during the nine months ending 30 September 2005, reflecting an improvement in the Kazakhstan economy and increased activity in the construction sector. Loans to companies in the agriculture sector

increased by 147.6 per cent. in 2004 and by 173.5 per cent. in the first nine months of 2005. Such loans include the EBRD funded grain receipts programme. See “—Funding and Liquidity”.

Loans to manufacturing companies increased by 26.6 per cent. in the first nine months of 2005, representing 7.8 per cent. of the Bank’s total loan portfolio as at 30 September 2005 (a decrease of 4.5 per cent. compared to 31 December 2004). Loans to the food industry increased marginally and, as a percentage of the total loan portfolio, decreased by 3.2 per cent to 7.7 per cent. as at 30 September 2005.

In 2005, loans to the oil, gas and energy sectors also increased, although overall, their share of the Bank’s total loan portfolio decreased to 4.0 per cent as at 30 September 2005 from 4.9 per cent. as at 31 December 2004.

Loan portfolio structure by currencies

Historically, non-Tenge loans comprised the major part of the Bank’s loan portfolio, accounting for 76.0 per cent. of total loans as at 31 December 1999 then decreasing thereafter. After the flotation of the Tenge in 1999 and following the subsequent stabilisation of the Tenge against the U.S. dollar, the structure of the Bank’s loan portfolio by currency has changed. Following domestic demand and as a result of a significant portion of the Bank’s deposits (time and demand) being in Tenge, the level of Tenge loans has increased, representing 49.7 per cent. of the Bank’s total loan portfolio as at 30 September 2005, 42.1 per cent. as at 31 December 2004 and 54.0 per cent as at 31 December 2003. Such loans generally have a shorter-term maturity profile and usually contain provisions that allow the Bank to increase interest rates or demand early repayment in the event of a devaluation of the Tenge.

The following table sets forth certain information as to the currency profile of the Bank’s gross loan portfolio as at 30 September 2005, 31 December 2004 and 31 December 2003:

	30 September		31 December			
	2005		2004		2003	
	(KZT millions)	(Share, per cent.)	(KZT millions)	(Share, per cent.)	(KZT millions)	(Share, per cent.)
Tenge.....	94,467	49.7	40,267	42.1	29,325	54.0
U.S. dollars	93,490	49.2	54,607	57.2	24,581	45.2

Other currency	2	—	—	—	—	—
Total loan portfolio (gross).....	190,030	100.0	95,550	100.0	54,356	100.0

Lending Policies and Procedures

General

The FMSA sets strict guidelines in relation to the credit approval process of banks and the terms, credit levels and interest rates of the loans given. NBK regulations limit the exposure to any single borrower or group of borrowers to 10 per cent. of a bank’s equity for parties related to the bank and to 25 per cent. of a bank’s equity for parties not related to the bank. See “Management’s Discussion and Analysis of Results of Operations and Financial Condition—Financial Condition as at 30 September 2005 and as at 31 December 2004 and 2003—Capital”. The Bank’s own credit approval process is based on FMSA regulations and its own internal procedures are established by the Management Board and the Board of Directors.

The Bank has three main credit committees located within its head office which are responsible for approving credit decisions within the Bank; the Credit Committee of the Credit Risk Division and the Small Credit Committee of the Head Office. The Credit Committee of the Credit Risk Division is responsible for the implementation of the Bank’s credit policy in respect of small- and medium-sized enterprises and for approving the terms of credit facilities and/or guarantees extended by the Bank for amounts of up to U.S.\$100,000. The Small Credit Committee of the Head Office is responsible for the implementation of the Bank’s credit policy in respect of medium to large corporate customers and for approving the terms of credit facilities and/or guarantees extended by the Bank for amounts of between U.S.\$100,000 and U.S.\$1 million. The Credit Committee of the Head Office is responsible for the implementation of the Bank’s credit policy in respect of large corporate customers and for approving the terms of credit facilities and/or guarantees extended by the Bank for amounts of between U.S.\$1 million and U.S.\$3 million. Any loan of between U.S.\$3 million and U.S.\$10 million must be approved by the Management Board and loans in excess of U.S.\$10 million must be approved by the Board of Directors.

Within each full service branch, credit decisions for loans below the credit level set for that branch are approved by the credit committee within the branch, including the credit officers who review the loan applications and led by the Credit Risk Manager of the branch who opines on the credit risks involved and who also monitors the branch's loan portfolio. The levels for each branch are set by the Credit Committee of the Credit Risk Department and range from U.S.\$50,000 to U.S.\$400,000 per loan. The Credit Committee of the Credit Risk Department monitors loans approved by individual branches and individual branch lending limits can be increased up to the maximum limit approved for branches, or revoked, depending on the individual branch's compliance with the Bank's credit policies. One branch had its lending limit revoked in 2004. Lending limits are reviewed on a quarterly basis.

All applications for credit by corporate and retail customers must be submitted to the Bank on its standard forms. The Bank's branches conduct an initial compliance review of each application. After such review, depending on the type of the borrower and the credit, the application is sent for review and analysis by the Credit Department for loans of up to U.S.\$1 million or by the Corporate Finance Department for loans exceeding U.S.\$1 million. The relevant department undertakes a thorough review and analysis of the application, including carrying out feasibility studies and analysis of the financial standing, reputation and experience of the potential borrower and then prepares a credit dossier based upon the results of such analysis. If applicable, the Problem Loan Division of the Credit Department obtains references on the potential borrower from third parties including other banks and various governmental authorities, such as taxation bodies, the NBK and the Interior Ministry. If the loan is collateralised, the Bank's associate LLP BCC makes an appraisal of the collateral being offered, including as to valuation, title and prior encumbrances. The Bank also employs independent legal advisers to review the loan agreements and other legal documentation involved in the lending process. A central credit bureau was established by the NBK in 2005.

Depending on the amount of the credit, the credit dossier is examined by the appropriate credit decision making body of the Bank for a final decision on the extension of the credit.

Maturity Limit

The maximum maturity of a loan depends on the type of loan as follows:

	<u>Maximum Maturity</u>
Financing of working capital	Up to 12 months
Consumer credit to individuals	Up to 24 months
Loans to employees.....	Up to 37 months
Payroll	Up to 1 month
Investments	Up to 5 years
Inter-bank credit:	
Short term.....	Up to 1 year
Medium term	1 to 3 years
Long term	3 years and above
Mortgage loans.....	Up to 15 years
Leasing.....	Up to 5 years

Collateralisation

To reduce its credit risks, the Bank requires collateral from borrowers. Collateral includes but is not limited to real estate, machinery and motor vehicles, industrial equipment, industrial goods and food stocks and medicine and other commercial goods, as well as cash deposits, domestic securities and personal or financial institution guarantees. The Bank regularly monitors the quality of the collateral taken as security. In certain cases when existing collateral declines in value, additional collateral might be requested. In addition, the terms of the Bank's loan agreements usually provide the Bank with the flexibility to adjust interest rates or request a prepayment of the loan or a portion thereof upon changes in circumstances, including a decline in the value of collateral.

The following table sets out the loan amount as a percentage of collateral value based on the type of collateral:

	<u>Loan/Collateral Value</u> (per cent.)
Cash.....	100
Guarantees from financial institutions.....	100
Government debt securities.....	100
Real estate.....	30-70
Goods in turnover.....	50
Equipment.....	40-60
Precious metals.....	70
Corporate guarantees.....	40-60
Corporate securities.....	10-50

The following table sets forth the nominal amount of the Bank's collateralised and non-collateralised loans and such amount as a percentage of total gross loans as at 30 September 2005, and 31 December 2004 and 2003:

	<u>30 September</u>		<u>31 December</u>			
	<u>2005</u>		<u>2004</u>		<u>2003</u>	
	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>
Collateralised.....	187,980	98.9	94,739	99.2	53,551	98.5
Uncollateralised.....	2,050	1.1	811	0.8	805	1.5
Total.....	<u>190,030</u>	<u>100.0</u>	<u>95,550</u>	<u>100.0</u>	<u>54,356</u>	<u>100.0</u>

The following table sets forth a breakdown of total gross collateralised loans by type of collateral and as a percentage of the total gross loan portfolio as at 30 September 2005 and as at 31 December 2004 and 2003:

	<u>30 September</u>		<u>31 December</u>			
	<u>2005</u>		<u>2004</u>		<u>2003</u>	
	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>
Real estate.....	134,236	70.6	60,405	63.2	33,931	62.4
Goods in turnover.....	25,675	13.5	13,793	14.4	7,327	13.5
Equipment.....	17,197	9.1	9,567	10.0	5,286	9.7
Other assets.....	5,381	2.8	4,925	5.2	3,317	6.1
Corporate guarantees.....	3,826	2.0	2,772	2.9	1,758	3.2
Cash.....	1,397	0.8	2,383	2.5	1,115	2.1
Precious metals.....	268	0.1	894	1.0	817	1.5
Unsecured.....	2,050	1.1	811	0.8	805	1.5
Total.....	<u>190,030</u>	<u>100.0</u>	<u>95,550</u>	<u>100.0</u>	<u>54,356</u>	<u>100.0</u>

Where borrowers of the Bank are connected or related in some way, for example having common shareholders or being owned by other such companies, these related companies are treated as a single borrower by the Bank and are required to provide cross-collateral for loans. If there is a default by one company, all the other companies of the same group become liable and the Bank can enforce collateral posted by the other connected companies to repay the defaulted obligations.

The laws of Kazakhstan allow a secured creditor to foreclose on collateral upon the occurrence of an event of default through both judicial and non-judicial procedures. Non-judicial foreclosure allows the secured creditor to seize collateral in the event of a default and to hold an auction, if necessary, to dispose of such collateral after 60 days' notice. The Bank's security documents provide for both non-judicial and judicial foreclosure. To be enforceable, a pledge over immovable property is required to be registered with local departments of the Ministry of Justice. No such registration is required for the pledges over certain types of movable property. However, registration of a pledge over either immovable or movable property establishes priority of that pledge over an unregistered pledge. The Bank requires all of its pledges to be registered.

Portfolio Supervision

The Bank classifies its loans in accordance with requirements established by the NBK. Within each full service branch, the branch's loan portfolio is also monitored by credit officers and the Credit Risk Manager of the branch. The Credit Committee of the Credit Risk Division is responsible for monitoring the total loan portfolio of the Bank and reviewing the loan portfolios of each branch. The Credit Risk Division monitors the Bank's loan portfolio using the Credit Module (See "Asset and Liability Management — Introduction"). Using this system, the Credit Risk Division is able to evaluate the quality of the loan portfolio and the requirements for loan loss provisions in relation to it. Loans are monitored on a daily basis, which allows the Credit Risk Division to identify problem credits or loans at an early stage. In addition, an in-depth review of each borrower is carried out on site on a quarterly basis where the financial state of the borrower and the status of any pledged collateral is assessed.

Loans and off-balance sheet exposure are classified by reference to: (i) customer's financial performance; (ii) timelines of repayment of principal and/or interest; (iii) quality of collateral; (iv) whether there has been any extension of the loan; (v) timeliness of repayments on other loans; (vi) whether there has been any unauthorised use of the loan; (vii) whether other credits to that Customer have been written off; and (viii) any rating assigned to the Customer. Each of the criteria is assessed and then assigned a risk weight grade according to the following matrix:

<u>Criteria</u>	<u>Grade</u>	<u>Criteria</u>	<u>Grade</u>
Financial Performance		Timeliness of Repayment on Other Loans	
Stable	0	On time payments	0
Satisfactory	+1	Payments overdue	+1
Unstable	+2	Unauthorised Use of the Loan	
Critical	+4	Up to 25 per cent.	0
Timeliness of Repayment of the Loan		25 to 50 per cent. (non-inclusive)	1
On time payments	0	50 to 75 per cent. (non-inclusive)	2
Overdue by 1-30 days	+1.5	75 to 100 per cent. (non-inclusive)	3
Overdue by 31-60 days	+2.5	100 per cent. and more	4
Overdue by 61-90 days	+3.5	Write-offs	
Overdue by more than 90 days	+4.5	None	0
Quality of Collateral		Some	+2
Reliable	-3	International Rating	
Good	-2	"A" and above	-3
Satisfactory	0	Above Kazakhstan sovereign to "A"	-2
Unsatisfactory	+1	Kazakhstan sovereign	-1
No collateral	+2	Below Kazakhstan sovereign/No rating	0
Extensions			
None	0		
Some	+ (no. of extensions)		

In relation to the Financial Performance criteria:

"Stable" means that the customer is solvent; has no losses; has a strong market presence; and there are no external or internal factors evidencing deterioration in the financial performance until maturity of the loan or doubts as to repayment of the loan.

"Satisfactory" means that there are some indications of temporary deterioration in the financial performance of the customer such as a decrease in revenues, deterioration in cash position or market share or there are some external and internal factors that might affect the financial performance of the customer; although there is some probability of default, there is also an expectation that customer can overcome such temporary problems.

"Unstable" means that there are serious indications of constant and significant deterioration in the financial performance of the customer such as losses, diminished liquidity, continuous deterioration of the market share; no assurance can be made that the customer's financial performance will improve; the information is not sufficient to assess the customer's financial position.

“Critical” means that the continuous deterioration of the financial performance of the customer has reached a critical stage and is characterised by significant financial losses, insolvency, significant deterioration of market share, negative equity capital; declared bankruptcy and/or bankruptcy treatment was applied for a period of one year, force majeure events which materially affected the customer or its activities; absence of financial information about the customer is absent.

In relation to the Quality of Collateral criteria:

“Reliable” means highly liquid collateral, in the form of Kazakhstan governmental guarantees, guarantees from banks having an international rating not less than “AA”, cash collateral and pledges over Kazakhstan sovereign securities, securities issued by foreign governments having an international rating of not less than “A” or monetary precious metals securing all of the credit.

“Good” means highly liquid collateral as in Reliable Collateral securing not less than 90 per cent. of the credit.

“Satisfactory” means non-highly liquid collateral securing all of the credit or highly liquid collateral as in Reliable Collateral securing not less than 70 per cent. of the credit.

“Unsatisfactory” means any collateral securing not less than 50 per cent. of the credit.

“No Collateral” means that the loan is not secured or the collateral secures less than 50 per cent. of the credit.

The risk weight grades for all criteria are then combined, resulting in classification of the Bank’s portfolio as follows, both under NBK requirements and under IFRS:

<u>Total Grades</u>	<u>NBK Classification</u>	<u>Timeliness of Repayment</u>	<u>IFRS Classification</u>
Less than 1	Standard		Standard
1-2	Doubtful 1st category	Current	Sub-standard
	Doubtful 2nd category	Overdue	Sub-standard
2-3	Doubtful 3rd category	Current	Unsatisfactory
	Doubtful 4th category	Overdue	Unsatisfactory
3-4	Doubtful 5th category	Both current and overdue	Doubtful
4 and more	Loss	Both current and overdue	Loss

Total classified loans under the NBK’s classification comprise doubtful loans and bad debt. Total classified loans under IFRS comprise unsatisfactory loans, doubtful loans and bad debt.

The Credit Committee of the Head Office produces a monthly report which covers all aspects of the Bank’s credit activity. The Bank’s Management Board pays strict attention to the timeliness of debt repayments and the classified loans and contingent liabilities are included in such monthly reports. Immediate action is taken by the appropriate departments, which have responsibility for supervising and monitoring loan repayment if any principal or accrued interest repayment problems arise. Any deterioration in the quality of the assets and contingent liabilities of the entire loan portfolio is brought to the attention of the Bank’s Management Board. The Bank’s determination as to whether a repayment problem has arisen is based on a number of objective and subjective criteria including the credit’s classification as described above; sudden changes in volumes in the customer’s accounts with the Bank; as to retail customers, sudden changes in the standard of living of the customer which imply improper use of credit facilities; applications to change credit terms; failure of the customer or a counterparty to fulfil terms under a contract relating to the credit; refusal of a customer to co-operate in supplying documentation and evasion of the Bank’s officers by the customer. Once any repayment problem arises, the Bank’s Problem Loans Division is immediately notified. The Bank believes that it has a good record in enforcing its security and attempts to resolve security enforcement without resort to court action or arbitration. In particular, the Bank takes immediate steps to issue notices of default and to carry out the subsequent sale of any pledged collateral either in reliance on non-judicial foreclosure or with the co-operation of the customer.

In addition, the Bank established its own internal customer rating system in 2002 pursuant to which each of the Bank’s large corporate customers are assigned an internal credit rating. The Bank currently classifies its corporate clients based on the amounts of such clients’ annual sales. Corporate clients with annual sales of U.S.\$700,000 or less are classified as “small-sized”, corporate clients with annual sales of between U.S.\$700,000 and U.S.\$7 million as “medium-sized”, corporate clients with annual sales of between U.S.\$7 million and U.S.\$70 million as “large-sized” and in excess of U.S.\$70 million as “largest companies”. The ratings assigned are based on criteria such as the customer’s management, operational

potential, credit history, quality of collateral and financial performance. The assigned ratings determine, to a large extent, the applicable interest rate, other terms and conditions of the credit extended to the customer and the frequency and level of monitoring.

Provisioning Policy

The classification matrix described above is used to determine the provisioning rate required by the NBK. Calculation of provisions is carried out on a monthly basis.

The Bank may make specific provisions for possible loan losses on a case-by-case basis and actual provisions established take into account the value of any collateral or third party guarantees. For this reason, the actual provision levels may differ from the normal provisioning rate. The Bank considers a loan to be non-performing when either interest or principal payments are past their due date by 30 days. At such time, the accrual of interest is suspended. The Bank fully provisions a loan if interest and principal have not been paid for more than 90 days or if management is of the opinion that the loan is uncollectible because the Bank has been unable to collect the loan or to enforce its security. The Bank writes off loans that are past their due date by 180 days or more although under IFRS such loans do not have to be written off but are treated as non performed loans. Once a loan has been fully provisioned by the Bank, the Problem Loan Division continues to monitor the loan and related collateral for a five-year period in order to assess the possibility of making a subsequent recovery.

The Bank's provisioning policy under IFRS differs from its provisioning policy under relevant laws in Kazakhstan and regulations of the NBK (collectively, "Kazakhstan Practices"). No general provision is created for unclassified loans under Kazakhstan Practices whereas under IFRS, there is a general provision of 2 per cent. of each credit exposure.

Until 2002, under Kazakhstan Practices, banks were required to create provisions for potential loans and advances to customers based primarily on the borrower's debt service performance. In 2002, the NBK introduced its current requirements as to classification of and provisions in relation to loans and advances to customers not only on the basis of borrower's debt service performance but also on the basis of such criteria as the borrower's financial performance, quality of collateral and credit history. See "Portfolio Supervision".

The table below sets forth certain information relating to the Bank's gross loans and the credit classifications and provisions in relation to them in accordance with IFRS on the basis of discounted expected cash flows as at 30 September 2005, 31 December 2004 and 31 December 2003:

	30 September		31 December			
	2005		2004		2003	
	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>	<i>(KZT millions)</i>	<i>(Share, per cent.)</i>
IFRS Risk Category						
Standard	124,026	65.3	63,474	66.4	36,940	68.0
Substandard	49,923	26.3	21,668	22.7	11,284	20.8
Unsatisfactory	13,533	7.1	8,986	9.4	5,399	9.9
Doubtful	591	0.3	384	0.4	159	0.3
Loss	1,957	1.0	1,038	1.1	574	1.0
Total	<u>190,030</u>	<u>100.0</u>	<u>95,550</u>	<u>100.0</u>	<u>54,356</u>	<u>100.0</u>

The effective level of provisions was 4.0 per cent. in the first nine months of 2005 and 4.3 per cent and 4.2 per cent. in the years ended 2004 and 2003, respectively. Total classified loans as a share of total loan portfolio decreased by 2.5 per cent. over the first nine months of 2005 compared to the first nine months of 2004. In 2004, the amount of total classified loans decreased compared to 2003 and comprised only 10.9 per cent. of the total loan portfolio at the end of 2004, compared to 11.2 per cent. of the Bank's total loan portfolio at the end of 2003.

Non-performing loans, determined in accordance with IFRS, which include loans on which interest has ceased to accrue, amounted to KZT499.7 million or 0.3 per cent. of the Bank's gross loan portfolio as at 30 September 2005 as compared with KZT518.6 million or 0.5 per cent. as at 31 December 2004.

MANAGEMENT AND SHARE OWNERSHIP

Management

In May 2004, the Bank was re-registered as a Joint Stock Company to comply with the requirements of the 13 May 2003 Law on Joint Stock Companies. The revised Charter was approved by the FMSA on 13 May 2004.

The Bank's charter provides that the Bank shall have a Board of Directors, a supervisory management body, a Management Board, an executive body, and an internal audit division responsible for overseeing the financial control of the Bank's activities. The General Shareholders' Meeting represents the highest corporate governing authority of the Bank. The Law of Kazakhstan on Joint Stock Companies vests in the General Shareholders' Meeting the final approval of certain major corporate decisions, including the authorisation to issue the Notes.

The shareholders elect the members of the Board of Directors. The Board of Directors in turn elects the members of the Management Board. The Board of Directors represents the interests of shareholders and is responsible for the general management of the Bank and approves its strategic and operational plans. The Board of Directors does not perform executive functions. Overall responsibility for the administration of the Bank's activities is vested in the Management Board. In accordance with Kazakhstan legislation, the members of the Board of Directors and the Chairman and Deputy Chairmen of the Management Board are appointed only with the consent of the FMSA. The FMSA does not have a representative on the Board of Directors or the Management Board.

Board of Directors

The Board of Directors is not directly involved in management and has no authority to act on its own behalf or to perform any executive functions. The Board of Directors supervises the Management Board's activities to protect shareholders' interests. The authorities of the Board of Directors include defining the investment, credit and other policies of the Bank; nominating the Chairman and members of the Management Board; approving material contracts (major transactions); approving all loans to customers in excess of U.S.\$10 million; calling General Shareholders' Meetings and approving the Bank's budget.

The Board of Directors consists of eight members elected by the General Shareholders' Meeting. The current members of the Board of Directors are:

<u>Name</u>	<u>Position</u>
Bakhytbek R. Bayseitov	Chairman of the Board of Directors, President of LLP Financial Industrial Group Atameken
Jumageldi R. Amankulov	Advisor to the Chairman of the Board of Directors of the Bank
Kuanish D. Muldagaliyev	President of LLP ILM
Mirgali S. Kunayev	Vice-President of Caspian Services Group
Sergei A. Tereshenko	President of JSC International Fund Integration
Yerlik S. Sharipov	President of LLP Bel
Samat S. Chukubayev	Executive Director of Association Kazakhstan Australia, General Director of LLP Syrymbet
Vladislav S. Lee	Chairman of the Management Board of the Bank

All members of the Board of Directors were elected in April 2003 for a period of five years. The business address of the Board of Directors is the Bank's registered office.

Management Board

The Management Board is responsible for the day-to-day management and administration of the Bank activities. The Bank's Management Board has all executive powers, while the Board of Directors plays a supervisory role. The Bank's Management Board's responsibilities include making executive business decisions; implementing the Bank's business strategy; appointing senior management and branch representatives of the Bank; approving all loans and advances to customers between U.S.\$3 million and U.S.\$10 million; and dealing with all other matters not reserved to the Board of Directors or the General Meeting of Shareholders.

The name, age and certain other information about each of the current members of the Management Board are set out below:

Vladislav S. Lee (48), Chairman, graduated from the Almaty Institute of the National Economy in 1982 with a degree in Finance and Credit. He commenced his career in 1982 as Chief Economist of Economic Planning Division of the Kazakhstan State Bank of the former USSR. In 1988, Mr. Lee joined KazZhilSotsBank as Head of the Credit and Finance Division. In 1997 he moved to CJSC Zhilstroibank and took a position as First Deputy Chairman of the Board. He has been in his current position since June 1998.

Magaz N. Yerdessov (48), Deputy Chairman, graduated from Leningrad Institute of Finance and Economics in 1979 and worked as a Senior Economist in the Ministry of Finance of the former Kazakhstan Soviet Socialist Republic until 1991. From 1991 to 1993, he was Head of the Financial and International Division Department of Taim Bank. He also worked at Ilan Bank from 1993 to 1997, before joining Kazakhstan International Bank as Vice-President, a position he held until 2000. In March 2000, he became Deputy Chairman of the Bank.

Bulan A. Adilkhanov (47), Deputy Chairman, graduated from Kazakhstan Teachers' Training College in 1980. In 1996, he graduated from Kazakhstan State University of Management with a degree in Economics. He began working in 1983 as Chief Co-ordinator of the construction company AlmaAtaOblKolkhozStroy. In 1986, he joined the Ministry of Education as an adviser to the Minister. He joined the Bank in 1993 and has been in his current position since June 1997.

Medet I. Rakhimbayev (42), Deputy Chairman, graduated from Kazakhstan Polytechnics Institute in 1985. He also has an economics degree from Eurasian Institute of Market. He started to work as an Engineer of Technical Production at Corporation Granit; from 1991 to 1994, he worked as Head of IT at CenterBank. In 1995, Mr. Rakhimbayev became Head of the Payment Systems Division of the Bank and in January 1998 was appointed Deputy Chairman of the Bank.

Maksat K. Alzhanov (43), Deputy Chairman, graduated from Ust-Kamenogorsk Road Construction Institute in 1985. In 1996, he graduated from Kazakhstan State University of Management with a degree in Finance and Credit. From 1988 to 1994, he worked at the National Security Committee. He joined the Bank in 1994 and has been in his current position since December 1996.

The business address of each of the members of the Management Board is the Bank's registered office. There are no potential conflicts of interest between any duties of the managing directors towards the Bank and their private interests and/or other duties.

Internal Audit Division

The internal audit division oversees the financial control of the Bank's activities. Members of the internal audit division have the right to attend meetings of the Management Board and to participate in discussions. However, they do not have the right to vote at such meetings. The current Head of the internal audit division is Gulsara K. Besbayeva.

Management Remuneration

In accordance with the Bank's charter, the remuneration and compensation of the members of the Board of Directors and Management Board is determined by the shareholders of the Bank.

The following table sets out the principal amount of loans outstanding to members of the Board of Directors and the Management Board as at 30 September 2005:

Name	Principal amount outstanding <i>(KZT thousands)</i>
Bakhytbek R. Bayseitov.....	140,000
Bulan A. Adilkhanov.....	92,062
Maksat K. Alzhanov.....	63,842
Medet I. Rakhimbayev.....	126,172
Jumageldi R. Amankulov.....	115,000
Magaz N. Yerdessov.....	126,172
Vladislav S. Lee.....	107,000
Total	770,248

There are no other outstanding loans or guarantees granted by the Bank to any member of the Board of Directors or the Management Board, or to any parties related to them.

The aggregate direct shareholdings of the Bank's senior and middle management is 6.8 per cent. The following table sets out information on the direct ownership of common shares by the directors and senior and middle management of the Bank as at 31 December 2005:

Name	Shareholding per cent.
Bakhytbek R. Bayseitov.....	1.2
Sergei A. Tereshenko.....	0.4
Jumageldi R. Amankulov.....	1.0
Yerlik S. Sharipov.....	0.1
Vladislav S. Lee.....	1.0
Bulan A. Adilkhanov.....	0.7
Maksat K. Alzhanov.....	0.7
Medet I. Rakhimbayev.....	0.7
Magaz N. Yerdessov.....	1.0
Total	6.8

Principal Shareholders

The Bank's common shares are listed on the "A" List of the Kazakhstan Stock Exchange. The Bank has more than 700 shareholders. The following table sets out information as to all registered direct holders of more than 5 per cent. of the Bank's common shares as at 31 December 2005:

Name	Shareholding per cent.
JSC Non State Pension Fund BTA KURMET-KAZAKHSTAN.....	5.4
JSC Transkazkominvest.....	6.6
Others ⁽¹⁾	88.0
Total	100.0

(1) Management's consolidated direct shareholding of 6.6 per cent. is included in the Others category. Bakhytbek Bayseitov controls, in aggregate, 21.2 per cent. of the Bank's shares via affiliated entities, including LLP Financial Industrial Group Atameken, and his direct personal shareholding referred to in the previous table. A majority of shareholders have, historically, voted in conjunction with Mr. Bayseitov.

TRANSACTIONS WITH RELATED PARTIES

Related parties, defined in accordance with IAS 24, include entities and natural persons that are shareholders, affiliates or entities under common management or control of the Bank.

The following table sets forth the total outstanding related party transactions of the Bank as at the dates indicated:

	<u>As at 30 September 2005</u>		<u>As at 31 December 2004</u>		<u>As at 31 December 2003</u>	
	<u>Related party transactions</u>	<u>Total category as per financial statements caption</u>	<u>Related party transactions</u>	<u>Total category as per financial statements caption</u>	<u>Related party transactions</u>	<u>Total category as per financial statements caption</u>
	<i>(unaudited)</i>		<i>(KZT thousands)</i> <i>(audited)</i>		<i>(audited)</i>	
Loans to customers, gross	3,180,389	190,029,595	1,294,523	95,550,105	450,958	54,356,251
Allowance for impairment losses	(206,994)	(7,551,758)	(22,294)	(4,082,689)	(68,872)	(2,287,490)
Investments						
:available-for-sale	233,940	36,624,058	114,275	21,478,739	71,800	8,999,865

Customer accounts	367,862	127,909,761	338,626	91,367,688	—	47,705,089
Guarantees given	9,353	21,358,727	5,040	9,062,886	5,913	3,907,898

Included in interest income and expense for the nine months ended 30 September 2005 and 2004 are the following amounts arising from transactions with related parties:

	<u>As at 30 September 2005</u>		<u>As at 30 September 2004</u>	
	<u>Related party transactions</u>	<u>Total category as per financial statements caption</u>	<u>Related party transactions</u>	<u>Total category as per financial statements caption</u>
		<i>(KZT thousands)</i> <i>(unaudited)</i>		
Interest income		17,216,823		8,989,114
related companies	153,598		38,047	
directors	22,075		7,570	
Interest expense		(9,491,624)		(4,343,847)
related companies	(5,576)		(21,192)	

Transactions with related parties entered by the Group during the nine months ended 30 September 2005 and 2004 and outstanding as at 30 September 2005 and 2004 were made in the normal course of business and under arms-length conditions.

THE BANKING SECTOR IN KAZAKHSTAN

Introduction

Since mid-1994, Kazakhstan has adhered to a strict macro-economic stabilisation programme, combining tight budgetary discipline, stringent monetary policy and structural economic reforms, which has sharply reduced inflation and lowered interest rates.

The Government and the NBK have also undertaken significant structural reforms in the banking sector, aimed at promoting consolidation and improving the overall viability of the system.

The National Bank of Kazakhstan and the FMSA

The NBK is the central bank of Kazakhstan and although it is an independent institution, it is subordinate to the President. The President has the power, among other things, to appoint (with the approval of Parliament) and remove the NBK's Governor, to appoint and remove the NBK's Deputy Governors, to confirm the annual report of the NBK on the recommendation of the Governor, to confirm the concept and design of the national currency, and to request information from the NBK. Anvar Saydenov was appointed Governor of the NBK in 2004.

The principal governing bodies of the NBK are the Executive Board and the Board of Directors. The Executive Board, the highest governing body of the NBK, consists of nine members, including the Governor, five other representatives of the NBK, a representative of the President and two representatives of the Government.

Currently, the principal task of the NBK is to ensure price stability in Kazakhstan. The NBK is also empowered to develop and conduct monetary policy, organise banking settlement systems, conduct currency regulation and control, assist in ensuring stability of the financial system and protect the interests of depositors with commercial banks. Following legislative changes in July 2003, the FMSA was formed and, on 1 January 2004, took responsibility for most of the supervisory and regulatory functions in the financial sector, which were previously performed by the NBK.

The FMSA is an independent institution reporting directly to the President. The President appointed Arman Dunayev, former Minister of Finance of Kazakhstan, as the Chairman of the FMSA in January 2006.

The principal task of the FMSA is to regulate and supervise Kazakhstan's financial markets and financial institutions, including banks, insurance companies, pension funds and pension asset management companies, as well as professional participants of the securities market. The FMSA is empowered, among other things, to license financial institutions, to approve prudential standards for them, to approve, jointly with the NBK, the scope of financial reporting for financial institutions and to monitor the activities of, to apply sanctions where necessary to, and to participate in the liquidation of, financial institutions.

Banking

Structure of the Banking System of Kazakhstan

Kazakhstan has a two-tier banking system, with the NBK comprising the first tier and all other commercial banks comprising the second tier. Generally, all credit institutions in Kazakhstan are required to be licensed and regulated by the FMSA, or prior to 2004, by the NBK.

Banking Reform and Supervision

Reform of the banking sector started in 1995 with the introduction of international prudential standards, including capital adequacy requirements and liquidity ratios to regulate and protect the banking system, transparency requirements as to the auditing of banks by local and international auditors, harmonisation of local accounting practices to IFRS, and personnel training programmes.

In addition, to strengthen the banking industry, promote stability and move towards internationally accepted practices, the NBK required commercial banks to adopt recapitalisation and corporate enhancement plans with the aim of enhancing their ability to attract long-term, private investors. In 2000, guidelines were established for bank inspections and for periodic reporting by commercial banks to the NBK, now the FMSA. In 2003, all banks were requested to develop and install internal risk management systems.

The FMSA monitors compliance with capital adequacy standards (in compliance with international standards set by the Basel Committee), current liquidity ratios, maximum credit exposures to single borrowers and related parties, maximum investments in fixed and other non-financial assets and limits on contingent obligations and foreign exchange positions. Additionally, the FMSA applies regulations on problem asset classification and contingent obligations (similar to the World Bank's Guidelines for Asset Classifications) and loan loss reserves.

The objective of these reforms was to bring supervisory practices closer to international standards to allow for a more transparent view of banks' levels of capitalisation and exposure to financial risks.

The FMSA, which currently includes what was the NBK's Banking Supervision Department, will continue to focus on ensuring financial solvency and protection of depositors while encouraging banks to diversify their activities in the financial services sector (for example, by managing pension and investment funds and establishing leasing and insurance companies).

In September 1995, the NBK introduced international prudential standards such as capital adequacy requirements and liquidity ratios to regulate and protect the banking system. On 3 June 2002, the NBK adopted a resolution, "On approval of rules on prudential norms for the second tier banks", which was amended by the NBK in November 2002, March 2003 and May 2003, and by the Association of Kazakhstan Financiers in February 2004 and June 2004. The resolution set limits and rules for calculating capital adequacy, single party exposure, liquidity ratios and open currency positions amongst other matters. Currently, the approval of prudential rules as well as supervision of their fulfilment is the responsibility of the FMSA.

The NBK also works closely with the FMSA and the banks to enhance the overall viability and solvency of the banking system.

In December 1999, a self-funded domestic deposit insurance scheme was established and as at 30 June 2005, 34 banks, including subsidiaries of foreign banks and the Bank, were covered by the scheme. The insurance coverage is presently limited to personal time deposits in any currency and current accounts and operates on a sliding scale of coverage up to a maximum amount per customer at any given bank. As of 2004, only banks participating in the deposit insurance scheme are authorised to open accounts and take deposits from private individuals.

Current legislation requires the FMSA to approve any acquisition of a shareholding of 10 per cent. or more (whether held independently or jointly with another legal entity) in a Kazakhstan bank. Furthermore, a foreign entity holding 10 per cent. or more of a Kazakhstan bank must have a credit rating at least equal to that of the Republic of Kazakhstan.

On 22 November 2005, new regulations regarding regulatory capital and risk management came into effect in Kazakhstan. These regulations represent a substantial step towards the implementation of the Basel II accord. In particular, the new regulations introduce the concepts of hybrid capital eligible to be included in Tier I and Tier II capital, Tier III capital (qualified subordinated debt) and operational and market risks, and include rules for calculating risk with respect to derivatives. Further, the new regulations establish reduced capital adequacy ratios for banks one of whose shareholders is a bank holding company. Such reduced rates are 5 per cent. for the K1 ratio (compared to a generally applicable ratio of 6 per cent.) and 10 per cent. for the K2 ratio (compared to a generally applicable ratio of 12 per cent.). A bank holding company is an entity, whether domestic or foreign, that owns more than 25 per cent. of the voting shares of a Kazakh bank and has received the FMSA's permission to be a bank holding company. Separately, the FMSA introduced more stringent requirements for internal risk management and supervision on a consolidated basis (for banks and bank holding companies).

Commercial Banks

According to the NBK, as at 31 October 2005, there were 34 banks in Kazakhstan, excluding the DBK and NBK, compared to 44 as at the end of 2001 and 184 in mid-1994. This decrease is largely a result of the NBK's stringent policy towards increased capitalisation and liquidity of the banking system. The general reduction in the number of banks has largely been at the expense of small- and medium-sized banks.

In November 2001, the Government divested its remaining 33 per cent. stake in Halyk Savings Bank, by means of privatisation through a public auction. In February 2004, the entire share capital of EximBank Kazakhstan, formerly a state-owned bank, was sold by tender to a consortium of 11 members for KZT 2.1 billion. In June 2005, the banking licence granted to JSC Nauryz Bank was terminated by the FMSA, and

currently JSC Nauryz Bank is in the process of liquidation as required by a court ruling in November 2005. On 24 December 2005, the FMSA adopted a resolution to suspend the banking licence granted to JSC Industrial Bank of Kazakhstan for six months due to violations of prudential standards.

As of 30 June 2005, all of the commercial banks licensed in Kazakhstan were in compliance with prudential regulatory requirements as to capital adequacy, single borrower limits, liquidity ratios, foreign currency limits and reserve requirements.

The financial standing of Kazakhstan's banks varies. As at 31 October 2005, 18 of the 34 commercial banks (excluding DBK) had registered capital of over KZT2 billion, 15 banks had registered capital of KZT1 billion to KZT2 billion and one bank had registered capital of KZT500 million to KZT1 billion. There are no banks with registered capital of less than KZT500 million; any bank whose capital falls below that level is required to apply to the FMSA for voluntary reorganisation into an organisation performing only limited banking operations.

Kazkommertsbank was established in July 1990 and is the largest bank in Kazakhstan in terms of assets and shareholders' equity, with a focus on the corporate and retail banking sectors. As at 30 September 2004, Kazkommertsbank had 96 branches and retail outlets, a subsidiary in Kyrgyzstan, a representative office in London and exercised control over a Moscow bank. Kazkommertsbank is part of a group which includes a number of banks, joint ventures and investment companies and has a number of substantial investments in industrial companies.

Bank TuranAlem resulted from a merger initiated by the Government of Kazakhstan between two state-owned banks, Turan Bank and Alem Bank, in April 1997. The Government's interest in TuranAlem was sold by auction in March 1998 for U.S.\$72 million to a group of investors from Kazakhstan. As at 30 June 2005, TuranAlem was the second largest private bank by assets and in terms of equity in Kazakhstan after Kazkommertsbank.

The extensive branch network of Halyk Savings Bank (526 retail outlets as at 30 September 2004) makes it one of the Bank's major competitors in the retail banking market. As at 30 September 2003, Halyk Savings Bank was the third largest bank in Kazakhstan in terms of total assets and is also a leading participant in the primary domestic securities market.

In 2001, the Government established the DBK to provide medium- and long-term financing and otherwise facilitate industrial projects in Kazakhstan. DBK was established with a charter fund of KZT30 billion. Within the commercial banking sector, DBK is not considered a competitor of the Bank as it is not licensed to accept commercial or retail deposits or to provide corporate settlement services. The Bank expects that DBK may become an important competitor in the corporate lending sector. The DBK is not treated as a commercial bank for the purposes of market share data and ranking in this Prospectus.

Whilst foreign-owned banks do not currently provide significant domestic competition and are not active in the retail banking sector, the Bank believes that such banks, some of which may have significantly greater resources and a cheaper funding base than the Bank, will, together with the larger local banks, become the Bank's primary long-term competitors in the corporate banking sector. Foreign banks also bring international experience in servicing customers and target the best corporate customers of the Kazakhstan banks as well as foreign companies operating in Kazakhstan.

Citibank Kazakhstan was established in 1998 and has been aggressively increasing its market share in corporate banking. Citibank Kazakhstan is expected to be a major long-term competitor of the Bank, particularly with respect to lending.

ABN Amro Bank Kazakhstan is the second largest bank under foreign ownership in terms of equity. The Bank believes that ABN Amro Kazakhstan will be a major competitor of the Bank's in the future, particularly with respect to corporate banking and capital markets activities.

Foreign Capital in the Banking Sector

The liberalisation of the economy in Kazakhstan in recent years has resulted in a number of foreign companies, including banks, establishing operations in Kazakhstan through direct investment and otherwise participating in the banking and financial services sector. A foreign bank may not open a branch in Kazakhstan. Accordingly, foreign banks must establish a Kazakhstan subsidiary or joint venture in order to operate as a bank in Kazakhstan.

As at 31 October 2005, there were 14 banks with foreign participation operating in Kazakhstan, including ABN Amro Bank Kazakhstan, Citibank Kazakhstan and HSBC Kazakhstan. Under relevant legislation,

“a bank with foreign participation” is defined as a bank with more than one-third foreign ownership. Banks with less than one-third foreign ownership are considered domestic banks.

A number of foreign banks have opened representative offices in Kazakhstan, including Dresdner Bank AG, Deutsche Bank AG, American Express Bank Ltd., Commerzbank AG, Citibank N.A., ING Bank N.V., Bankgesellschaft Berlin and Société Générale.

Industry Trends

According to the NBK, the total capital of commercial banks increased 44.9 per cent. in 2003, 62.4 per cent. in 2004 and, as at 1 January 2005, amounted to approximately U.S.\$2.1 billion. During such period, the total assets of such banks increased by 77.7 per cent. and, as at 1 January 2005, amounted to approximately U.S.\$20.7 billion. In 2004, the aggregate liabilities of such banks increased by 79.6 per cent. and amounted to approximately U.S.\$18.6 billion as at 1 January 2005 and their aggregate net income increased 38.6 per cent. The share of total assets of the second-tier banks in Kazakhstan's GDP as at 31 December 2004 amounted to 48.5 per cent. as compared to 37.7 per cent at the end of 2003. As at 31 October 2005, the total capital of commercial banks amounted to approximately U.S.\$3.6 billion, the total assets of such banks amounted to U.S.\$28.9 billion, the aggregate liabilities of such banks amounted to U.S.\$25.9 billion and the aggregate net income of such banks amounted to U.S.\$464.0 million.

TAXATION

The following is a general description of certain tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Prospectus and is subject to any change in law that may take effect after such date.

Kazakhstan Taxation

Under Kazakhstan law as presently in effect, payments of principal or interest on the Notes to an individual who is a non-resident of Kazakhstan or to a legal entity that is neither established in accordance with the legislation of Kazakhstan, nor has its actual governing body (place of actual management) in, nor maintains a permanent establishment in, Kazakhstan or otherwise has no taxable presence in Kazakhstan (together, "Non-Kazakhstan Holders") will not be subject to taxation in Kazakhstan, and no withholding of any Kazakhstan tax will be required on any such payments. In addition, gains realised by Non-Kazakhstan Holders derived from the disposal, sale, exchange or transfer of the Notes will not be subject to Kazakhstan income or profits tax.

Payments of interest from the Bank to the Issuer to fund the Issuer's obligations to make payments under the Notes will be subject to Kazakhstan withholding tax at a rate of 15 per cent. Such withholding tax may be reduced under the Kazakhstan-Netherlands Tax Treaty to a rate of 10 per cent., although there can be no assurance that such relief will be obtained.

Payments of interest to Non-Kazakhstan Holders under the Guarantee will be subject to withholding of Kazakhstan tax at a rate of 15 per cent. and payment of fees and commissions will be subject to withholding of Kazakhstan tax at a rate of 20 per cent., unless reduced by an applicable double taxation treaty. The Bank will agree in the Trust Deed and the Guarantee to pay additional amounts (as defined in the Trust Deed) in respect of any such withholding, subject to certain exceptions set out in full in Condition 9 (*Taxation*). See "Terms and Conditions of the Notes". Payments, if any, under the Guarantee to a Noteholder entitled to the benefits of a Kazakhstan tax treaty may be subject to a reduced rate of withholding tax.

The Netherlands Taxation

General

The following is a general summary of the Dutch tax consequences as at the date hereof in relation to payments made under Notes and in relation to the acquisition, holding or disposal of Notes. This summary does not purport to describe all possible tax considerations or consequences that may be relevant to a holder of a Note or a prospective holder and in view of its general nature, it should be treated with corresponding caution. Holders should consult their tax advisers with regard to the tax consequences of investing in Notes. Except as otherwise indicated, this summary only addresses The Netherlands tax legislation as in effect at the date hereof and as interpreted in published case law until this date.

This summary does not describe The Netherlands tax considerations for holders, who have a substantial interest ("*aanmerkelijk belang*") in the Issuer. In general, a holder of a Note is considered to have a substantial interest in the Issuer, if he, alone or together with his partner (a statutorily defined term) or certain other related persons, directly or indirectly, has (i) an interest of 5 per cent. or more of the total issued capital of the Issuer or of 5 per cent. or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in the Issuer.

Withholding tax

All payments made by the Issuer under Notes can be made free of withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, provided that none of the payments under Notes will depend on or will be deemed to depend on the profits or distribution of the profits by the Issuer or an affiliated party (a statutorily defined term).

Corporate Income Tax and Individual Income Tax

Residents of The Netherlands

If the holder of a Note is a resident or deemed to be resident of The Netherlands for Dutch corporate income tax purposes, income derived from Notes held by it and gains realised upon the disposal of Notes held by it are subject to a 29.6 per cent. corporate income tax rate (a corporate income rate of 25.5 per cent. applies with respect to taxable profits up to €22,689).

If the holder of a Note is an individual, resident or deemed to be resident of The Netherlands for Dutch income tax purposes (including the non resident individual holder who has made an election for the application of the rules of the Dutch Income Tax Act 2001 as they apply to residents of The Netherlands), the income derived from Notes held by it and the gains realised upon the disposal of Notes held by it are taxable at the progressive income tax rates (with a maximum of 52 per cent.), if:

- (i) the holder has an enterprise or an interest in an enterprise, to which enterprise the Notes are attributable; or
- (ii) the holder is considered to perform activities with respect to the Notes that exceed regular asset management (“*normaal vermogensbeheer*”).

If the abovementioned conditions (i) or (ii) do not apply to the individual holder of a Note, such holder will be taxed annually on a notional income of 4 per cent. of the net average value of the Notes held by it at a flat rate of 30 per cent. (effective rate of 1.2 per cent.), regardless of whether any interest is received or any capital gains are actually realised. The individual holder of a Note will only be subject to the above income tax in so far as certain thresholds are exceeded.

Non-residents of The Netherlands

A holder of a Note who derives income from a Note or who realises a gain on the disposal or deemed disposal of a Note will not be subject to Netherlands taxation on income or capital gains, provided that:

- (i) such holder is neither resident nor deemed to be resident in The Netherlands nor, in case of an individual, has made an election for the application of the rules of the Dutch Income Tax Act 2001 as they apply to residents of The Netherlands; and
- (ii) such holder does not have and is not deemed to have an enterprise or an interest in an enterprise which is, in whole or in part, carried on through a permanent establishment or a permanent representative in The Netherlands and to which enterprise or part of an enterprise the Notes are attributable; and
- (iii) in the event the holder is an individual, such holder does not carry out any other activities in The Netherlands that exceed regular asset management; and
- (iv) such holder does not have an interest in an enterprise in The Netherlands other than by way of securities.

A holder of a Note will not become subject to taxation in The Netherlands by reason only of the execution, delivery and /or enforcement of the Notes or the performance by the Issuer of its obligations under the Notes.

Gift, Estate or Inheritance Taxes

Dutch gift, estate or inheritance taxes will not be levied on the occasion of the acquisition of a Note by way of gift by, or on the death of, a holder of a Note, unless:

- (i) the holder is, or is deemed to be, resident in The Netherlands; or
- (ii) such holder at the time of the gift has or at the time of his/her death had an enterprise or an interest in an enterprise that is or was, in whole or in part, carried on through a permanent establishment or a permanent representative in The Netherlands and to which enterprise or part of an enterprise the Notes are or were attributable; or
- (iii) in the case of a gift of a Note by an individual who at the date of the gift was neither resident nor deemed to be resident in The Netherlands, such individual dies within 180 days after the date of the gift, while being resident or deemed to be resident in The Netherlands.

For purposes of Dutch gift and inheritance tax, an individual who holds Dutch nationality will be deemed to be resident in The Netherlands, if he/she has been resident in The Netherlands at any time during the 10 years preceding the date of the gift or his/her death.

For purposes of Dutch gift tax, an individual not holding Dutch nationality will be deemed to be resident in The Netherlands, if he/she has been resident in The Netherlands at any time during the twelve months preceding the date of the gift.

Other Taxes and Duties

There is no Dutch registration tax, capital tax, stamp duty or any other similar tax or duty other than court fees and contributions for the registration with the Trade Register of the Chamber of Commerce, payable by a holder of a Note in The Netherlands in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including the enforcement of any foreign judgment in the courts of The Netherlands) of the Notes or the performance of the Issuer's obligations under the Notes.

There is no Dutch value added tax payable in respect of payments in consideration for the issue of the Notes, in respect of the payment of interest or principal under the Notes or the transfer of the Notes.

EU Directive on the Taxation of Savings Income

On 3 June 2003, the European Council of Economics and Finance Ministers adopted a Directive (2003/48/EC) on the taxation of savings income. From 1 July 2005, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State. However, for a transitional period, Belgium, Luxembourg and Austria (unless during that period they elect otherwise) are operating a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries).

A number of countries and territories, including Switzerland, have adopted similar measures (a withholding system in the case of Switzerland) with effect from the same date.

SUBSCRIPTION AND SALE

Citigroup Global Markets Limited and ING Bank N.V., London Branch (together, the “Managers”) have, in a subscription agreement dated 30 January 2006 (the “Subscription Agreement”) and made between the Issuer, the Bank and the Managers upon the terms and subject to the conditions contained therein, agreed to subscribe and pay for the Notes at their issue price of 99.495 per cent. of their principal amount less a combined management, underwriting and selling commission of 0.55 per cent. of their principal amount. The Issuer and the Bank have also agreed to reimburse the Managers for certain of their expenses incurred in connection with the management of the issue of the Notes. The Managers are entitled in certain circumstances to be released and discharged from its obligations under the Subscription Agreement prior to the closing of the issue of the Notes.

United States

The Notes have not been, and will not be, registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code and regulations thereunder.

Each of the Managers has agreed that, except as permitted by the Subscription Agreement, it will not offer, sell or deliver the Notes, (a) as part of their distribution at any time or (b) otherwise, until 40 days after the later of the commencement of the offering and the issue date of the Notes, within the United States or to, or for the account or benefit of, U.S. persons, and that it will have sent to each dealer to which it sells Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering, an offer or sale of Notes within the United States by any dealer whether or not participating in the offering may violate the registration requirements of the Securities Act.

United Kingdom

Each of the Managers has represented and agreed that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (the “FSMA”)) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA does not apply to the Issuer or the Bank; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom.

Republic of Kazakhstan

Each of the Managers has agreed that it will not, directly or indirectly, offer for subscription or purchase or issue invitations to subscribe for or buy or sell the Notes or distribute any draft or definitive document in relation to any such offer, invitation or sale in Kazakhstan except in compliance with the laws of Kazakhstan.

Hong Kong

This Prospectus has not been approved by the Securities and Futures Commission of Hong Kong nor has a copy of it been registered by the Registrar of Companies in Hong Kong.

Accordingly, each of the Managers has represented and agreed that:

- (i) it has not offered or sold and will not offer or sell in the Hong Kong Special Administrative Region of the People's Republic of China ("Hong Kong"), by means of this Prospectus or any other document, any Notes other than (a) to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or (b) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Chapter 32 of the Laws of Hong Kong); and
- (ii) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, any advertisement, invitation or document relating to the Notes in Hong Kong (except to the extent if permitted under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" (as defined in the Securities and Futures Ordinance, Chapter 571 of the Laws of Hong Kong).

Singapore

This Prospectus has not been and will not be registered as a prospectus with the Monetary Authority of Singapore. Accordingly, the Notes may not be offered or sold or be subject to an invitation for subscription or purchase, nor may this Prospectus or any other offering document or material relating to the Notes be circulated or distributed, directly or indirectly, to the public or any member of the public in Singapore other than (i) to an institutional investor or other person specified in Section 274 of the Securities and Futures Act (Chapter 289), (ii) to a sophisticated investor as defined in Section 275 of the Securities and Futures Act, and in accordance with the conditions specified in Section 275 of the Securities and Futures Act or (iii) otherwise pursuant to, and in accordance with the conditions of, any other provision of the Securities and Futures Act.

Russian Federation

Each of the Managers has represented and agreed that it has not offered and sold or otherwise transferred and will not offer or sell or otherwise transfer as part of their initial distribution or at any time thereafter any Notes to or for the benefit of any person (including legal entities) resident, incorporated, established or having their usual residence in the Russian Federation or to any person located within the territory of the Russian Federation, unless to the extent otherwise permitted by Russian law.

General

No action has been or will be taken in any jurisdiction by the Issuer, the Bank or by any of the Managers that would, or is intended to, permit a public offering of the Notes, or possession or distribution of this Prospectus or any other offering material, in any country or jurisdiction where action for that purpose is required. Persons into whose hands this Prospectus comes are required by the Issuer, the Bank and the Managers to comply with all applicable laws and regulations in each country or jurisdiction in which they purchase, offer, sell or deliver Notes or have in their possession, distribute or publish this Prospectus or any other offering material relating to the Notes, in all cases at their own expense.

GENERAL INFORMATION

1. Application has been made to the UK Listing Authority for the Notes to be admitted to the Official List of the London Stock Exchange for such Notes to be admitted to trading on the London Stock Exchange's Gilt Edged and Fixed Interest Market.
2. The Notes have been accepted for clearance through the Euroclear Operator and Clearstream, Luxembourg. The common code is 024301044 and the International Securities Identification Number is XS0243010443.
3. The Issuer and the Bank have obtained all necessary consents, approvals and authorisations in connection with the issue, offer and sale of, and the performance of, the Notes and in connection with the giving and performance of the Guarantee.
4. The creation and issue of the Notes was authorised by resolution of a duly authorised meeting of the Managing Board of the Issuer dated 27 January 2006 and by a resolution of the General Shareholders' Meeting of the Issuer held on 27 January 2006.
5. The Guarantee was authorised by the Bank by a decision of its Board of Directors on 5 January 2006.
6. Since 31 December 2004 (and in respect of the Issuer, 4 January 2006), there have been no governmental, legal or arbitration proceedings against the Issuer, the Bank or the Bank's subsidiaries which may have, or have had in the recent past, significant effects on any of their respective financial positions or profitability, nor is the Issuer or the Bank aware of any pending or threatened proceedings of such kind.
7. Save as disclosed in the footnotes to the capitalisation table appearing on page 41 of this Prospectus, since 31 December 2004, there has been (a) no significant change in the financial or trading position of the Bank and its subsidiaries taken as a whole and (b) no material adverse change, or any development reasonably likely to involve an adverse change, in the condition (financial or otherwise) or general affairs of the Bank or the Bank's subsidiaries that is material in the context of the issue of the Notes and the giving of the Guarantee.
8. Since 4 January 2006, there has been (a) no significant change in the financial or trading position of the Issuer and (b) no material adverse change, or any development reasonably likely to involve an adverse change, in the condition (financial or otherwise) or general affairs of the Issuer that is material in the context of the issue of the Notes and the giving of the Guarantee.
9. For so long as any of the Notes is outstanding, copies of the following documents may be inspected during normal business hours at the Specified Office of the Principal Paying and Transfer Agent, namely:
 - (a) the Trust Deed (which contains the forms of the Notes in global and definitive form); and
 - (b) the Paying Agency Agreement.
10. For so long as any Notes shall be outstanding, copies and, where appropriate, English translations of the following documents may be obtained during normal business hours at the Specified Office of the Principal Paying and Transfer Agent, namely:
 - (a) the audited consolidated financial statements of the Bank for the years ended 31 December 2004 and 2003, prepared in accordance with IFRS;
 - (b) the unaudited interim condensed consolidated financial statements of the Bank for the nine months ended 30 September 2005, prepared in accordance with IFRS;
 - (c) the latest publicly available audited consolidated annual and unaudited interim financial statements (if any) of the Bank, prepared in accordance with IFRS and
 - (d) the constitutional documents of the Issuer and the Guarantor.

The Bank does not publish unconsolidated financial statements prepared in accordance with IFRS. The Bank is not required to publish interim financial statements in accordance with IFRS, although solely for the purpose of the issue of the Notes, the Bank published the financial statements referred to in paragraph (b) above. The Bank does not intend to publish interim financial statements in the future, although to the extent that it does, such interim financial statements will be made available at the specified office of the Principal Paying and Transfer Agent.

INDEPENDENT AUDITORS' REPORT

To the Shareholders and Board of Directors of JSC Bank CenterCredit:

We have audited the accompanying consolidated balance sheets of JSC Bank CenterCredit and its subsidiaries (the "Group") as of 31 December 2004 and 2003 and the related consolidated profit and loss accounts and statements of cash flows and changes in equity for the years then ended. These consolidated financial statements are the responsibility of the Group's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with International Standards on Auditing. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of 31 December 2004 and 2003, and the consolidated results of its operations and its cash flows for the years then ended, in accordance with International Financial Reporting Standards.

As discussed in Note 33, the accompanying 2004 and 2003 consolidated financial statements have been retroactively restated for change in the Group's method of accounting for investments available-for-sale to conform to the revised IAS 39 "Financial Instruments: Recognition and Measurement".

Felicitte & Touche

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

1. ORGANISATION

JSC Bank CenterCredit (the “Bank”) is a joint-stock bank, which was incorporated in the Republic of Kazakhstan and started its operations in 1988. The Bank is regulated by the National Bank of the Republic of Kazakhstan (the “NBRK”) and conducts its business under license number 248 dated 9 June 2004 given by the Agency of the Republic of Kazakhstan on financial market and financial institutions regulation and inspectorate. The Bank’s primary business consists of commercial banking activities, trading with securities, loans, foreign currencies and derivative instruments, originating loans and guarantees.

The address of its registered office is as follows: 100, Shevchenko Street, Almaty, Kazakhstan.

The Bank has 19 branches in the Republic of Kazakhstan.

The Bank is a parent company of the Banking Group (the “Group”), consisting of the following subsidiaries, which are consolidated in the financial statements as of 31 December 2004 and 2003:

Name	Country of operation	The Bank ownership interest		Type of operation
		2004	2003	
Capital	Republic of Kazakhstan	85%	50%	Pension Fund
Center Leasing	Republic of Kazakhstan	100%	100%	Finance lease of property
KIB ASSET MANAGEMENT	Republic of Kazakhstan	100%	100%	Securities trading

Capital was established as a closed joint stock company on 15 October 2001 in accordance with legislation of the Republic of Kazakhstan. On 24 December 2003 Capital was reregistered as a joint stock company, with certificate of state reregistration #43348 1910-AO. The main activity of the company is the attraction of pension contributions and performance of pension payments. Capital manages pension contributions inflow and accumulation on individual pension accounts in accordance with the requirements of legislative authorities of the Republic of Kazakhstan. Capital has a state general license # 0000021 for the attraction of pension funds and performance of pension payments, dated 19 January 2004.

CenterLeasing was established on 15 January 2002 as a limited liability partnership in accordance with legislation of the Republic of Kazakhstan, with certificate of state registration #45222-1910 -TOO. The main activity of CenterLeasing is leasing operations. In accordance with article 10 of the Law of the Republic of Kazakhstan «Financial leases» CenterLeasing operates without a licence.

KIB ASSET MANAGEMENT was established on 7 May 1998 as a limited liability partnership in accordance with legislation of the Republic of Kazakhstan. On 18 June 2003 KIB ASSET MANAGEMENT was reregistered as a joint stock company, certificate of state reregistration #56185 -1910 -AO. The main activity of KIB ASSET MANAGEMENT is operations with securities. The Company has a license # 20030154 dated 5 June 1998 for brokerage and dealer activity on the Kazakhstan stock exchange with the right to maintain customer accounts as a nominal holder.

The Bank does not own any shares in “BCC” LLP and “Aktas-Zhol” LLP, but they are consolidated in the Group’s financial statements as special purpose entities (the “SPEs”).

Aktas Zhol was established on 3 April 2001 as a limited liability partnership in accordance with legislation of the Republic of Kazakhstan, certificate of state registration #7802-1907-TOO. The main activities of Aktas Zhol are production of construction materials and the rent of buildings. Aktas Zhol has a license for the production of construction materials # 006377-GSL, dated 16 August 2001.

BCC was established on 22 December 1998 as a limited liability partnership in accordance with legislation of the Republic of Kazakhstan, certificate of state registration # 23270-1910-TOO. The main activity of BCC is the rent of buildings and property valuation. BCC has a license for real estate valuation # 0000098 UL-001, dated 14 February 2002.

The number of employees of the Group at 31 December 2004 and 2003 was 2,106 and 1,746, respectively.

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

As of 31 December 2004, the following shareholders owned more than 5% of the outstanding shares.

<u>Shareholder</u>	<u>%</u>
JSC KIB ASSET MANAGEMENT (PORTFOLIO MANAGER)	6.58
JSC Interexport	6.30
JSC «NPF Kazakhmys»	6.11
JSC NPF «Valut-Transit Fund»	5.91
JSC NPF Senim	5.81
Dorra LLC	5.55
Canterbury Valley LTD	5.51
Other (each individually holding less than 5%)	58.23
Total	100.00

These consolidated financial statements were authorized for issue by the Board of Directors on 18 February 2005.

2. BASIS OF PRESENTATION

Accounting basis

These consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (“IFRS”). These consolidated financial statements are presented in thousands of Kazakhstani Tenge (“KZT”), except for earning per share amounts and unless otherwise indicated. These consolidated financial statements are prepared on an accrual basis under the historical cost convention modified for the measurement at fair value of available-for-sale investment securities and financial assets and financial liabilities held for trading.

The Group maintains its accounting records in accordance with the Accounting policy authorized by the Resolution of the Board of Directors of the Group. These consolidated financial statements have been prepared from the statutory accounting records and have been adjusted to conform to IFRS.

The preparation of the consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates that are particularly susceptible to change relate to the provisions for losses on loans and impairment and the fair value of financial instruments.

Functional currency

The functional currency of these financial statements is Kazakhstan tenge (“KZT”).

Adoption of amended IAS 39

According to IAS 39 “Financial Instruments: Recognition and Measurement” (applied for annual periods beginning on or after 1 January 2005) unrealized gains or losses on investments available - for - sale are recognized directly in equity except for impairment losses and foreign exchange gains and losses. Furthermore, this Standard is applied retrospectively. Therefore the opening balances of equity as of 31 December 2002, the profit and loss account for the years ended 31 December 2004 and 2003 and the respective comparative information presented in these consolidated financial statements were restated by the Group as if this Standard had always been in use. The effect of the adoption of amended IAS 39 is disclosed in Note 33 and in the statement of changes in equity.

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Bank and its subsidiaries made up to 31 December each year. The entity is consolidated, when the Bank has the power to govern

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

the financial and operating policies of an investee entity so as to obtain benefits from its activities. Consolidated financial statements also include statements of SPEs.

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired (i.e. discount on acquisition) is credited to profit and loss in the period of acquisition. The interest of minority shareholders is stated at the minority's proportion of the fair values of the assets and liabilities recognised. Subsequently, any losses applicable to the minority interest in excess of the minority interest are allocated against the interests of the parent.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated profit and loss account from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of consolidated entities to bring the accounting policies used into line with those used by the Group.

All significant intercompany transactions and balances have been eliminated. The ownership interest of JSC Bank CenterCredit and proportion of voting power of the Group in the significant subsidiaries as of 31 December 2004 and 2003 is presented in Note 1.

Recognition and measurement of financial instruments

The Group recognizes financial assets and liabilities on its consolidated balance sheet when, and only when, it becomes a party to the contractual provisions of the instrument. Regular way purchase and sale of the financial assets and liabilities are recognized using settlement date accounting. For regular way purchases of financial instruments that will be subsequently measured at fair value between trade date and settlement date is accounted for in the same way as for acquired instruments.

Financial assets and liabilities are initially recognized at fair value plus, in the case of a financial asset or financial liability not at fair value through profit or loss transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. The accounting policies for subsequent re-measurement of these items are disclosed in the respective accounting policies set out below.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, unrestricted balances on correspondent accounts with the NBRK and central banks of other countries and advances to banks in countries included in the Organization for Economic Co-operation and Development ("OECD").

Precious metals

Assets and liabilities denominated in precious metals are translated at the current rate computed based on the fixing of the London Bullion Market rates using the Tenge/USD exchange rate effective at the date. Changes in the bid prices are recorded in other income.

Loans and advances to banks

In the normal course of business, the Group maintains advances or deposits for various periods of time with other banks. Loans and advances to banks with a fixed maturity term are subsequently measured at amortized cost using the effective interest method. Those that do not have fixed maturities are carried at cost. Amounts due from credit institutions are carried net of any allowance for impairment losses.

Assets held-for-trading

Assets held-for-trading represent debt securities held-for-trading that are acquired principally for the purpose of generating a profit from short-term fluctuations in price or dealer's margin. Assets held-for-trading are initially recorded at cost which approximates fair value of the consideration given and

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

subsequently measured at fair value. The Group uses quoted market prices to determine fair value for the Group's securities held-for-trading. When reliable market prices are not available or if liquidating the Group's position would reasonably be expected to impact market prices, fair value is determined by reference to price quotations for similar instruments traded in different markets or management's estimates of the amounts that can be realized from an orderly disposition over a period of time, assuming current market conditions. Fair value adjustment on assets held-for-trading is recognized in profit and loss for the period.

Repurchase and reverse repurchase agreements

The Group enters into sale and purchase back agreements ("repos") and purchase and sale back agreements ("reverse repos") in the normal course of its business. Repos and reverse repos are utilized by the Group as an element of its treasury management and trading business.

A repo is an agreement to transfer a financial asset to another party in exchange for cash or other consideration and a concurrent obligation to reacquire the financial assets at a future date for an amount equal to the cash or other consideration exchanged plus interest. These agreements are accounted for as financing transactions. Financial assets sold under repo are retained in the consolidated financial statements and consideration received under these agreements is recorded as collateralized deposit received.

Assets purchased under reverse repos are recorded in the consolidated financial statements as cash placed on deposit which is collateralized by securities and other assets.

In the event that assets purchased under reverse repo are sold to third parties, the results are recorded with the gain or loss included in net gains/(losses) on respective assets. Any related income or expense arising from the pricing difference between purchase and sale of the underlying assets is recognized as interest income or expense.

Derivative financial instruments

The Group enters into derivative financial instruments to manage currency and liquidity risks and such financial instruments are held primarily for trading purposes. Derivatives entered into by the Group include forwards, swaps and foreign currency options.

Derivative financial instruments are initially recorded and subsequently measured at fair value which approximates the fair value of the consideration given, with their subsequent re-measurement to fair value. Fair values are obtained from the interest rates model. Most of the derivatives the Group enters into are of a short-term and speculative nature. The results of the valuation of derivatives are reported in assets (aggregate of positive market values) or liabilities (aggregate of negative market values), respectively. Both positive and negative valuation results are recognized in the profit and loss for the year in which they arise.

Originated loans

Loans originated by the Group are financial assets that are created by the Group by providing money directly to a borrower or by participating in a loan facility.

Loans granted by the Group with fixed maturities are initially recognized in accordance with the policy stated below. The difference between the nominal amount of consideration given and the amortized cost of loans issued at lower than market terms is recognized in the period the loan is issued as initial recognition adjustment discounting using market rates at inception and included in the profit and loss account as losses on origination of assets. Subsequently, the carrying amount of such loans is adjusted for amortization of the losses on origination and the related income is recorded as interest income within the profit and loss account using the effective interest method. Loans to customers that do not have fixed maturities are carried at cost. Loans to customers are carried net of any allowance for loan losses.

Write off of loans and advances

Loans are written off against allowance for loan losses in case of uncollectibility of loans and advances, including through repossession of collateral. Loans and advances are written off after management has

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

exercised all possibilities available to collect amounts due to the Group and after the Group has received all available collateral. The decision on writing off bad debt to loan loss allowance for all major, preferential, unsecured and insider loans should necessarily be confirmed with a procedural document of judicial or notary bodies certifying that at the time of the decision the debt could not be repaid (partially repaid) with the debtor's funds.

Non-accrual loans

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is thereafter recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Allowance for impairment losses

The Group establishes an allowance for impairment losses of financial assets when there is objective evidence that a financial asset or group of financial assets is impaired. The allowance for impairment losses is measured as the difference between carrying amounts and the present value of expected future cash flows, including amounts recoverable from guarantees and collateral, discontinued at the financial asset's original effective interest rate, for financial assets which are carried at amortised cost. If in a subsequent period the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the allowance account. For financial assets carried at cost the allowance for impairment losses is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

The determination of the allowance for impairment losses is based on an analysis of the risk assets and reflects the amount which, in the judgment of management, is adequate to provide for losses incurred. Provisions are made as a result of an individual appraisal of risk assets for financial assets that are individually significant, and an individual or collective assessment for financial assets that are not individually significant.

The change in the allowance for impairment losses is charged to profit and the total of the allowance for impairment losses is deducted in arriving at assets as shown in the consolidated balance sheet. Factors that the Group considers in determining whether it has objective evidence that an impairment loss has been incurred include information about the debtors' or issuers' liquidity, solvency and business and financial risk exposures, levels of and trends in delinquencies for similar financial assets, national and local economic trends and conditions, and the fair value of collateral and guarantees. These and other factors may, either individually or taken together, provide sufficient objective evidence that an impairment loss has been incurred in a financial asset or group of financial assets.

It should be understood that estimates of impairment losses involve an exercise of judgment. While it is possible that in particular periods the Group may sustain losses, which are substantial relative to the allowance for impairment losses, it is the judgment of management that the allowance for impairment losses is adequate to absorb losses incurred on the risk assets.

Finance leases

Leases that transfers substantially all the risks and rewards incident to ownership of an asset. Title may or may not eventually be transferred. Whether a lease is a finance lease or an operating lease depends on the substance of the transaction rather than the form of the contract. The lease classified as a finance lease if:

- the lease transfers ownership of the asset to the lessee by the end of the lease term;
- the lessee has the option to purchase the asset at a price which is expected to be sufficiently lower than the fair value at the date the option becomes exercisable such that, at the inception of the lease, it is reasonably certain that the option will be exercised;

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

- the lease term is for the major part of the economic life of the asset even if title is not transferred;
- at the inception of the lease the present value of the minimum lease payments amounts to at least substantially all of the fair value of the leased asset; and,
- the leased assets are of a specialised nature such that only the lessee can use them without major modifications being made.

Group as lessor

The Group presents leased assets as loans equal to the net investment in the lease. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding. Initial direct costs are recognized as expenses when incurred.

Investments available-for-sale

Investments available-for-sale represent debt and equity investments that are intended to be held for an indefinite period of time. Such securities are initially recorded at fair value. Subsequently the securities are measured at fair value, with such re-measurement recognized directly in equity, plus accrued coupon income. The Group uses quoted market prices to determine the fair value for the Group's investments available-for-sale. If such quotes do not exist, management estimation is used. Interest earned on investments available-for-sale is reflected in the consolidated profit and loss account as interest income on investment securities. Dividends received are included in dividend income in the consolidated profit and loss account.

When there is objective evidence that such securities have been impaired, the cumulative loss previously recognized in equity is removed from equity and recognized in profit and loss for the period. Reversals of such impairment losses on debt instruments, which are objectively related to events occurring after the impairment, are recognized in profit and loss for the period. Reversals of such impairment losses on equity instruments are not recognized in profit and loss.

Investments held-to-maturity

Investments held-to-maturity are debt securities with determinable or fixed payments. The Group has the positive intent and ability to hold them to maturity. Such securities are carried at amortized cost, less any allowance for impairment.

Fixed and intangible assets

Fixed and intangible assets are carried at historical cost less accumulated depreciation and any accumulated impairment loss. Depreciation of fixed and intangible assets is designed to write off assets over their useful economic lives and is calculated on a straight line basis at the following annual prescribed rates:

Buildings	2-4%
Furniture and equipment	20-50%
Intangible assets	10-30%

The carrying amounts of fixed and intangible assets are reviewed at each balance sheet date to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed this estimated recoverable amount, assets are written down to their recoverable amount. An impairment loss is recognized in the respective period and is included in other administrative and operating expenses. After the recognition of an impairment loss the depreciation charge for fixed assets is adjusted in future periods to allocate the assets' revised carrying value, less its residual value (if any), on a systematic basis over its remaining useful life.

Leasehold improvements are amortized over the life of the related leased asset. Expenses related to repairs and renewals are charged when incurred and included in other administrative and operating expenses unless they qualify for capitalization.

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

Taxation

Income tax expense represents the sum of the current and deferred tax expense.

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's current tax expense is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the consolidated profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Kazakhstan, where the Group operates also has various other taxes, which are assessed on the Group's activities. These taxes are included as a component of operating expenses in the consolidated profit and loss account.

Deposits from banks and customers

Customers and bank deposits are initially recognized at fair value, which amounts to the issue proceeds less transaction costs incurred. Subsequently amounts due are stated at amortized cost and any difference between net proceeds and the redemption value is recognized in the consolidated profit and loss account over the period of the borrowings using the effective interest method.

Debt securities issued

Debt securities issued represent debentures issued by the Group. They are accounted for according to the same principles used for customer and bank deposits.

Subordinated debt

Subordinated debt represent bonds issued by the Group to customers. In the event of bankruptcy or liquidation of the Group, repayment of this debt is subordinated to the repayments of the Group's liabilities to all other creditors.

Provisions

Provisions are recognized when the Group has a present obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made.

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

Share capital and share premium

Share capital is recognized at restated cost. Share capital contributions made in the form of assets other than cash are stated at their fair value at the date of contribution.

External costs directly attributable to the issue of new shares, other than on a business combination, are deducted from equity net of any related income taxes.

Dividends on ordinary shares are recognized in shareholders' equity as a reduction in the period in which they are declared. Dividends that are declared after the balance sheet date are treated as a subsequent event under IAS 10 "Events After the Balance Sheet Date" and disclosed accordingly.

Retirement and other benefit obligations

The Group does not incur any expenses in relation to provision of pensions to its employees. In accordance with the legal requirements of the Republic of Kazakhstan, the Group withholds pension contributions from employee salaries and transfers them into nonstate pension funds. Current contributions by the employer are calculated as a percentage of current gross salary payments with the expense charged in the period in which the related salaries are earned. Upon retirement of employees, all pension payments are administered by the above pension funds. The Group does not have any other pension arrangements schemes.

Recognition of income and expense

Interest income and expense are recognized on an accrual basis using effective interest rate method. Interest income also includes income earned on investments and securities held-for-trading. Other income is credited to profit and loss account when the related transactions are completed. Commission income/expenses are recognized on an accrual basis.

Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into KZT at the appropriate spot rates of exchange ruling at the balance sheet date. Foreign currency transactions are accounted for at the exchange rates prevailing at the date of transaction. Profits and losses arising from these translations are included in net gain on foreign exchange transactions.

Rates of exchange

The exchange rates at year-end used by the Group in the preparation of the consolidated financial statements are as follows:

	<u>31 December 2004</u>	<u>31 December 2003</u>
KZT/USD	130.00	144.22
KZT/EUR.....	177.10	180.23

Offset of financial assets and liabilities

Financial assets and liabilities are offset and reported net on the balance sheet when the Group has a legally enforceable right to set off the recognized amounts and the Group intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Fiduciary activities

The Group provides trustee services to its customers. Also the Group provides depository services to its customers that include transactions with securities on their depo accounts. Assets accepted and liabilities incurred under the trustee activities are not included in the Group's consolidated financial statements. The Group accepts the operational risk on these activities, but the Group's customers bear the credit and market risks associated with such operations.

JSC BANK CENTERCREDIT

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated)
FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003**

Reclassifications and restatements

Certain reclassifications have been made to the consolidated balance sheet as at 31 December 2003 and consolidated profit and loss account for the year ended 31 December 2003 to conform to the presentation for the year ended 31 December 2004. The opening balances of equity as at 31 December 2002 were also restated due to the adoption of amended IAS 39 “Financial Instruments: Recognition and Measurement”. See Note 33 for details.

4. NET INTEREST INCOME

	Year ended 31 December 2004	Year ended 31 December 2003
	<i>KZT'000</i>	<i>KZT'000</i>
Interest income

12. INCOME TAXES

The Group provides for taxes based on the statutory tax accounts maintained and prepared in accordance with the Kazakhstani statutory tax regulations which may differ from International Financial Reporting Standards.

The Group is subject to certain permanent tax differences due to non-tax deductibility of exchange losses and other expenses and tax-free regime under local tax regulations.

Deferred tax reflects the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes. Temporary differences as of 31 December 2004 and 2003 relate mostly to different methods of income and expense recognition as well as to recorded values of certain assets.

JSC BANK CENTERCREDIT

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated)
FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003**

				7,475,295	4,160,537

Discount on the interest bearing notes is amortized over the life of the note and is recorded in interest expense on debt securities issued using the effective interest rate method.

27. SHARE CAPITAL

As of 31 December 2004 and 2003 share capital authorized, issued and fully paid comprised of 36,811,244 and 25,316,695 ordinary shares. All ordinary shares are ranked equally and carry one vote. Share premium represents the excess of contributions received over the nominal value of shares issued.

During the years ended 31 December 2004 and 2003 the Group issued 11,494,549 and 10,000,000 ordinary shares, respectively.

28. FINANCIAL COMMITMENTS AND CONTINGENCIES

In the normal course of business the Group is a party to financial instruments with off-balance sheet risk in order to meet the needs of its customers. These instruments, involving varying degrees of credit risk, are not reflected in the consolidated balance sheet.

The Group's maximum exposure to credit loss under contingent liabilities and commitments to extend credit, in the event of non-performance by the other party where all counterclaims, collateral or security prove valueless, is represented by the contractual amounts of those instruments.

The Group uses the same credit control and management policies in undertaking off-balance sheet commitments as it does for on-balance operations.

The risk-weighted amount is obtained by applying credit conversion factors and counterparty risk weightings according to the principles employed by the Basel Committee on Banking Supervision.

As of 31 December 2004 and 2003, the nominal or contract amounts and the risk weighted credit equivalents of instruments with off-balance sheet risks were:

Capital commitments

The Group had no material commitments for capital expenditures outstanding as of 31 December 2004 and 2003.

Rental commitments

No material rental commitment was outstanding as of 31 December 2004 and 2003.

Fiduciary activities

In the normal course of its business the Group enters into agreements with limited right on decision making with clients for their assets management in accordance with specific criteria established by clients. The Group may be liable for losses or actions aimed at appropriation of the clients' funds until such funds or securities are returned to the client. These amounts are the average balance of the clients' funds under the management of the Group during 2004 and 2003, including assets under trusteeship as of 31 December 2004 and 2003 in the amount of KZT 13,773,403 thousand and KZT 5,572,000 thousand, respectively.

The Group renders depository services. As of 31 December 2004 the Group had 3,416,936,126 items of securities at nominal account for dealing operations of clients.

Legal proceedings

From time to time and in the normal course of business, claims against the Group are received from customers and counterparties. Management is of the opinion that no material unaccrued losses will be incurred and accordingly no provision has been made in these consolidated financial statements.

Taxes

Kazakhstani commercial legislation, and tax legislation in particular may give rise to varying interpretations and amendments, which may be retrospective. In addition, as Management's interpretation of tax legislation may differ from that of the tax authorities, transactions may be challenged by the tax authorities, and as a result the Group may be assessed additional taxes, penalties and interest. The Group believes that it has already made all tax payments, and therefore no allowance has been made in the financial statements. Tax years remain open to review by the tax authorities for five years.

Pensions and retirement plans

Employees receive pension benefits in accordance with the laws and regulations of the Republic of Kazakhstan. As of 31 December 2004 and 2003, the Group was not liable for any supplementary pensions, post-retirement health care, insurance benefits, or retirement indemnities to its current or former employees.

Operating environment

The Group's principal business activities are within the Republic of Kazakhstan. Laws and regulations affecting the business environment in the Republic of Kazakhstan are subject to rapid changes and the Group's assets and operations could be at risk due to negative changes in the political and business environment.

JSC BANK CENTERCREDIT

FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003**

29. TRANSACTIONS WITH RELATED PARTIES

Related parties, as defined by IAS 24 (Related party disclosures), are those counter parties that represent:

- (a) enterprises that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the reporting enterprise. (This includes holding companies, subsidiaries and fellow subsidiaries);
- (b) individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group;
- (c) key management personnel, that is, those persons having authority and responsibility for planning, directing and controlling the activities of the Group, including directors and officers of the Group and close members of the families of such individuals; and
- (d) enterprises in which a substantial interest in the voting power is owned, directly or indirectly, by any person described in (c) or (d) or over which such a person is able to exercise significant influence. This includes enterprises owned by directors or major shareholders of the Group' and enterprises that have a member of key management in common with the Group.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form. The Group had the following transactions outstanding with related parties as of 31 December 2004 and 31 December 2003:

	2004		2003	
	<i>KZT'000</i>		<i>KZT'000</i>	
	Related party transactions	Total category as per financial statements caption	Related party transactions	Total category as per financial statements caption

Guarantees issued	5,040	9,062,886	5,913	3,907,898

During the years ended 31 December 2004 and 2003 the Group originated loans to customers – related parties amounting to KZT 977,179 thousand and KZT 335,580 thousand, respectively, and received loans repaid of KZT 133,614 thousand and KZT 256,699 thousand, respectively. The Group has interest income accrued in respect of loans granted to related parties totaling KZT 65,348 thousand and KZT 67,845 thousand, respectively, as of 31 December 2004 and 2003.

During the year ended 31 December 2004 and 2003 the Group received advances from customers – related parties of KZT 589,789 and KZT nil, respectively and deposits and advances repaid totaling KZT 251,163 and KZT nil, respectively.

As of 31 December 2004 and 2003 the Group purchased securities under repos agreements from related parties for the total of KZT 114,275 thousand and KZT 71,800 thousand, respectively.

During the years ended 31 December 2004 and 2003 the Group issued guarantees and standby letters of credit on behalf of related parties of KZT 646,225 thousand and KZT 123,511 thousand, respectively.

During the years ended 31 December 2004 and 2003 the Group issued on the KASE (Kazakhstani exchange) the debt securities for amount KZT 4,883,373 thousand and KZT 1,927,268 thousand, respectively.

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

Included in the consolidated profit and loss account for the years ended 31 December 2004 and 2003 are the following amounts which arose due to transactions with related parties:

	2004		2003	
	<i>KZT'000</i>		<i>KZT'000</i>	
	Related party transactions	Total category as per financial statements caption	Related party transactions	Total category as per financial statements caption

– related companies.....	135,143		40,768	
– directors.....	12,383		5,006	
Interest expense.....		6,355,305		3,333,540
– related companies.....	1,514		226	
Salary for key management personnel.....	49,423	1,743,103	31,592	1,160,840

Transactions with related parties entered by the Group during the years ended 31 December 2004 and 2003 and outstanding as of 31 December 2004 and 2003 were made in the normal course of business and mostly under arm-length conditions.

30. FAIR VALUE OF FINANCIAL INSTRUMENTS

Estimated fair value disclosures of financial instruments is made in accordance with the requirements of IAS 32 “Financial Instruments: Disclosure and Presentation” and IAS 39 “Financial Instruments: Recognition and Measurement”. Fair value is defined as the amount at which the instrument could be exchanged in a current transaction between knowledgeable willing parties in an arm’s length transaction, other than in forced or liquidation sale. As no readily available market exists for a large part of the Group’s financial instruments, judgment is necessary in arriving at fair value, based on current economic conditions and specific risks attributable to the instrument. The estimates presented herein are not necessarily indicative of the amounts the Group could realize in a market exchange from the sale of its full holdings of a particular instrument.

As of 31 December 2004 and 2003 the following methods and assumptions were used by the Group to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

Cash and balances with the National Bank of the Republic of Kazakhstan

For these short-term instruments the carrying amount is a reasonable estimate of fair value.

Loans and advances to bank

As of 31 December 2004 and 2003, the carrying amount of loans and advances given is a reasonable estimate of their fair value.

Assets held-for-trading

As of 31 December 2004 and 2003 assets held-for-trading are stated at fair value. The fair value of assets held-for-trading was determined with reference to an active market.

Securities purchased under repurchase agreements

As of 31 December 2004 and 2003, the carrying amount of securities purchased under repurchase agreements is a reasonable estimate of the fair value.

Loans to customers

The fair value of the loan portfolio is based on the credit and interest rate characteristics of the individual loans within each sector of the portfolio. The estimation of the provision for impairment losses includes

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

consideration of risk premiums applicable to various types of loans based on factors such as the current situation of the economic sector in which each borrower operates, the economic situation of each borrower and guarantees obtained. Accordingly, the provision for impairment losses is considered a reasonable estimate of the discount required to reflect the impact of credit risk.

Investments available-for-sale

As of 31 December 2004 and 2003 debt securities available-for-sale are stated at fair value amounting to KZT 21,172,574 thousand and KZT 8,446,759 thousand, respectively, plus accrued coupon income totaling KZT 181,600 thousand and KZT 107,261, respectively. Fair value of investments available-for-sale was determined with reference to an active market for those securities quoted publicly or at over-the-counter market.

As of 31 December 2003 securities for the amount KZT 44,000 thousands were accounted at cost and 100% allowance for impairment was created.

For unquoted securities fair value was determined by reference to market prices of securities with similar credit risk and/or maturity, in other cases – by reference to the share in estimated equity capital of investee. If such quotes do not exist, management estimation is used.

Investments held-to-maturity

Investments held-to-maturity are stated at cost and adjusted for accretion and amortization of premiums and discounts, respectively. The fair value of investments held-to-maturity as of 31 December 2004 was KZT 45,422 thousand. The fair value of securities held-to-maturity was determined with reference to an active market for those securities quoted publicly or at over-the-counter market. For unquoted securities the fair value was determined by reference to market prices of securities with similar credit risk and/or maturity.

Loans and advances from banks

As of 31 December 2004 and 2003 the carrying amount is a reasonable estimate of their fair value.

Customer accounts

As of 31 December 2004 and 2003, the carrying amount of customer deposits and current customer accounts is a reasonable estimate of their fair value.

Securities purchased under repurchase agreements

As of 31 December 2003 the carrying value of securities sold under repos agreement is a reasonable estimate of their fair value.

Subordinated debt

As of 31 December 2004 and 2003 the carrying amount of subordinated debt is a reasonable estimate of its fair value.

31. REGULATORY MATTERS

Quantitative measures established by regulation to ensure capital adequacy require the Group to maintain minimum amounts and ratios (as set forth in the table below) of total and tier 1 capital to risk weighted assets.

The capital is calculated as the amount of restricted and free components of the shareholders' capital plus the Group's provisions for the principal risks.

The ratio was calculated according to the principles employed by the Basel Committee by applying the following risk estimates to the assets and off-balance sheet commitments net of allowances for losses:

JSC BANK CENTERCREDIT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated) FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003

<u>Estimate</u>	<u>Description of position</u>
0%	Cash and balances with the NBRK
0%	State debt securities in KZT
20%	Loans and advances to banks for up to 1 year
100%	Loans to customers
100%	Guarantees
100%	Other assets

The Group's actual capital amounts and ratios are presented in the following table:

<u>Capital amounts and ratios</u>	<u>Actual amount</u>	<u>For Capital Adequacy purposes</u>	<u>Ratio For Capital Adequacy purposes</u>	<u>Minimum Required Ratio</u>
	<i>KZT'000</i>	<i>KZT'000</i>	<i>%</i>	<i>%</i>
At 31 December 2004				
Total capital	12,275,420	18,775,420	16.74	8
Tier 1 capital	7,466,920	11,573,641	10.32	4
At 31 December 2003				
Total capital	7,487,084	10,902,858	15.82	8
Tier 1 capital	5,168,010	6,831,547	9.91	4

During computation of total capital for capital adequacy purposes as of 31 December 2003 the Group included the subordinated debt received, limited to 50% of Tier 1 capital. In the event of bankruptcy or liquidation of the Group repayment of this debt is subordinated to the repayments of the Group's liabilities to all other creditors.

32. RISK MANAGEMENT POLICIES

Management of risk is fundamental to the banking business and is an essential element of the Group's operations. The main risks inherent to the Group's operations are those related to credit exposures, liquidity and market movements in interest rates and foreign exchange rates. A description of the Group's risk management policies in relation to those risks follows.

The Group manages the following risks:

Liquidity risk

Liquidity risk refers to the availability of sufficient funds to meet deposit withdrawals and other financial commitments associated with financial instruments as they actually fall due.

The Treasury Department performs management of these risks through analysis of asset and liability maturity and performance of money market transactions for current liquidity support and cash flow optimisation. Risk Analysis and Management Department performs determination of the optimum structure of balance, limits on liquidity ratios and gap-positions approved by the Assets and Liabilities Management Committee. Risk Analysis and Management Department performs monitoring of liquidity ratios.

Cash flow interest rate risk

Cash flow interest rate risk – the risk that the future cash flow of a financial instrument will fluctuate because of changes in market interest rates.

The Treasury Department performs management of interest rate and market risks through determination of the transferring rates and general rates of borrowed and allocated resources, which enables the Group to avoid negative interest margin. Risk Analysis and Management Department develops limits for interest gaps and performs monitoring of spread level and net interest margin. Assets and Liabilities Management Committee approves limits on interest gaps, transferring rates and general interest rates for borrowed and allocated resources.

JSC BANK CENTERCREDIT

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated)
FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003**

The following table presents an analysis of interest rate risk and thus the potential of the Group for gain or loss. Effective interest rates are presented by categories of financial assets and liabilities to determine interest rate exposure and effectiveness of the interest rate policy used by the Group.

Currency risk

Currency risk is defined as the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group is exposed to effects of fluctuation in the prevailing foreign currency exchange rates on its financial position and cash flows.

The Treasury Department performs currency risk management through management of open currency position, which enables the Group to minimize losses from significant fluctuations of exchange rates of

JSC BANK CENTERCREDIT

national and foreign currencies. Risk Analysis and Management Department determines limits on open currency positions, arbitrary positions and stop-loss. All limits and restrictions are approved by the Assets and Liabilities Management Committee. Risk Analysis and Management Department performs monitoring.

The Group's exposure to foreign currency exchange rate risk is presented in the table below:

Credit risk

The Group is exposed to credit risk which is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Assets and Liabilities Management Committee sets limits on size and structure of risk assets. The Credit Committee approves each new loan and lease, and any changes and amendments to such agreements. The Credit Department performs current monitoring.

The Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers, and to industry (and geographical) segments. Limits on the level of credit risk by borrower and product (by industry sector, by region) are approved by the Credit Committee. The exposure to any one borrower including banks and brokers is further restricted by sub-limits covering on and off-balance sheet exposures which are set by the Credit Committee. Actual exposures against limits are monitored daily.

Where appropriate, and in the case of most loans, the Group obtains collateral and corporate and personal guaranties. Such risks are monitored on a continuous basis and subject to annual or more frequent reviews.

Commitments to extend credit represent unused portions of credit in the form of loans, guarantees or letters of credit. The credit risk on off-balance sheet financial instruments is defined as a probability of losses due to inability of the counterparty to comply with the contractual terms and conditions. With respect to credit risk on commitments to extend credit, the Group is potentially exposed to loss in an amount equal to the total unused commitments. However, the likely amount of loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific credit standards. The Group applies the same credit policy to the contingent liabilities as it does

JSC BANK CENTERCREDIT

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (restated)
FOR THE YEARS ENDED 31 DECEMBER 2004 AND 2003**

to the balance sheet financial instruments, i.e. the one based on the procedures for approving the grant of loans, using limits to mitigate the risk, and current monitoring. The Group monitors the term to maturity of credit commitments because longer term commitments generally have a greater degree of credit risk than shorter-term commitments.

Geographical concentration

The geographical concentration of assets and liabilities is set out below:

JOINT STOCK COMPANY BANK CENTERCREDIT

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

1. ORGANISATION

JSC Bank CenterCredit (the “Bank”) is a joint-stock bank, which was incorporated in the Republic of Kazakhstan and started its operations in 1988. The Bank is regulated by the National Bank of the Republic of Kazakhstan (the “NBRK”) and conducts its business under license number 248 dated 9 June 2004 given by the Agency of the Republic of Kazakhstan on financial market and financial institutions regulation and inspectorate. The Bank’s primary business consists of commercial banking activities, trading with securities, loans, foreign currencies and derivative instruments, originating loans and guarantees.

The registered address is: 100, Shevchenko Street, Almaty, Kazakhstan.

The Bank has 19 branches in the Republic of Kazakhstan.

The Bank is a parent company of the Banking Group (the “Group”), consisting of the following enterprises consolidated in the financial statements:

Name	Country of operation	The Bank ownership interest		Type of operation
		2005	2004	
Capital	Republic of Kazakhstan	85%	85%	Pension Fund
Center Leasing	Republic of Kazakhstan	100%	100%	Finance lease of property
KIB ASSET MANAGEMENT	Republic of Kazakhstan	100%	100%	Securities trading

Capital was established as a closed joint stock company on 15 October 2001 in accordance with legislation of the Republic of Kazakhstan. On 24 December 2003 Capital was reregistered as a joint stock company, with certificate of state reregistration #43348 1910-AO. The main activity of the company is the attraction of pension contributions and performance of pension payments. Capital manages pension contributions inflow and accumulation on individual pension accounts in accordance with the requirements of legislative authorities of the Republic of Kazakhstan. Capital has a state general license # 0000021 for the attraction of pension funds and performance of pension payments, dated 19 January 2004.

CenterLeasing was established on 15 January 2002 as a limited liability partnership in accordance with legislation of the Republic of Kazakhstan, with certificate of state registration #45222-1910-TOO. The main activity of CenterLeasing is leasing operations.

KIB ASSET MANAGEMENT was established on 7 May 1998 as a limited liability partnership in accordance with legislation of the Republic of Kazakhstan. On 18 June 2003 KIB ASSET MANAGEMENT was reregistered as a joint stock company, certificate of state reregistration #56185 –1910-AO. The main activity of KIB ASSET MANAGEMENT is operations with securities. The Company has a license #20030154 dated 5 June 1998 for brokerage and dealer activity on the Kazakhstan stock exchange with the right to maintain customer accounts as a nominal holder.

The Bank does not own any shares in “BCC” LLP and “Aktas-Zhol” LLP, but they are consolidated in the Group’s financial statements as special purpose entities (the “SPEs”).

Aktas Zhol was established on 3 April 2001 as a limited liability partnership in accordance with legislation of the Republic of Kazakhstan, certificate of state registration #7802-1907-TOO. The main activities of Aktas Zhol are production of construction materials and the rent of buildings. Aktas Zhol has a license for the production of construction materials #006377-GSL, dated 16 August 2001.

BCC was established on 22 December 1998 as a limited liability partnership in accordance with legislation of the Republic of Kazakhstan, certificate of state registration #23270-1910-TOO. The main activity of BCC is the rent of buildings and property valuation. BCC has a license for real estate valuation #0000098 UL-001, dated 14 February 2002.

The number of employees of the Group at 30 September 2005 and 31 December 2004 was 2,642 and 2,106, respectively.

As at 30 September 2005, one shareholder – JSC BTA Kurmet – Kazakhstan Pension Fund owned more than 5% of the outstanding shares (5.72%).

JOINT STOCK COMPANY BANK CENTERCREDIT

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

These interim condensed consolidated financial statements were authorized for issue by the Board of Directors on 4 November 2005.

2. BASIS OF PRESENTATION

Accounting basis – The interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 “Interim Financial Reporting”. These interim condensed consolidated financial statements are presented in thousands of Kazakhstani Tenge (“KZT”), except for earning per share amounts and unless otherwise indicated. These interim condensed consolidated financial statements have been prepared on an accruals basis under the historical cost convention modified for the measurement at fair value of available-for-sale investment securities and financial assets and financial liabilities held for trading.

The Group maintains its accounting records in accordance with the Accounting policy authorized by the Resolution of the Board of Directors of the Group. These consolidated financial statements have been prepared from the statutory accounting records and have been adjusted to conform to IFRS.

The preparation of the consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates that are particularly susceptible to change relate to the provisions for losses on loans and impairment and the fair value of financial instruments.

Functional currency – The functional currency of these consolidated financial statements is Kazakhstan tenge (“KZT”).

Adoption of amended IAS 39 – According to IAS 39 “Financial Instruments: Recognition and Measurement” (applied for annual periods beginning on or after 1 January 2005) unrealized gains or losses on investments available - for - sale are recognized directly in equity except for impairment losses and foreign exchange gains and losses. Furthermore, this Standard is applied retrospectively. Therefore the opening balances of equity as of 31 December 2003, the profit and loss account for the nine months ended 30 September 2005 and the respective comparative information presented in these consolidated financial statements were restated by the Group as if this Standard had always been in use. The effect of the adoption of amended IAS 39 is disclosed in the statement of changes in equity.

Interim reporting – The condensed interim consolidated financial statements should be read in conjunction with the 2004 annual consolidated financial statements of the Group, which were authorized for issue on 18 February 2005.

Since the results of the Group’s operation closely relate to and depend on changing market conditions, the results of the Group’s operation for the interim period do not necessarily reflect a trend for the total year end results.

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidation – The consolidated financial statements incorporate the financial statements of the Bank and its subsidiaries. The consolidated financial statements are prepared on a quarterly basis. Control is achieved where the Bank has the power to govern the financial and operating policies of an investee entity so as to obtain benefits from its activities. Consolidated financial statements also include statements of SPEs.

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired (i.e. discount on acquisition) is credited to profit and loss in the period of acquisition. The interest of minority shareholders is stated at the minority’s proportion of the fair values of the assets and liabilities recognised. Subsequently, any losses applicable to the minority interest in excess of the minority interest are allocated against the interests of the parent.

JOINT STOCK COMPANY BANK CENTERCREDIT

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

The results of subsidiaries acquired or disposed of during the year are included in the consolidated profit and loss account from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of consolidated entities to bring the accounting policies used into line with those used by the Group.

All intra-group transactions, balances, income and expenses are eliminated on consolidation.

Recognition and measurement of financial instruments – The Group recognizes financial assets and liabilities on its balance sheet when it becomes a party to the contractual provisions of the instrument. Regular way purchase and sale of the financial assets and liabilities are recognized using settlement date accounting. For regular way purchases of financial instruments that will be subsequently measured at fair value between trade date and settlement date is accounted for in the same way as for acquired instruments.

Financial assets and liabilities are initially recognized at fair value plus, in the case of a financial asset or financial liability not at fair value through profit or loss transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. The accounting policies for subsequent re-measurement of these items are disclosed in the respective accounting policies set out below.

Cash and balances with NBRK – Cash and balances with NBRK include cash on hand, unrestricted balances on correspondent and time deposit accounts with the National Bank of the Republic of Kazakhstan with original maturity within 90 days, and advances to banks in countries included in the Organization for Economic Cooperation and Development (“OECD”).

Loans and advances to banks – In the normal course of business, the Group maintains advances or deposits for various periods of time with other banks. Loans and advances to banks with a fixed maturity term are subsequently measured at amortized cost using the effective interest method. Those that do not have fixed maturities are carried at cost. Amounts due from credit institutions are carried net of any allowance for impairment losses.

Assets held-for-trading – Assets held-for-trading represent assets acquired principally for the purpose of selling them in the near term and for which there is evidence of a recent and actual pattern of short-term profit-taking, or it is a derivative. Assets held-for-trading are initially recorded and subsequently measured at fair value. The Group uses quoted market prices to determine fair value for the Group’s assets held-for-trading. When reliable market prices are not available or if liquidating the Group’s position would reasonably be expected to impact market prices, fair value is determined by reference to price quotations for similar instruments traded in different markets or management’s estimates of the amounts that can be realized from an orderly disposition over a period of time, assuming current market conditions. Fair value adjustment on assets held-for-trading is recognized in profit and loss for the period.

Repurchase and reverse repurchase agreements – The Group enters into sale and purchase back agreements (“repos”) and purchase and sale back agreements (“reverse repos”) in the normal course of its business. Repos and reverse repos are utilized by the Group as an element of its treasury management and trading business.

A repo is an agreement to transfer a financial asset to another party in exchange for cash or other consideration and a concurrent obligation to reacquire the financial assets at a future date for an amount equal to the cash or other consideration exchanged plus interest. These agreements are accounted for as financing transactions. Financial assets sold under repo are retained in the consolidated financial statements and consideration received under these agreements is recorded as collateralized deposit received.

Assets purchased under reverse repos are recorded in the consolidated financial statements as cash placed on deposit which is collateralized by securities and other assets.

In the event that assets purchased under reverse repo are sold to third parties, the results are recorded with the gain or loss included in net gains/(losses) on respective assets. Any related income or expense arising from the pricing difference between purchase and sale of the underlying assets is recognized as interest income or expense.

JOINT STOCK COMPANY BANK CENTERCREDIT

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

Derivative financial instruments – The Group enters into derivative financial instruments to manage currency and liquidity risks and such financial instruments are held primarily for trading purposes. Derivatives entered into by the Group include forwards, swaps and foreign currency options.

Derivative financial instruments are initially recorded and subsequently measured at fair value which approximates the fair value of the consideration given, with their subsequent re-measurement to fair value. Fair values are obtained from the interest rates model. Most of the derivatives the Group enters into are of a short-term and speculative nature. The results of the valuation of derivatives are reported in assets (aggregate of positive market values) or liabilities (aggregate of negative market values), respectively. Both positive and negative valuation results are recognized in the profit and loss for the year in which they arise.

Originated loans – Loans originated by the Group are financial assets that are created by the Group by providing money directly to a borrower or by participating in a loan facility.

Loans granted by the Group with fixed maturities are initially recognized in accordance with the policy stated below. The difference between the nominal amount of consideration given and the amortized cost of loans issued at lower than market terms is recognized in the period the loan is issued as initial recognition adjustment discounting using market rates at inception and included in the profit and loss account as losses on origination of assets. Subsequently, the carrying amount of such loans is adjusted for amortization of the losses on origination and the related income is recorded as interest income within the profit and loss account using the effective interest method. Loans to customers that do not have fixed maturities are carried at cost. Loans to customers are carried net of any allowance for loan losses.

Write off of loans and advances – Loans and advances are written off against allowance for loan losses in case of uncollectibility of loans and advances, including through repossession of collateral. Loans and advances are written off after management has exercised all possibilities available to collect amounts due to the Group and after the Group has sold all available collateral. The decision on writing off bad debt to loan loss allowance for all major, preferential, unsecured and insider loans should necessarily be confirmed with a procedural document of judicial or notary bodies certifying that at the time of the decision the debt could not be repaid (partially repaid) with the debtor's funds.

Non-accrual loans – Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is thereafter recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Allowance for impairment losses – The Group establishes an allowance for impairment losses of financial assets when there is objective evidence that a financial asset or group of financial assets is impaired. The allowance for impairment losses is measured as the difference between carrying amounts and the present value of expected future cash flows, including amounts recoverable from guarantees and collateral, discontinued at the financial asset's original effective interest rate, for financial assets which are carried at amortised cost. If in a subsequent period the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the allowance account. For financial assets carried at cost the allowance for impairment losses is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

The determination of the allowance for impairment losses is based on an analysis of the risk assets and reflects the amount which, in the judgment of management, is adequate to provide for losses incurred. Provisions are made as a result of an individual appraisal of risk assets for financial assets that are individually significant, and an individual or collective assessment for financial assets that are not individually significant.

The change in the allowance for impairment losses is charged to profit and the total of the allowance for impairment losses is deducted in arriving at assets as shown in the consolidated balance sheet. Factors that the Group considers in determining whether it has objective evidence that an impairment loss has been incurred include information about the debtors' or issuers' liquidity, solvency and business and financial

JOINT STOCK COMPANY BANK CENTERCREDIT

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

risk exposures, levels of and trends in delinquencies for similar financial assets, national and local economic trends and conditions, and the fair value of collateral and guarantees. These and other factors may, either individually or taken together, provide sufficient objective evidence that an impairment loss has been incurred in a financial asset or group of financial assets.

It should be understood that estimates of losses involve an exercise of judgment. While it is possible that in particular periods the Group may sustain losses, which are substantial relative to the allowance for impairment losses, it is the judgment of management that the allowance for impairment losses is adequate to absorb losses incurred on the risk assets.

Finance leases – Leases that transfers substantially all the risks and rewards incident to ownership of an asset. Title may or may not eventually be transferred. Whether a lease is a finance lease or an operating lease depends on the substance of the transaction rather than the form of the contract. The lease classified as a finance lease if:

- the lease transfers ownership of the asset to the lessee by the end of the lease term;
- the lessee has the option to purchase the asset at a price which is expected to be sufficiently lower than the fair value at the date the option becomes exercisable such that, at the inception of the lease, it is reasonably certain that the option will be exercised;
- the lease term is for the major part of the economic life of the asset even if title is not transferred;
- at the inception of the lease the present value of the minimum lease payments amounts to at least substantially all of the fair value of the leased asset; and,
- the leased assets are of a specialised nature such that only the lessee can use them without major modifications being made.

Group as lessor – The Group presents leased assets as loans equal to the net investment in the lease. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding. Initial direct costs are recognized as expenses when incurred.

Investments available-for-sale – Investments available-for-sale represent debt and equity investments that are intended to be held for an indefinite period of time. Such securities are initially recorded at fair value. Subsequently the securities are measured at fair value, with such re-measurement recognized directly in equity, plus accrued coupon income. The Group uses quoted market prices to determine the fair value for the Group's investments available-for-sale. If such quotes do not exist, management estimation is used. Interest earned on investments available-for-sale is reflected in the consolidated profit and loss account as interest income on investment securities. Dividends received are included in dividend income in the consolidated profit and loss account.

When there is objective evidence that such securities have been impaired, the cumulative loss previously recognized in equity is removed from equity and recognized in profit and loss for the period. Reversals of such impairment losses on debt instruments, which are objectively related to events occurring after the impairment, are recognized in profit and loss for the period. Reversals of such impairment losses on equity instruments are not recognized in profit and loss.

Investments held-to-maturity – Investments held-to-maturity are debt securities with determinable or fixed payments. The Group has the positive intent and ability to hold them to maturity. Such securities are carried at amortized cost, less any allowance for impairment.

Taxation – Income tax expense represents the sum of the current and deferred tax expense.

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's current tax expense is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases

JOINT STOCK COMPANY BANK CENTERCREDIT

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the consolidated profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Kazakhstan, where the Group operates also has various other taxes, which are assessed on the Group's activities. These taxes are included as a component of operating expenses in the consolidated profit and loss account.

Deposits from banks and customers – Customer and bank deposits are initially recognized at fair value, which amounts to the issue proceeds less transaction costs incurred. Subsequently amounts due are stated at amortized cost and any difference between net proceeds and the redemption value is recognized in the consolidated profit and loss account over the period of the borrowings using the effective interest method.

Debt securities issued – Debt securities issued represent debentures issued by the Group. They are accounted for according to the same principles used for customer and bank deposits.

Subordinated debt – Subordinated debt represent bonds issued by the Group to customers. In the event of bankruptcy or liquidation of the Group, repayment of this debt is subordinated to the repayments of the Group's liabilities to all other creditors.

Provisions – Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made.

Share capital – Share capital is recognized at restated cost. Share capital contributions made in the form of assets other than cash are stated at their fair value at the date of contribution.

External costs directly attributable to the issue of new shares, other than on a business combination, are deducted from equity net of any related income taxes.

Dividends on ordinary shares are recognized in shareholders' equity as a reduction in the period in which they are declared. Dividends that are declared after the balance sheet date are treated as a subsequent event under IAS 10 "Events After the Balance Sheet Date" and disclosed accordingly.

Retirement and other benefit obligations – The Group does not incur any expenses in relation to provision of pensions to its employees. In accordance with the legal requirements of the Republic of Kazakhstan, the Group withholds pension contributions from employee salaries and transfers them into nonstate pension funds. Current contributions by the employer are calculated as a percentage of current gross salary payments with the expense charged in the period in which the related salaries are earned. Upon retirement of employees, all pension payments are administered by the above pension funds. The Group does not have any other pension arrangements schemes.

Recognition of income and expense – Interest income and expense are recognized on an accrual basis using effective interest rate method. Interest income also includes income earned on investments and securities

JOINT STOCK COMPANY BANK CENTERCREDIT

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

held-for-trading. Other income is credited to profit and loss account when the related transactions are completed. Commission income/expenses are recognized on an accrual basis.

Foreign currency translation – Monetary assets and liabilities denominated in foreign currencies are translated into KZT at the appropriate spot rates of exchange ruling at the balance sheet date. Foreign currency transactions are accounted for at the exchange rates prevailing at the date of transaction. Profits and losses arising from these translations are included in net gain on foreign exchange operations.

Rates of exchange – The exchange rates at the end of the period used by the Group in the preparation of the consolidated financial statements are as follows:

	<u>30 September 2005</u>	<u>30 September 2004</u>
KZT/USD	133.89	130.00
KZT/EUR	161.39	177.10

Offset of financial assets and liabilities – Financial assets and liabilities are offset and reported net on the balance sheet when the Group has a legally enforceable right to set off the recognized amounts and the Group intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Fiduciary activities – The Group provides trustee services to its customers. Also the Group provides depositary services to its customers that include transactions with securities on their depo accounts. Assets accepted and liabilities incurred under the trustee activities are not included in the Group's financial statements. The Group accepts the operational risk on these activities, but the Group's customers bear the credit and market risks associated with such operations.

Reclassifications and restatements – Certain reclassifications have been made to the consolidated balance sheet as at 31 December 2004 and consolidated profit and loss account for the nine-months ended 30 September 2004 to conform to the presentation for the nine-months ended 30 September 2005. The opening balances of equity as at 31 December 2003 and 2004 were also restated due to the adoption of amended IAS 39 "Financial Instruments: Recognition and Measurement". See Note 2 for details.

Net interest income before provision for impairment losses on interest bearing assets	<u>7,725,199</u>	<u>4,645,267</u>

5. INCOME TAXES

The Group provides for taxes based on the statutory tax accounts maintained and prepared in accordance with the Kazakhstani statutory tax regulations which may differ from International Financial Reporting Standards.

JOINT STOCK COMPANY BANK CENTERCREDIT

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

The Group is subject to certain permanent tax differences due to non-tax deductibility of exchange losses and other expenses and tax-free regime under local tax regulations.

Deferred tax reflects the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes. Temporary differences as of 30 September 2005 and 31 December 2004 relate mostly to different methods of income and expense recognition as well as to recorded values of certain assets.

Temporary differences as at 30 September 2005 and 31 December 2004 comprise:

	30 September 2005 (unaudited)	31 December 2004
	<i>KZT'000</i>	<i>KZT'000</i>
Deferred assets:		
Loans and advances to banks and customers	1,075,343	799,000

16. SHARE CAPITAL

As at 30 September 2005 and 31 December 2004 share capital authorized, issued and fully paid comprised of 58,867,872 and 36,811,244 ordinary shares. All ordinary shares are ranked equally, carry one vote and have no par value.

During the period ended 30 September 2005 and year ended 31 December 2004 the Group issued 22,058,681 ordinary and 5,000,000 preferred shares and 11,494,549 ordinary and nil preferred shares, respectively.

Each preferred share does not have a voting right but has a right to a fixed income, calculated as inflation rate (consumer price index), published by Agency of the Republic of Kazakhstan on Statistics plus 1.5%.

During 2005 the Group did not pay dividends on preferred shares. According to certain requirements of the legislation of the Republic of Kazakhstan if the Group delays to pay a guaranteed amount of dividends on preferred shares, these preferred shares are granted a voting right.

17. FINANCIAL COMMITMENTS AND CONTINGENCIES

In the normal course of business the Group is a party to financial instruments with off-balance sheet risk in order to meet the needs of its customers. These instruments, involving varying degrees of credit risk, are not reflected in the consolidated balance sheet.

The Group's maximum exposure to credit loss under contingent liabilities and commitments to extend credit, in the event of non-performance by the other party where all counterclaims, collateral or security prove valueless, is represented by the contractual amounts of those instruments.

The Group uses the same credit control and management policies in undertaking off-balance sheet commitments as it does for on-balance operations.

The risk-weighted amount is obtained by applying credit conversion factors and counterparty risk weightings according to the principles employed by the Basel Committee on Banking Supervision.

JOINT STOCK COMPANY BANK CENTERCREDIT

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

As at 30 September 2005 and 31 December 2004, the nominal or contract amounts and the risk weighted credit equivalents of instruments with off-balance sheet risks were:

	30 September 2005 (unaudited)		31 December 2004	
	<i>KZT'000</i>		<i>KZT'000</i>	
	Nominal amount	Risk weighted amount	Nominal amount	Risk weighted amount
Contingent liabilities and credit commitments				
Guarantees issued and other similar commitments	21,358,727	21,358,727	9,062,886	9,062,886
Letters of credit and other transaction related contingent liabilities.	8,191,365	4,095,683	5,361,046	2,664,972
Total contingent liabilities and credit commitments	29,550,092	25,454,410	14,423,932	11,727,858

Capital commitments – The Group had no material commitments for capital expenditures outstanding as at 30 September 2005 and 31 December 2004.

Rental commitments – No material rental commitment was outstanding as at 30 September 2005 and 31 December 2004.

Fiduciary activities – In the normal course of its business the Group enters into agreements with limited right on decision making with clients for their assets management in accordance with specific criteria established by clients. The Group may be liable for losses or actions aimed at appropriation of the clients' funds until such funds or securities are returned to the client. These amounts are the average balance of the clients' funds under the management of the Group during nine-month period ended 30 September 2005 and 2004, including assets under trusteeship as at 30 September 2005 and 31 December 2004 in the amount of KZT 15,869,559 thousand and KZT 13,773,403 thousand, respectively.

Legal proceedings – From time to time and in the normal course of business, claims against the Group are received from customers and counterparties. Management is of the opinion that no material unaccrued losses will be incurred and accordingly no provision has been made in these consolidated financial statements.

Taxes – Kazakhstani commercial legislation, and tax legislation in particular may give rise to varying interpretations and amendments, which may be retrospective. In addition, as Management's interpretation of tax legislation may differ from that of the tax authorities, transactions may be challenged by the tax authorities, and as a result the Group may be assessed additional taxes, penalties and interest. The Group believes that it has already made all tax payments, and therefore no allowance has been made in the consolidated financial statements. Tax years remain open to review by the tax authorities for five years.

Pensions and retirement plans – Employees receive pension benefits in accordance with the laws and regulations of the Republic of Kazakhstan. As at 30 September 2005 and 31 December 2004, the Group was not liable for any supplementary pensions, post-retirement health care, insurance benefits, or retirement indemnities to its current or former employees.

Operating environment – The Group's principal business activities are within the Republic of Kazakhstan. Laws and regulations affecting the business environment in the Republic of Kazakhstan are subject to rapid changes and the Group's assets and operations could be at risk due to negative changes in the political and business environment.

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

18. TRANSACTIONS WITH RELATED PARTIES

Related parties, as defined by IAS 24 (Related party disclosures), are those counter parties that represent:

- (a) enterprises that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the reporting enterprise. (This includes holding companies, subsidiaries and fellow subsidiaries);
- (b) individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group;
- (c) key management personnel, that is, those persons having authority and responsibility for planning, directing and controlling the activities of the Group, including directors and officers of the Group and close members of the families of such individuals; and,
- (d) enterprises in which a substantial interest in the voting power is owned, directly or indirectly, by any person described in (c) or (d) or over which such a person is able to exercise significant influence. This includes enterprises owned by directors or major shareholders of the Group' and enterprises that have a member of key management in common with the Group.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form. The Group had the following transactions outstanding with related parties as at 30 September 2005 and 31 December 2004:

	30 September 2005 (unaudited)		31 December 2004

– related companies.	(5,576)		(21,192)	

Transactions with related parties entered into by the Group during the period were made in the normal course of business and mostly under arm-length conditions.

19. RISK MANAGEMENT POLICIES

Management of risk is fundamental to the banking business and is an essential element of the Group's operations. The main risks inherent to the Group's operations are those related to credit exposures,

JOINT STOCK COMPANY BANK CENTERCREDIT

SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2005

liquidity and market movements in interest rates and foreign exchange rates. A description of the Group's risk management policies in relation to those risks follows.

The Group manages the following risks:

Liquidity risk – Liquidity risk refers to the availability of sufficient funds to meet deposit withdrawals and other financial commitments associated with financial instruments as they actually fall due.

The Treasury Department performs management of these risks through analysis of asset and liability maturity and performance of money market transactions for current liquidity support and cash flow optimisation. Risk Analysis and Management Department performs determination of the optimum structure of balance, limits on liquidity ratios and gap-positions approved by the Assets and Liabilities Management Committee. Risk Analysis and Management Department performs monitoring of liquidity ratios.

Cash flow interest rate risk – Cash flow interest rate risk - the risk that the future cash flow of a financial instrument will fluctuate because of changes in market interest rates.

The Treasury Department performs management of interest rate and market risks through determination of the transferring rates and general rates of borrowed and allocated resources, which enables the Group to avoid negative interest margin. Risk Analysis and Management Department develops limits for interest gaps and performs monitoring of spread level and net interest margin. Assets and Liabilities Management Committee approves limits on interest gaps, transferring rates and general interest rates for borrowed and allocated resources.

The following table presents an analysis of interest rate risk and thus the potential of the Group for gain or loss. Effective interest rates are presented by categories of financial assets and liabilities to determine interest rate exposure and effectiveness of the interest rate policy used by the Group.

Currency risk – Currency risk is defined as the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group is exposed to effects of fluctuation in the prevailing foreign currency exchange rates on its financial position and cash flows.

The Treasury Department performs currency risk management through management of open currency position, which enables the Group to minimize losses from significant fluctuations of exchange rates of

JOINT STOCK COMPANY BANK CENTERCREDIT

Credit risk – The Group is exposed to credit risk which is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Assets and Liabilities Management Committee sets limits on size and structure of risk assets. The Credit Committee approves each new loan and lease, and any changes and amendments to such agreements. The Credit Department performs current monitoring.

The Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers, to industry and geographical segments. Limits on the level of credit risk by borrower, product, industry sector and by region are approved by the Credit Committee. The exposure to any one borrower including banks and brokers is further restricted by sub-limits covering on and off-balance sheet exposures which are set by the Credit Committee. Actual exposures against limits are monitored daily.

Where appropriate, and in the case of most loans, the Group obtains collateral and corporate and personal guaranties. Such risks are monitored on a continuous basis and subject to annual or more frequent reviews.

Commitments to extend credit represent unused portions of credit in the form of loans, guarantees or letters of credit. The credit risk on off-balance sheet financial instruments is defined as a probability of losses due to inability of the counterparty to comply with the contractual terms and conditions. With respect to credit risk on commitments to extend credit, the Group is potentially exposed to loss in an amount equal to the total unused commitments. However, the likely amount of loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific credit standards. The Group applies the same credit policy to the contingent liabilities as it does to the balance sheet financial instruments, i.e. the one based on the procedures for approving the grant of loans, using limits to mitigate the risk, and current monitoring. The Group monitors the term to
